

AWARD.Winning

PROJECT RESULTS:

- 50% INCREASE IN WATER PRODUCTION
- SUSTAINABLE LOCAL WATER SUPPLY
- LONG-TERM WATER RATE STABILITY
- REDUCES NEED FOR IMPORTED WATER
- PROTECTS CLEAR-WATER BASIN
- ENERGY EFFICIENT
- 20 LOCAL JOBS CREATED
- QUIETER TREATMENT PROCESS
- DEMONSTRATION & EDUCATION RESOURCE

Partnering with Carollo Engineers Inc. and MWH, Mesa Water District will accomplish its Board of Directors' long-standing vision of self-sufficiency for its community's water needs with Mesa Water's award-winning Colored Water Treatment Facility Improvements Project. In a cohesive effort to purify groundwater, Mesa Water will use state-of-the-art nanofiltration membrane technology to achieve a 100% locally reliable water supply by 2012.

Printed using soy-based ink on 30% recycled FSC-certified and elemental chlorine-free paper. Please recycle this when you are done with it. Thank you.
