MEMORANDUM

TO: Board of Directors
FROM: Paul E. Shoenberger, P.E., General Manager
DATE: January 14, 2021
SUBJECT: Attendance at Conferences, Seminars, Meetings, and Events

RECOMMENDATION

In accordance with Ordinance No. 29, adopted February 14, 2019, authorize attendance at conferences, seminars, meetings, and events.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION

At its June 11, 2020 meeting, the Board of Directors (Board) approved Fiscal Year 2021 attendance at Conferences, Seminars, Meetings, and Events.

DISCUSSION

During the discussion of this item, if any, the Board may choose to delete any item from the list and/or may choose to add additional conferences, seminars, meetings, or events for approval, subject to available budget or additional appropriation.

FINANCIAL IMPACT

None.

ATTACHMENTS

None.

Colleen Grace
MEMORANDUM

TO: Board of Directors
FROM: Stacy Lynne Taylor, Water Policy Manager
DATE: January 14, 2021
SUBJECT: Community Choice Aggregation

RECOMMENDATION

Receive the presentation.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

At its November 19, 2020 meeting, the Board of Directors (Board) received a presentation from a Southern California Gas Company representative regarding California energy policies, technologies, and solutions that can address climate change. The Board directed staff to draft a resolution supporting balanced energy solutions and maintaining local control of energy solutions.

At its December 10, 2020 meeting, the Board adopted Resolution No. 1536 Supporting Balanced Energy Solutions and Maintaining Local Control of Energy Solutions. The resolution signifies the District’s support of balanced energy solutions that can:

1. provide Mesa Water District (Mesa Water®) with decision-making authority and the resources needed to achieve California’s climate goals; and,
2. retain Mesa Water’s local control by allowing the use of all technologies and energy resources that can power buildings and facilities while also meeting or exceeding emission reduction mandates.

BACKGROUND

California Governor Newsom, along with several administrative agencies, legislators and regulators, are proposing new policies, legislation, and regulations that would eliminate energy choices by mandating full electrification of homes and businesses and, in the future, limiting or eliminating the use of natural gas and other fossil fuels. These mandates could remove local control, limit customer choice and, in so doing, suppress innovation in power solutions, reduce reliability, and unnecessarily increase costs to Mesa Water residents and businesses.

DISCUSSION

In December 2020, five Orange County cities — Buena Park, Fullerton, Huntington Beach, Irvine, and Lake Forest — formed the Orange County Power Authority (OCPA) to implement a Community Choice Aggregation (CCA) program, thus joining the growing trend of California cities choosing to
buy electricity directly from suppliers rather than from privately owned utilities such as Southern California Edison (SCE). SCE will continue to transmit and deliver energy for the cities while the new authority will choose the source.

Over the past several months, additional Orange County cities have expressed interest in joining the OCPA — including Aliso Viejo, Costa Mesa, Mission Viejo, Placentia, Santa Ana, Stanton, and Villa Park — however, because they did not join by December 31, 2020, they must wait until this year, per the state’s Public Utilities Commission.

Formed to offer county businesses and residents renewable power options, the OCPA was spearheaded and funded by the City of Irvine, which loaned $2.5MM to the OCPA for pre-launch and initial start-up costs. For added startup and anticipated working capital costs, the OCPA plans to take out a bank loan of $8-20MM with Irvine lending the 20% collateral for the loan. Participating cities would repay Irvine for the loans starting in 2026.

Proponents of CCA programs claim that they help accelerate the move to clean energy and provide modest cost savings. The City of Irvine released a feasibility study “using extremely conservative modeling parameters” that determined the OCPA CCA program would decrease energy costs by about 2 percent.

As the City of Costa Mesa has not yet joined the OCPA, Mesa Water is in the early stages of exploring CCA programs, including what they are, how they work, which municipalities are using them, and the pros and cons of doing so. An overview of CCA programs will be provided by Mesa Water’s state lobbyists from California Advocates, as well as an SCE representative.

FINANCIAL IMPACT

There is no financial impact for the discussion of this item.

ATTACHMENTS

Attachment A: Resolution No. 1536
RESOLUTION NO. 1536

RESOLUTION OF THE
MESA WATER DISTRICT BOARD OF DIRECTORS
SUPPORTING BALANCED ENERGY SOLUTIONS AND MAINTAINING LOCAL CONTROL OF ENERGY SOLUTIONS

WHEREAS, the Mesa Water District (Mesa Water or District) is a county water district organized and operating pursuant to the provisions of the laws of the State of California (State or California); and

WHEREAS, California’s energy policies are critical to reducing greenhouse gas emissions and reducing the impact of climate change on our citizens; and

WHEREAS, the state legislature and state agencies are increasingly proposing new legislation and regulations eliminating choice of energy by mandating technologies to power buildings and facilities, as a strategy to achieve the State’s climate goals; and

WHEREAS, clean, affordable and reliable energy is crucial to the material health, safety and well-being of Mesa Water customers, particularly the most vulnerable; and

WHEREAS, energy policies directly impact Mesa Water’s ability to provide a clean, affordable and reliable water supply, which is similarly essential to protecting public health and safety; and

WHEREAS, properly treated wastewater is also vital to preventing disease and protecting the environment; and

WHEREAS, Mesa Water values local control and the right to choose the policies and investments that most affordably and efficiently enables the District to comply with state requirements; and

WHEREAS, technology mandates eliminate local control and choice, suppress innovation, reduce reliability and unnecessarily increase costs for Mesa Water and its customers; and

WHEREAS, Mesa Water understands that relying on a single energy delivery system unnecessarily increases vulnerabilities to natural and man-made disasters, and that a diversity of energy delivery systems and resources contribute to greater reliability and community resilience; and

WHEREAS, Public Safety Power Shutoffs can impact water pumping and water treatment plants, putting public health and safety at risk and potentially hampering firefighting efforts; and

WHEREAS, Mesa Water understands the need to mitigate the impacts of climate
change and is committed to doing its part to help the State achieve its climate goals, but requires the flexibility to do so in a manner that best serves the needs of the District and its customers.

NOW, THEREFORE, THE BOARD OF DIRECTORS OF THE MESA WATER DISTRICT DOES HEREBY RESOLVE, DETERMINE, AND ORDER AS FOLLOWS:

Section 1. Mesa Water District supports balanced energy solutions that provide it with the decision-making authority and resources needed to achieve the State’s climate goals and supports proposed state legislation and regulation that retains local control by allowing all technologies and energy resources that can power buildings and facilities, and also meet or exceed emissions reductions regulations.

ADOPTED, SIGNED, and APPROVED this 10th day of December 2020 by a roll call vote.

MEMORANDUM

TO: Board of Directors
FROM: Stacy Lynne Taylor, Water Policy Manager
DATE: January 14, 2021
SUBJECT: State Advocacy Briefing

RECOMMENDATION

Receive the presentation.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

At its December 17, 2020 meeting, the Board of Directors (Board) approved the proposed 2021 Legislative Platforms. Advocacy for Mesa Water District’s (Mesa Water®) platforms will continue to require significant work in Sacramento on multiple matters during Calendar Year 2021.

DISCUSSION

California Advocates has effectively advocated for Mesa Water on several high-priority issues through active legislative monitoring and engagement with the: State legislature and its leadership, committees, consultants, and staff; Governor’s administration and State Water Resources Control Board; Association of California Water Agencies; CalDesal; California Municipal Utilities Association; California Special Districts Association; Community Water Systems Alliance; Delta Stewardship Council; WateReuse California; and others.

Mesa Water’s lobbyists from California Advocates -- Dennis Albiani and Anthony Molina -- will provide a briefing to the Board regarding State advocacy activities for Mesa Water and anticipated State legislative/regulatory activities in Calendar Year 2021.

FINANCIAL IMPACT

In Fiscal Year 2021, $175,000 is budgeted for Support Services; $95,940 has been spent to date.

ATTACHMENTS

None.
MEMORANDUM

TO: Board of Directors
FROM: Stacy Lynne Taylor, Water Policy Manager
DATE: January 14, 2021
SUBJECT: Independent Special Districts of Orange County Executive Committee Vacancy

RECOMMENDATION

Review the Independent Special Districts of Orange County Executive Committee vacancy information and discuss potential candidacy interest

STRATEGIC PLAN

Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

None.

DISCUSSION

On December 16, 2020, Mesa Water District (Mesa Water®) received correspondence, from the Independent Special Districts of Orange County (ISDOC) seeking nominations in order fill the vacancy for the Executive Committee Third Vice President by appointment, per its bylaws.

In order to be considered, a candidate must be an elected or appointed official of a regular member agency and be endorsed by his/her district in the form of a Board resolution. All Board resolutions, along with a letter/email of interest, must be sent to Heather Baez at Hbaez@mwdoc.com and be received by 5:00 p.m. on Friday, January 22, 2021. The appointment will be made by the ISDOC Executive Committee on Tuesday, February 2, 2021.

The responsibilities of the Third Vice President position are as follows:

Third Vice President - The Third Vice President chairs the Legislative Committee. Duties include providing a legislative update, making legislative position recommendations to the Executive Committee, and in the absence of the President, First Vice President, and Second Vice President, shall perform all duties of the President.

FINANCIAL IMPACT

None; the annual membership dues to ISDOC are estimated at $50.

ATTACHMENTS

Attachment A: ISDOC Executive Committee Third Vice President Vacancy Correspondence
December 11, 2020

PLEASE DISSEMINATE TO ALL BOARD MEMBERS

Re: ISDOC Executive Committee 3rd Vice President Vacancy

This email shall serve as official notice and call for candidates to fill the vacancy for the 3rd Vice President position on the Independent Special Districts of Orange County (ISDOC). The ISDOC Executive Committee will fill the vacancy by appointment.

Per the ISDOC bylaws, Article III Section II Point E: “With the exception of the immediate past president, if a vacancy occurs on the Executive Committee, the Committee shall, within 60 days from the commencement of the vacancy, either fill the vacancy by appointment or call a special election to fill the vacancy. A person appointed or elected to fill a vacancy shall hold office for the unexpired term of the former incumbent.”

Nominations will close on Friday, January 22, 2021 at 5:00 p.m. Any Board Member/Trustee of a regular ISDOC member agency is eligible for nomination for this open position. Individuals who wish to be considered should submit a letter of interest, together with a resolution from their Board authorizing their candidacy. The appointment will be made by the ISDOC Executive Committee on Tuesday, February 2, 2021.

Responsibilities of the positions are as follows:

THIRD VICE PRESIDENT: The Third Vice President chairs the Legislative Committee. Duties include providing a legislative update, making legislative position recommendations to the Executive Committee, and in the absence of the President, First Vice President, and Second Vice President, shall perform all duties of the President.

Meetings of the Executive Committee typically occur on the first Tuesday of each month at 7:30 a.m. in the offices of the Municipal Water District of Orange County (MWDOC) in Fountain Valley. Due to COVID-19 restrictions, meetings are currently being held via teleconference until further notice.

If you are seeking nomination to the 3rd Vice President position on the Executive Committee, please send your letter/email of interest and a copy of your Board’s authorizing resolution to Heather Baez at Hbaez@mwdoc.com. All nomination requests must be received by January 22, 2021.

If you have any questions about the any of the positions or the election process, please contact either Heather Baez at Hbaez@mwdoc.com or Christina Hernandez at Chernandez@mwdoc.com

Sincerely,

Saundra F. Jacobs

Saundra F. Jacobs, President
Independent Special Districts of Orange County
MEMORANDUM

TO: Board of Directors
FROM: Celeste Carrillo, Public Affairs Coordinator
DATE: January 14, 2021
SUBJECT: Mesa Water Education Center Student Education Program

RECOMMENDATION

Award a three-year contract to Brain Builders STEM Education, Inc. for $95,169 to develop, market, and facilitate a student education program for the Mesa Water Education Center.

STRATEGIC PLAN

Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #6: Provide outstanding customer service.

PRIOR BOARD ACTION/DISCUSSION

At its August 25, 2020 meeting, the Board of Directors (Board) received information that staff was researching potential partners to develop a robust education program. Per the Board’s direction, staff conducted a Request for Proposals for this program.

BACKGROUND

The Education Center will allow Mesa Water District (Mesa Water®) staff to host educational programs and tours at the Mesa Water Reliability Facility (MWRF), highlighting Mesa Water’s primary benefit of being 100% locally reliable, while informing its audiences about environmental stewardship, resource sustainability, and wise water use.

The education program shall be designed to capture students’ imaginations, engage their intellects, and stimulate their curiosity about water. The program shall be fun, immersive, and engaging, while concurrently supporting the current California state academic standards.

DISCUSSION

Mesa Water solicited proposals from seven qualified firms to provide the required scope of work necessary to implement the education program. Six proposals were received on November 30, 2020. The proposing firms included:

- Brain Builders STEM Education, Inc.
- Clarity Consultants
- The Environmental Nature Center
- The Institute of Conservation Research Education
- Mad Science of West Orange County
- Orange County Department of Education Inside the Outdoors

On December 15, 2020, proposals were reviewed and evaluated by a Selection Panel comprised of Mesa Water staff. Each proposal was evaluated based on qualifications, experience, staff availability, project understanding, scope of work approach, and proposal quality. The results of each cost proposal are as follows:
<table>
<thead>
<tr>
<th>Rank</th>
<th>Proposer</th>
<th>Submitted Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Brain Builders STEM Education, Inc.</td>
<td>$79,307</td>
</tr>
<tr>
<td>2</td>
<td>Orange County Department of Education Inside the Outdoors</td>
<td>$55,088</td>
</tr>
<tr>
<td>3</td>
<td>The Institute of Conservation Research Education</td>
<td>$565,500</td>
</tr>
</tbody>
</table>

Although all three firms provided a unique and solid approach to the required scope of work and are well qualified to perform the work effort, it was determined that Brain Builders STEM Education, Inc. has significant experience with developing unique and hands-on education programs, and would be the best fit for Mesa Water’s vision for the Education Center.

Staff recommends that the Board award a three-year contract to Brain Builders STEM Education, Inc. in the amount of $79,307 and a 20% creative allocation contingency for an amount not to exceed $95,169 to develop, market, and facilitate a student education program at the Mesa Water Education Center.

FINANCIAL IMPACT

In Fiscal Year 2021, $583,730 is budgeted for Support Services; $278,515 has been spent to date.

ATTACHMENTS

Attachment A: Brain Builders STEM Education, Inc. Proposal
FOR MESA WATER DISTRICT CONSIDERATION, PLEASE FIND ALL REQUIRED INFORMATION INCLUDED AS SET FORTH PER THE RFP 20-1012 REQUIREMENTS. WE ARE EXCITED FOR THE OPPORTUNITY TO SERVE THE COMMUNITY OF COSTA MESA AND EXTEND WATER EDUCATION TO YOUNG LEARNERS!

This proposal shall remain valid for 90 days from November 30th, 2020.

Addendums Received: Addendum No. 1 received. See signed acknowledgment attached at the end of the proposal.

Appendix 3 - Addendum
Brain Builders STEM Education was founded in 2002, beginning our vision by implementing after school programs for elementary schools in Orange County. In 2009, we saw a need for engineering and STEM programs and launched our first STEM enrichment classes. Since then we have continually strived to improve and perfect our curriculum and teaching methods. In 2010 we opened our first STEM center in Laguna Niguel, followed by our Tustin STEM Center which opened in 2016. We now teach K-12th grade students, providing after school enrichment, STEM curriculum development, STEM lab setup, and STEM programs at our centers, working with many schools and community education partners.

Years in operation: Serving Orange County for 18 years, founded in 2002
Main Office Location: Tustin STEM Center, 725 El Camino Way, Tustin CA 92780
Other Locations: Engineering w/LEGO Center, 27601 Forbes Rd STE 6, Laguna Niguel CA 92677

Brain Builders STEM Education, Inc
Building Bigger Brains Since 2002!

HISTORY

MISSION

Get students excited about education by creating a hands-on learning experience which encompasses 3 main elements:

1. Goal Setting - giving students something to aim for.
2. Teaching concepts - which help students reach their goals.
3. Providing a tangible platform so students can physically achieve their goals in class.

Empower students to think independently and achieve their goals!
We have been teaching the community since 2002! We have worked with many different organizations and made many great partnerships along the way!

**SCHOOL DISTRICTS WE WORK WITH**

We currently teach at 60+ school sites per year.

- Capistrano (CUSD)
- Saddleback (SVUSD)
- Newport-Mesa (NMUSD)
- Orange (OUSD)
- Tustin (TUSD)
- Huntington Beach (HBUSD)
- Fountain Valley (FVUSD)
- Brea-Olinda (BOUSD)
- Placentia-Yorba Linda (PYUSD)
- Garden Grove (GGUSD)
- Santa Ana (SAUSD)

**COMMUNITY PARTNERS**

- OC Diocese Catholic Schools
- Private Christian Schools
- Public Charter Schools
- Saddleback College
- Yorba Linda Community Recreation
- Boy Scouts of America - Newport Sea Base
- Girls Inc – Summer programs
- YMCA – Summer programs
- Boys and Girls Club – Summer programs

**OTHER NOTABLE PARTNERSHIPS**

- First Tech Challenge (FTC)
  Orange County league host for competitive robotics

- STEM Conference Speaker in China

- University of California, Irvine
  Summer Gifted Students Academy engineering teacher

- Microsoft Technology Center in Irvine
  Provided stem activities for middle and high school students

- Orange County Fairgrounds, Imaginology (Youth STEM Fair)
  Providing hand-on STEM activities
1.2b STEM Education Experience

- 18 Years educating youth in Orange County
- 11 years of STEM Education experience starting in 2009
- STEM Education implemented at over 50 different school sites per year
- STEM Education implemented at community centers, special events, and through community partnerships
- Implementation of over 20 different STEM classes at our STEM Center in Tustin, CA.
- Developed STEM curriculum for school implementation

1.2c & 1.3a Curriculum Design

We have extensive experience designing curriculum that meets NGSS, UDL and EP & C's.

NGSS

Cross Cutting Concepts - We currently teach and design curriculum for all 4 aspects of Physical Science, Life Science, Earth & Space Science and Engineering design. Students are able to make connections between each specified field of study.

Practices - We teach students how to apply the scientific and engineering methods when approaching any problem and they are able to apply these concepts in class.

Core Ideas - Core ideas are taught at every level according to student’s skill level. These core ideas are able to be applied as they move up in their knowledge of the subject matter, creating a broader view of the ideas. We design classes that naturally progress upon each other.

UDL

The Universal Design Learning framework is in line with our Mission Statement!

Engagement - We identify a problem to be solved, and then students set goals.

Representation - We teach through many different platforms such as through worksheets, auditory lectures, videos, technology and hands-on labs.

Action & Expression - Students reach their goals through hands-on experiences in which they have multiple means to achieve the goal.

EP & C’s

We have designed many classes that involve environmental principles and the natural cycles and ecosystems within them. Here are some of our classes where EP & C’s are implemented.

Aquaponics
Biology
World History
Life Science - Botany
Physics/Physical Science
Chemistry
Earth Science and Astronomy
We implement programs in-house, at our 2 center locations, and offsite at schools and with our community partners. Here are some of the projects that we are currently implementing or have done:

Programs implemented at our centers include (K-12th grades): Robotics, Wood Shop, Reverse Engineering, Coding, Physics, Biology Labs, Chemistry Labs, Forensic Science, Digital Arts, Engineering with LEGO, 3d Printing, Digital Design, English, Math, History, Astronomy, Aquaponics, Paleontology, Animation and more.

**Offsite After School Programs**

Engineering with LEGO

- Created custom worksheets
- Created teacher manuals and guides
- Created 8 different themed classes with proprietary lesson modules that last for 6-8 weeks each.
- Implemented training sessions for teachers
- Held promotional events to boost participation in programs

**Moulton Elementary School**

Robotics and Engineering Program

- Created curriculum for entire school from grades K-5th grade.
- Held in-school STEM classes that supplemented their school day learning.
- Created custom workbooks and worksheets
- Varied curriculum to keep student interest and excitement each year.
- Curated in-class competitions

**Santa Ana Unified School District**

Engage 360 - Engineering Program

- Created custom workbooks
- Created teacher manuals and guides for both in-person and virtual learning
- Catered to students K-8th grade
- Implemented training sessions for teachers
- Curated in-class competitions

**Boy Scouts of America**

Newport SeaBase - Robotics

- Created custom robotics curriculum
- Held and curated weekly robotics classes
- Ran weekly summer and spring camps
- Catered to students 1st-6th grades
- Curated in-class competitions

**Tustin Memorial Academy**

STEM Curriculum Development

- Developed grade level specific STEM curriculum to be deployed by the teachers.
- Created custom worksheets
- Created custom lesson plans with teacher manuals
- Created cross curricular activities
- Helped redesigned the schools STEM lab
- Created grade level specific curriculum

**University of California Irvine**

Gifted Students Academy

- Created a summer engineering program for students grades 3-7
- Created custom workbook for the students
- Curated class competitions
- Created custom curriculum according to student skill levels.
After School Engineering with LEGO program

Metrics about the program
- Taught at over 100 different school sites since inception
- Running at approximately 50+ schools each year
- Over 1000 students reached each year
- 15+ employees staffed across Orange County
- Have worked with every school district in Orange County
- Program implemented at public, private and charter schools
- 8 Custom designed curriculum sets
Santa Ana Unified School District - Engage 360 Engineering Program

Metrics about the program
- Teaching at 45 different school sites throughout the year
- Teach K-8th Grade
- 10 employed staff assigned
- Custom workbook and materials created
- 60, one-hour classes taught each week

CUSTOM WORKBOOK

KID FRIENDLY & FUN COVER!

ENGAGING WORKSHEETS

STEP BY STEP INSTRUCTIONS

INSPiring & RELEVANT QUOTEs ANd PICTURES!
1.4b-c Sample Content & Metrics

Tustin Memorial Academy
STEM Lab Renovation & Curriculum Design

Metrics about the program

- Designed 4 different modules pertaining to one main theme
- Modules deployable by teachers
- Curriculum served over 500 students
- Helped redesign schools STEM lab including safety implementations

Student guides and worksheets
Teacher guides
Follows NGSS

TEACHER GUIDES FOLLOWS NGSS
STUDENT GUIDES AND WORKSHEETS
STUDENT ACTIVITY CARDS

Experience in STEM Education
Projects & Work Samples
Experience in STEM Education
Projects & Work Samples

1.4b-c Sample Content & Metrics

Other Notable Content Creations
Brainyverse Architecture Kits

Metrics about the program

- Designed 10 different monthly subscription boxes
- 10 different wooden buildable models
- 10 custom workbooks and sticker sheets
- Custom world map
- Custom designed characters and branding

![Brainyverse Architecture Kits](image)
### Moulton Elementary School - Integrated STEM Program

**Dates of service:** 2014-2020

**Project Description:**
- 6 years of providing STEM education for over 500 students yearly
- Developed and deployed custom curriculum
- Taught students K-4th grade engineering, 5th grade robotics program
- Integrated STEM program during school hours
- Hosted “STEM Nights” with hands-on stem activities

**Contacts:**
- Jacqueline Campbell  
  School Principal  
  JLCampbell@capousd.org  
  949-234-5980
- Ann Hirakawa  
  Moulton School Foundation President  
  howard_ann@sbcglobal.net  
  949-244-5776

---

### Santa Ana Unified School District - Engage 360 Engineering Program

**Dates of service:** January 2020-Current

**Project Description:**
- Created 3 different curriculums for K-2nd, 3rd-5th and 6th-8th
- Initially deployed in person, now virtual due to Covid-19
- 60 classes per week
- 45 different sites throughout the school year

**Contacts:**
- Jennifer Cisneros  
  Director  
  Extended Learning  
  Jennifer.Cisneros@SAUSD.US  
  714-558-5633
- Lupita Cruz  
  District Coordinator  
  Extended Learning  
  Lupita.cruz@SAUSD.US  
  657-336-1477

---

### Program Relevance

1. Proves long term program loyalty due to exceptional programming and service
2. Displays ability to design unique and engaging curriculum
3. Shows successful integration of STEM curriculum
Tustin Memorial Academy - STEM Lab Curriculum Design
Dates of service: 2018-2019

Project Description:
- Designed custom curriculum for STEM learning
- Created 4 custom modules that were Zombie themed!
- Activities included Coding, Engineering, New Casting and Science Labs
- Developed student activity cards, worksheet and directives
- Developed teacher guides that aligned with NGSS

Contacts:
Sharon Maeda
School Principal
smaeda@tustin.k12.ca.us
714-730-7546
Tanveer Husain
PTA President
tanhuss@hotmail.com
714-296-6314

Program Relevance
1. Proves ability to design a deployable curriculum that others can teach
2. Displays ability to align curriculum with current NGSS standards
3. Shows ability to design cross cutting curriculum

1.6 Hiring of Sub-Contractors

We will not be using any sub-consultants or sub-contractors. All our work is done in house.

1.7 The Best Choice for the Project!

While we know there are many qualified organizations, we feel we are the best because:

- We have 18+ years of experience working with youth and designing curriculum!
- We have a great reputation in the communities we serve!
- We have experience in general construction and design, which makes collaboration with the architects and designers a breeze!
- We are visionaries!
- We create fun learning experiences!
- We are experts in STEM education!
- We are passionate about what we do!
- We LOVE what we do!
Brain Builders STEM Education is equipped with the capability to perform all required work set forth by Mesa Water. We have an expandable framework for management and teachers if we need to hire more people on due to the expanding nature of our organization. We have successfully been able to expand our operations as the need for our programs grow.

2.2a-c  Mesa Water Assigned Staff

Each proposed staff member will be made available to conduct and complete Mesa Water's project. These are the proposed staff members which will be the main team leading this project.

Shane Veera (CEO) - Project Director
- 6+ years in STEM curriculum development and implementation.
- 20+ years of experience working with youth.
- Founder of Brain Builders STEM Education

Reason selected: Experience in program development, project coordinating and passionate energy!
MW Proposed Team

2.2a-c Mesa Water Assigned Staff

Michelle Lee – Curriculum Development Lead
- 9 Years of teaching experience
- 4 Years STEM teaching experience
- Credentialled California State Teacher

Reason selected: Teaching experience, ability to align curriculum to state standards, connectivity for engaging and connecting with students through teaching.

Candace Teran-Ching – Curriculum Development Lead, Program/hiring Manager
- 4 years of teaching experience
- Credentialled California State Teacher
- Masters Degree in Curriculum and Instruction

Reason selected: Ability to align curriculum to state standards, organization and management skills, experience implementing engaging curriculum.

Our team has been working together for the past 3 years to complete projects and reach goals. We work together well and are excited to take on new tasks and reach youth with more amazing programs!

Please see resumes attached in the appendix.
2.3a-b Work Load

As with all our projects, we are able to efficiently and effectively assign job tasks as it pertains to our skills and time available. We set goal sheets and are able to meet deadlines. Mesa Water projects will be included in our organizations planning schedule.

If need be, we are able to hire or assign tasks to our other employees so we may supply all necessary focus on Mesa Water projects.

We are confident in our availability and professionalism to complete Mesa Water projects per deadlines.

Priority will be given to Mesa Water projects as we understand the concerns and dedication needed to deploy and new program. All our other programs are currently in place and are running, therefore our key staff for this project are able to focus attention to Mesa Water projects.

3.1-3.3 Project Understanding & Approach

Due to the nature of the project and unknown variables, as the Water Center is not yet completed, this section will be divided into 2 separate parts: Key Concepts and Field Trip Delivery Plans.

Key Concepts - Despite how the center will look or how the concepts will be delivered, these are topics that will be covered to best educate the youth about water and fulfill Mesa Waters scope of work.

Field Trip Delivery Plans - As the Water Centers physical logistics are still unknown, this will serve as a proposal that will best represent the delivery of “Key Concepts.” This part of the proposal is adaptable to how the center will look and to the different exhibits created.

Key Concepts

Key concepts and sub concepts will be outlined in this section.

Key concepts serve to engage students’ minds and have them start thinking of answers to questions.

Sub-concepts will serve to explain key concepts, affirm students answers and educate them further on the subject matter.

4 main key concepts that will be covered:

- What is water and why do we need it? (Water 101)
- Where does water come from and how do we get it? (Water Basin)
- Why do we need clean water? (MW’s Nanofiltration)
- What is water conservation? (What MW is doing to conserve water)

Key Concept : What is water and why do we need it?

Sub-Concept : What is the molecular structure of water?
  What things need water to live?
  How much water is there in the world?
  Are we made of water?

Key Concept : Where does water come from and how do we get it?

Sub-Concept : Why is there something called the “water cycle”?
  How much water in the world is fresh water?
  How did people get water in the past?
  How do we get water now?
  How does Costa Mesa get water?
  What is a groundwater basin?
Key Concept: Why do we need clean water?
Sub-Concept: What lives in water?
- What things pollute water?
- Can you get sick from drinking water that looks clean?
- How do we filter water?
- How does Mesa Water filter water?

Key Concept: What is water conservation?
Sub-Concept: Are we running out of water?
- Why do we need to conserve water usage?
- What happens if we have a water shortage?
- What does Mesa Water do to help conserve water?

Field Trip Implementation Plan
This section consists of 3 parts; 1. Pre-visit classroom lessons, 2. Field trip at Mesa Water Education Center, 3. Post-visit classroom activities

1. Pre-visit Classroom Lessons
   The first key concept, “what is water and why we need it”, will be covered in class by the teacher prior to the field trip.
   Goal - That students will come with some knowledge about water and a sparked curiosity about water and Mesa Water. We are able to review these concepts and focus on the other 3 concepts in which Mesa Water has a direct correlation to.
   Implantment Plan – We will create a teachers manual and worksheets in order for teachers to teach these concepts in class. Lessons will follow NGSS and the specific standard will be noted so teachers can easily integrate it into their lesson plans.

2. Field Trip at Mesa Water Education Center
   During the field trip, the final 3 key concepts will be covered; “Where does water come from and how do we get it?”, “Why do we need clean water?” and “What is water conservation?”
   The field trip will consists of self-guided exploration of exhibits and guided hands-on labs about water. The flow of the field trip can be seen on the flow chart.
### Field Trip Flow Chart

**Pre Field Trip**
Connect with teacher so they can implement initial lesson. Key Concept #1.

**Start Field Trip**

**10 Minutes**

- **Introduction:** Welcome students, explain rules of the center, hand out workbook, review water basics, explain the itinerary of the day and objectives.

**Start Self Guided Exploration**

**30 Minutes**

- Students will explore the different exhibits and answer questions in their interactive workbooks. Exhibits will have both static and interactive elements.

- Volunteers and staff will be walking around helping students and answering questions.

**Start Hands-on Lab #1: What is living in water?**

**30 Minutes**

- Students called in to participate in Lab #1: What is living in water?

- Students will hypothesize, and experiment by examining different types of water under a microscope and record their findings.

**Start Hands-on Lab #2: What filters water?**

**35 Minutes**

- Students called in to participate in Lab #2: What filters water?

- Students will hypothesize, and experiment by examining different types of materials and finding out what can filter water.

**15 Minutes**

- Closing remarks: Teacher will review concepts, pass out parting gifts and students will have time to explore the center more while waiting for the bus to arrive.

**End:** Review concepts & closing remarks.
3.1-3.3 Project Understanding & Approach Continued

Flow Chart Details

*Times listed on each aspect are approximates and can be adjusted accordingly.

Start Field Trip (10 minutes)

Field trip guide gathers students in a central area to:
- Give an introduction
- Explain rules of the center and brief history of Mesa Water
- Hand out workbooks and explain what the guests are to do in the workbook
  (optional - custom lanyards with "Jr. Hydrologist" name tags)
- Review basic concepts that were covered about water in class (pre-visit)
- Explain itinerary of the day

Self Guided Exploration (30 minutes)

Students will independently explore the Education Center
- They will answer questions in their interactive workbooks
  - Answers can be found around the center exhibits
- Field trip guides and volunteers will be walking around interacting with students and helping with exhibit questions
- Students will get to experience all the exhibits’ static and interactive elements

Hands on Lab #1 (30 minutes)

Students will be called into a hands-on lab led by the guide. Lab #1 is on “what’s living in water?”
- Students will put on lab coats and goggles
- Overview and lesson given by guide
- Instructions on lab given by guide
- Students will hypothesize on what they think live in water
- Students will investigate by collecting water samples and looking at them under a microscope
- Students will write down their observations and take notes
- Students will share their conclusions on what lives in water and why we need to clean water for consumption
3.1-3.3 Project Understanding & Approach Continued

Flow Chart Details

*Times listed on each aspect are approximates and can be adjusted accordingly.

**Hands on Lab #2 (30 minutes)**

- Students will be called into a hands-on lab led by the guide. Lab #2 is on “What filters water?”
  - Students will put on lab coats and goggles
  - Overview and lesson given by guide
  - Instructions on lab given by guide
  - Students will hypothesize on what filters water according to the materials given
  - Students will experiment with each medium and how it filters water and write down their observations
  - Students will share their conclusions
  - Guide will explain how Mesa Water filters water through nanofiltration

**End: Closing remarks (15 minutes)**

- Guide will give closing remarks
  - Guide will review discoveries made by students during the field trip
  - Guide will hand out parting gifts
  - Students will get to take home their workbook and gift
    (proposed - custom water bottles)
  - While waiting for bus pickup, students can continue to explore the exhibits

**Post-visit Classroom Activity**

3. Post-visit classroom activity - Writing Contest

- **Purpose:** To get students to think of how to give back and become future leaders and positive world-changers!

- Teachers will be given a writing lesson to implement with their students. This will be a district wide contest where each teacher will choose their classes top 3 essays to submit to Mesa Water to judge the contest winner.

- **Topic:** “How can I change the world with water?”
- **Rules:** Students will submit an essay, up to 2 pages, on the topic. Students can include drawings with their essays.

- **Prizes:** Prizes to be determined. We can have multiple winners for different categories.
Recommended Exhibits

Due to the nature of the project and the unknown elements of the exhibits, space allotment and budget, these suggestions serve as elements that can benefit Mesa Waters Education Center and proves our understanding of creating a fun, educational and interactive experience.

- 3d Hologram Pyramid showing the water cycle
- Static model of Mesa Waters ground water basin and how it is collected
- Interactive water table - Students rearrange pipes so water reaches all its destination points
- Cutaway model of Mesa Waters nano-filtration system
- Display of beneficial organisms that live in water
- Modified weight scale that is adjusted to show students “water weight”
- Map of how water is distributed from Mesa Water to the city
- Interactive water table showing how pollution inland can reach the ocean
- Scientific explanation display on what is water and why we need it
- Interactive or static display on water usage in the house (water conservation)
- Drought tolerant plant exhibit
- Aquaponics system display
- Display of water use from power plants to your home
- Interactive “weight of water” display: Connecting the effects of getting clean water

3.4 Project Management Capabilities

We have no issues with project management as we have facilitated projects of similar or at a larger scale as per listed in section 1. We have a great professional team ready to tackle any project!

3.5 Quality Deliverables

Per previous and current projects we have proven to deliver quality programs and maintain good rapport with the organizations we work with. We keep accountable through our ability to meet deadlines, and maintain good teamwork and communication. We keep a deadlines calendar and hold meetings to address successes and potential issues.

3.6 Potential Issues and Challenges

Issues that we have faced in the past include workers not showing up because of unforeseen accidents or illness that might occur. However we have established staff that is able to fill in during these rare occasions. Other issues include outside parties involved in projects being unresponsive to communications. In this case we make sure we have multiple means of communication listed so that we can efficiently complete projects.
3.7 Monitoring of Project

Projects operations are monitored continuously through a task list and calendar of events/deadlines. Team meetings will also be set according to deadlines and as needed depending on complexities of the project.

3.8 Plan for Completing Work in appendix A

Due to the nature of the proposal and the unknown variables, we can only outline a typical scenario of events. We understand that much of the timeline will depend on the completion of the education center and exhibits. There are many unknown variables that will effect our comprehensive plan.

See section 3.11 for a sample timeline.

3.9 Firms Approach and Mesa Waters Benefit

See section 3.1 - 3.3 for our approach to the project.

Mesa Water will benefit from positive branding through the field trip. Not only will all printable materials include Mesa Waters branding but many concepts covered will tie in how Mesa Water approaches the answers to the problems. Mesa Water will become the key place for water education not only during the field trip but beyond the field trip through student contests and its positive impact for the community.

3.10 Additinal Information for Project Completion

We do not have any more information at this time as we have a firm grasp of what it takes to complete this project.

3.11 Project Schedule

Our project schedule is included on the next page.

Please note that this schedule is approximate depending on unknown variables such as completion of the education center, other parties schedules and availability to have meetings.

Shane@BrainBuildersEd.org

"Intellectual growth should commence at birth and cease only at death."
- Albert Einstein

Life Objective
To create an environment where adolescents can learn how to think so they can achieve their goals and become positive influences in their communities and beyond!

Education
Bachelors in Economics, Minor in Digital Arts
2002 Graduate of University of California, Irvine

Job History

2002 to Present  CEO and Founder - Brain Builders STEM Education
1. Capture the interest of students grades K-8th and teach engineering and chess to classes ranging from 4 to over 180 students.
2. Designed proprietary curriculum that engaged students in engineering and chess through conceptual application.
3. Successfully manage over 30 employees and a management staff through curriculum training and scheduling.
4. Expanded Brain Builders’ programs into over 90 different elementary schools throughout Orange County and established Brain Builders as a leading STEM based education program.
5. Started two education centers that serves over 400 students annually.

2006 to 2010  Director of Operations - City Lights Dream Center (a non-profit organization)
1. Led operations in: community outreach, fundraising, volunteer management, event planning, and community partnerships.
2. Served on the board of directors as a Treasurer and overlooked the organizations financial goals.
3. Secured donations and collaborative partners with industry leaders such as Active Ride Shop, Sole Technologies, and Wells Fargo.
4. Directly worked with inner-city kids and setup weekly activities in an effort to enable them to abstain from drugs and gangs.

2003 to 2006  Child Care Worker - Knitas Group Home
1. Mentored adolescents that were wards of the court and lived in a 6 bed group home facility.
2. Supervised the adolescents and made sure their daily tasks and goals were being met.
3. Organized weekend activities and supervised adolescents at the events.

2004 Summer  Program Director - Skyhawks Sport Camps
1. Led and coached summer sports camps for youth ages 5-12.
2. Coached high energy camps of football, basketball, soccer, and tennis.
3. Upkept all supplies and managed other coaches during the camps.

1997 Summer  Directors Assistant and Tutor - California Educational Centers
1. Assisted the director with daily tasks.
2. Tutored students grades K-8th in various subjects.
3. Supervised students during summer excursions.

Technical Skills
- Basic welding skills in MIG and TIG.
- Light fabrication of metal and composites.
- Restoration of automobiles.
- Basic soldering of circuit boards and electrical components.
- MECP Certified for low voltage electronics.
- Proficient in Adobe Photoshop, Illustrator and InDesign
- Strong Microsoft word and Excell skills

Education

Associates of Arts: Liberal Studies  
Santiago Canyon College  
  - Graduated: June 2014  
  - Honors final semester

Bachelors of Science: Child Development concentration in Early Childhood Education  
California State University Dominguez Hills  
  - Graduated: May 2017  
  - Major GPA: 3.672  
  - Honors in Major  
  - McNair Scholar

Masters of Arts: Curriculum and Instruction  
California State University Dominguez Hills  
  - Graduated: May 2019  
  - GPA: 3.9  
  - Recipient of CalRTA Laura E. Settle Scholarship

Certifications

Preliminary Multiple Subject Teaching Credential (Valid until 9/2025)

Work Experience

Lead Teacher and North OC Operations Manager (December 2017- Present)  
Brain Builders Ed STEM Education Center  
Running a team of 15 for all after school programs in Santa Ana Unified School District for Engage 360 program, curriculum development, co-teaching, office organization, substituting, helping parents organize student’s class schedules, differentiation in the classroom, problem solving, engineering concepts, application of meaningful use of technology in the classroom, tutoring, support social emotional learning,

Graduate Assistant for the Office of Graduate Studies and Research (September 2017- 2018)  
CSU: Dominguez Hills  
Planning for Student Research Day 2018, organizing office materials, logging data for IRB coordinator, assisting Graduate coordinator, scanning, filing, assisting students with navigation through our graduate programs, assisting students with graduate applications, assisting students applying for funding

OBJECTIVE  
Seeking a position that will challenge and utilize my passion for teaching.

QUALIFICATIONS
- Articulate educator with expertise in leadership
- Experienced in standard based instruction, curriculum design and implementation, diverse populations, gifted and talented students, and school environment
- Experienced in providing childcare in a daycare setting
- Experience in office administrative work
- Excellent communication skills and community sensitivity
- Highly motivated, reliable, flexible, and organized with good people skills

EDUCATION
Concordia University Irvine, CA, May 2012  
Bachelor of Arts in Liberal Studies, Concentration: English, GPA 3.47

TEACHING EXPERIENCE
Instructor, October 2016 to Present  
Brain Builders STEM Education, Tustin, CA
- Teach STEM based concepts (i.e. Biology, Chemistry, Astronomy, Engineering, Robotics., etc.) to students who are home schooled
- Teach engineering concepts using LEGO\'s to multiple schools in various districts
- Compose & implement new curriculum centered around STEM concepts

Substitute Teacher, October 2012 to June 2016  
Saddleback Valley Unified School District, Lake Forest, CA
- Maintain order in the classroom by efficiently executing lesson plans left by the teacher
- Applies the necessary teaching strategies to use in classrooms with various skill levels

KUMON Instructor, February 2014 to October 2016  
KUMON Learning Centers, Foothill Ranch, California
- Lesson plan for Early Learner (Preschool to Kindergarten) students on a weekly basis
- Tutor students one-on-one in reading and mathematics to strengthen their skills
- Conduct new student placement testing

City Tustin State CA Zip Code 92780

Telephone: 562-818-3269 Fax:

I have reviewed the RFP and Professional Services Agreement in their entirety. Our firm will execute the Professional Services Agreement “as is” without modification.

Name of Authorized Representative: Shane Veera

Signature of Authorized Representative:
November 19, 2020

TO: ALL RFP DOCUMENT HOLDERS OF RECORD

FROM: MARY CHAMBERS, BUYER

SUBJECT: ADDENDUM NO. 1 TO RFP DOCUMENTS FOR EDUCATION PROGRAM DEVELOPMENT, IMPLEMENTATION, AND FACILITATION

This Addendum forms a part of the Request for Proposals (RFP) document for the project identified above. All remaining portions of the RFP document not specifically mentioned or otherwise revised by this Addendum remain in full force and effect.

This RFP document is modified as set forth below:

1) Page 4 of the RFP, Section II, A. “Proposal Procedures RFP, Evaluation, and Award Schedule” is revised to: Interviews will take place on December 14, 2020 through December 16, 2020 for firms that are selected to move forward in the RFP process.

   a. As a reminder, it is mandatory for the proposed facilitators of the field trip program to also attend the interview.

2) Page 10 of the RFP, Section III, C. “Fee Schedule,” paragraph 4 is deleted in its entirety.

   Pricing shall remain firm for the entire Agreement term. Thereafter, any proposed pricing adjustment for follow-on renewal periods shall be submitted to Mesa Water staff in writing at least thirty (30) days prior to the new Agreement term. Mesa Water reserves the right to negotiate any proposed pricing adjustment.

3) Responses to questions received from proposers concerning the RFP document are included herein as EXHIBIT I.

Please acknowledge the receipt of this Addendum by attaching a signed copy to the proposal.
EXHIBIT I

1. Q. Would Mesa Water consider a proposal that solely focused on the creation and execution of the field trip program once the exhibits were completed? This would mean excluding the exhibit consulting aspect of the RFP, and coming in once the facility is fully completed.

A. No. The education program consultant’s expertise will help guide the execution of the exhibits and ensure that the education guidelines are met and successful.

2. Q. “Provide three (3) references for work similar to this scope of services that your firm has provided to public agencies, water districts, federal government, non-profit organizations, or private companies.” If we only have one reference, is that a deal breaker?

A. Three references are required. The references may include partners that provide a reference or comments on comparable work. This may include, but is not limited to, an industry or community partner, vendor, consultant, or other stakeholder that you have worked with on a similar or comparable project.

3. Q. Is there any information on what exactly the installations will be or what topics they will be covering or demonstrating?

A. The exhibit concepts are still being developed. The main topics are described on page 14 of the RFP and may include subtopics such as careers in water/paths of study to work in water.

Topics mentioned in the RFP include the history of Mesa Water and the groundwater basin; Water 101 – the value of water as a precious natural resource in our community and beyond; and Mesa Water’s nanofiltration technology.

More information on this technology and the source of Mesa Water’s water can be found in the links below.

https://www.mesawater.org/about/infrastructure/mesa-water-reliability-facility

4. Q. Can we add pictures in the proposal or would it be better to add it as an appendix?

A. Pictures may be included in the proposal or appendix depending on the firm's preference. However, please note proposals shall be a maximum of 30 pages in length (not including resumes). Any pages over the total of 30, will not be included in the evaluation/scoring.

5. Q. For the Fee Schedule it just has to be a flat fee for the contract or annually as stated? The contract being so long in term but all the work done on the back end how would it be appropriate to indicate that in the fee schedule? The 30 day notice for the agreement terms is the just for the renewal or can that be adjusted to this contract say we decided that it would be better with 2 scientists leading the programs instead of 1 per field trip or deciding to change a take home?

A. The Fee Schedule shall include the total lump sum fee for this entire project and shall also be broken down by the total cost of each phase of the project. Any enhancements or add-ons shall be provided as a separate cost below the fees.

Please refer to item 2, page 1 of the addendum.

6. Q. If you are able to say, what would be the available budget? I would like to propose the best program possible but understand that there are limitations.

A. Firms should provide a fee schedule that would deliver the best possible program. Firms may also choose to submit pricing for a basic program/package and an enhanced program/package.

7. Q. Is it possible to get a tour of the MWRF prior to the submission of the RFP?

A. No.

ADDENDUM NO. 1 ACKNOWLEDGED:

MEMORANDUM

TO: Board of Directors  
FROM: Kurt Lind, Business Administrator  
DATE: January 14, 2021  
SUBJECT: Annual Performance Measures and Audits

RECOMMENDATION

Award a five-year contract to LA Consulting, Inc. in the amount of $162,079 to conduct the annual performance audit.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.  
Goal #2: Practice perpetual infrastructure renewal and improvement.  
Goal #3: Be financially responsible and transparent.  
Goal #4: Increase public awareness about Mesa Water® and about water.  
Goal #5: Attract and retain skilled employees.  
Goal #6: Provide outstanding customer service.  
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

At its April 11, 2013 meeting, the Board of Directors (Board) approved the Business Process Evaluation project. The purpose of this evaluation was to investigate and document current organizational operations and identify opportunities to improve various business processes, including organizational structure, labor usage, technology utilization and needs, work management, effectiveness, and efficiency.

At its May 22, 2014 meeting, the Board approved the Business Improvement Process Implementation. The purpose of this implementation was to institutionalize and optimize Mesa Water District’s (Mesa Water®) business processes, as well as establish new systems and upgrade existing automated tools in order to increase accountability to allow for process improvement.

At its March 26, 2018 workshop, the Board directed staff to develop District-wide key performance indicators and performance audits. The purpose of this direction was to provide the final feedback link to a sound business process strategy. The Strategic Plan establishes the vision that the Board has created. Management and staff work together to develop the plans and measures detailing how to reach that vision. The Performance Audit is an independent, third-party check of our system and processes to ensure they are functioning as designed.

At its April 7, 2019 workshop, the Board received a presentation from LA Consulting, Inc. (LAC) showing the results of Mesa Water’s Business Improvement Process Implementation. Mesa Water staff then outlined the process of developing performance measures and conducting performance audits for Mesa Water. The Board directed staff to include in the proposed Fiscal Year (FY) 2020 Budget third-party auditors to conduct the annual performance audit for FY 2019.
At its December 10, 2020 meeting, the Board received a presentation from LAC showing the development and implementation of the FY 2019 Dry Run Performance Audit and communicating the lessons learned. Mesa Water staff then outlined the process of developing performance measures for Mesa Water.

DISCUSSION

Background
In 2013, Mesa Water obtained professional consulting services to optimize their business operating units. LAC was retained by Mesa Water in April 2013, through a competitive selection process, to evaluate the business processes of six departments including Administrative Services, Customer Services, Engineering, Financial Services, Public & Government Affairs and Water Operations.

The evaluation was completed in March 2014 and many opportunities were identified for improvement that have saved Mesa Water an estimated $6.3MM over five years and significantly improved productivity. Staff efforts have benefitted Mesa Water customers by optimizing the workforce and resources, while reducing overall operational costs.

FY 2019 Performance Audit – Dry Run
In the fall of 2019, LAC conducted a dry run audit for FY 2019. The goal of the dry run was to help staff and auditors understand the audit process and prepare for the first “Go Live” Performance Audit. After the dry run audit was completed, LAC provided recommendations that will improve the audit process and bring clarity to select performance indicators.

FY 2020 Performance Audit Scorecards & Performance Audit Process Guide
Staff has updated the Performance Audit Scorecards and completed the Draft Mesa Water Performance Audit Guide. These two documents work together. The scorecard provides the specific performance indicator, definition, data source, scoring criteria by gold/green/red, weighed score, and overall score. The guide communicates the background, strategy, and purpose for the performance audit and outlines each measure for every department. Below are the areas outlined in the Performance Audit Process Guide that describe the foundation of each key performance indicator (KPI):

- **Measure** – We can measure progress, which is the percent complete of what we are measuring and we can measure change, which is what we are expecting out of what we are measuring. An example of measuring progress is the percent of valves exercised to date. An example of measuring change would be if the Board wanted to increase the District’s day’s cash position in comparison to last year.

- **Target** – This represents the quantifiable piece of the KPI. Examples include the number of valves exercised, the number of Board Packets produced, and the number of checks written to pay vendors for the year.

- **Source** – This represents the information source that is used to determine the outcome of the KPI. Examples include the Computerized Maintenance Management System, Financial System, Customer Information System, and manual files.
• **Frequency** – This is how often the results of each KPI are reviewed; they can vary from monthly, quarterly, and annually depending on the purpose.

• **Purpose** – This outlines the importance and reasoning behind establishing a particular measure.

• **Audit Preparation** – This provides the expectation of what the department staff needs to have prepared in advance of the audit.

• **Strategic Plan** – This represents how the KPI relates to the strategic plan goal(s).

The Performance Audit Scorecards and Mesa Water Performance Audit Guide are both flexible documents that are able to adjust to future needs and processes. On an annual basis, Mesa Water will review the performance indicators to ensure they properly reflect the vision of the Board that is communicated through the strategic plan. As part of this process, any proposed changes to the performance measures will be reviewed and approved by the Board.

In order to ensure this strong management process becomes part of the Mesa Water perpetual agency philosophy, we have to anchor it in. This is accomplished through the annual performance audit as performed by an independent auditor. Staff recommends that the Board award a five-year contract to LA Consulting, Inc. in the amount of $162,079 to conduct the annual performance audit.

**FINANCIAL IMPACT**

In Fiscal Year 2021, funds have been budgeted for third-party auditors to conduct the Annual Performance Measures and Audits.

**ATTACHMENTS**

Attachment A: LA Consulting, Inc. Five-Year Performance Audit Proposal
Attachment B: Performance Audit Process Guide
Attachment C: Performance Audit Scorecards
Mr. Kurt B. Lind  
kurtl@mesawater.org  
Business Administrator  
Office of the General Manager  
Mesa Water District  
1965 Placentia Avenue  
Costa Mesa, CA 92627  

Subject: Update Proposal Scope of Work and Cost for Performance Audit (5 Years)

Dear Mr. Lind:

Pursuant our discussions last week, LA Consulting, Inc. (LAC) has provided an updated scope of work with cost and description. Based upon our recent communications, as well as our knowledge of your operations, we have costed and scheduled the tasks in which we can assist the District to audit each group’s performance over the next 5 years. The update is based on current staff to be assigned and current rates.

We appreciate the opportunity to assist Mesa Water District in continuing with the enhancement and institutionalization of your systems approach and optimizing District resources. LAC will perform this effort for $142,358. We also, included an optional task order base amount annually for any efforts requested outside of our scope that then results in a total of $162,079. We look forward to assisting Mesa Water with continuing to improve operations and processes, as well as provide professional guidance.

LAC has the capabilities and necessary resources to ensure a successful project. We look forward to helping the District evaluate and optimize your organization. The main effort would be done by Mr. Thomas Fraher with support and guidance from myself and support others as needed. Should you need any clarification or further information, please contact us.

Sincerely,

Harry C. Lorick, P.E., PWLF  
Principal
Enclosure

Scope of Work

LAC will audit the performance of each department within Mesa Water District each year for the next 5 fiscal years. The performance audit will follow the auditing guidelines and spreadsheets formalized by Mesa Water District. The following task description and deliverables chart outlines the work that will be performed for each fiscal year’s audit.

<table>
<thead>
<tr>
<th>No</th>
<th>Task</th>
<th>Deliverable</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Project Kickoff</td>
<td>LAC will prepare and present a kickoff presentation outline and discuss.</td>
</tr>
<tr>
<td>Task 1</td>
<td>Overview and Schedule</td>
<td>A project kickoff meeting with the Project Manager and GM shall be conducted to provide a project overview, identify the project objectives, outline the tasks, and review the project schedule.</td>
</tr>
<tr>
<td>2</td>
<td>Work Performance</td>
<td>LAC will use the previously developed spreadsheet with performance indicators for the Performance Audit to rate each group’s performance. The ratings will provide the basis for the overall performance score, which will be provided to Mesa Water on the same spreadsheets.</td>
</tr>
<tr>
<td>Task 2</td>
<td>On-site Data Review</td>
<td>LAC will be on-site to review all data provided related to the performance audit of all identified groups at Mesa Water District. Data will be confirmed and rated according to the performance scale developed by the District.</td>
</tr>
<tr>
<td>3</td>
<td>Data Compilation</td>
<td>A document will be prepared summarizing all the data compiled and rated while on-site and outline the initial findings.</td>
</tr>
<tr>
<td>Task 3</td>
<td>Off-site data compilation</td>
<td>LAC will work off-site to compile and document all of the collected data and follow the related rating scheme.</td>
</tr>
<tr>
<td>4</td>
<td>Prepare Presentation</td>
<td>LAC will make an initial presentation of findings and analysis to the Project Manager and each group manager.</td>
</tr>
<tr>
<td>Task 4</td>
<td>Initial Presentation</td>
<td>LAC will compile results from a complete evaluation and organize the information. A presentation will be made to key managers - one at a time.</td>
</tr>
<tr>
<td>Task 4a</td>
<td>Gather feedback</td>
<td>LAC will update the complete evaluation and organize the information with all comments addressed.</td>
</tr>
<tr>
<td>Task 4b</td>
<td></td>
<td>LAC will compile all feedback from the Project Manager and other staff as appropriate into a document and incorporate feedback into the final presentation and report.</td>
</tr>
<tr>
<td>5</td>
<td>Audit Report</td>
<td>Draft report completed with evaluation and ideas for improvement.</td>
</tr>
<tr>
<td>Task 5a</td>
<td>Draft Analysis/Findings Section</td>
<td>All comments for improvement of process and report will be included in the final report.</td>
</tr>
<tr>

Performance Audit Process Guide

January 14, 2021
Performance Audit Process Guide

Overview

Mesa Water® District’s (Mesa Water®) Board of Directors (Board) has established its Strategic Plan that encompasses seven high level goals. These overarching goals provide the vision for the District and guidance with goals to achieve for staff. The Strategic Plan is the foundation of Mesa Water’s business strategy. Moreover, the Strategic Plan establishes a fundamental business management process that embraces the District’s Perpetual Agency philosophy. The steps of this business management process include the following:

- Strategic Plan
- Goals
- Key Performance Indicators
- Performance Audit

This sound business approach encompasses the important components of communication, agreement, and feedback of the Goals and Key Performance Indicators (KPIs) at every level within the organization. Communication links all of these pieces and enables Mesa Water to perform and achieve at a high level. The Strategic Plan establishes the Board’s vision. Management and staff work together to develop the plans and measures detailing how to reach that vision. It all begins with the leadership of Mesa Water providing their vision for the District.
**Strategic Plan**

The Board provides the General Manager with direction regarding the District's high level goals and objectives for the upcoming year. Based on this direction, priorities are established, resources are allocated, and staff works to accomplish the goals and objectives.

**Department Goals**

Mesa Water’s goals for each department help determine our KPIs. For example, Water Operations staff has a goal to maintain main line valves by exercising them every two years. Administrative Services staff produces 4 – 6 Committee and Board Packets every month. Customer Services staff reads the water meters, processes billing, and provides our ratepayers excellent customer service. Financial Services staff produces the payroll, pays our vendors, and closes the books every month. By understanding the major activities of what the District does as an agency provides insight with developing goals.

**Key Performance Indicators**

Mesa Water is in a strong business position in the areas of transparency, accountability, and efficiency. Through the Business Improvement Process Implementation, staff developed:

- Work activities and plans
- Balanced and streamlined labor resources
- Determinations of how and when we do our work
- Established expectations and measurable results

KPIs are the heartbeat of the District’s performance management process. They tell us whether we are making progress towards our goals that are linked to the Strategic Plan. There are six areas that make up the foundation of the KPIs:

- Measure
- Target
- Source
- Frequency
- Audit Preparation
- Strategic Plan

**Measure** – We can measure progress, which is the percent complete of what we are measuring and we can measure change, which is what we are expecting out of what we are measuring. An example of measuring progress is the percent of valves exercised to date. An example of measuring change would be if the Board wanted to increase the District’s day’s cash position in comparison to last year.
Target – This represents the quantifiable piece of the KPIs. Examples include the number of valves exercised, the number of Board Packets produced, and the number of checks written to pay vendors for the year.

Source – This represents the information source that is used to glean the KPIs. Examples include the Computerized Maintenance Management System, Financial System, and Customer Information System.

Frequency – This is how often the results of each KPI are communicated; they can vary from monthly to quarterly depending on the audience.

Audit Preparation – This provides the expectation of what the department staff need to have prepared in advance of the audit.

Strategic Plan – This represents how the KPIs relate to the strategic plan goal(s).

Understanding what needs to be monitored and how often is the basis for sound decision-making. This will be a critical component of Mesa Water’s business strategy.

Mesa Water establishes performance measures because it allows us as an organization to evaluate how well our services are performed and holds us accountable to our annual goals. They provide management the ability to measure accomplishment, time, and cost in order to manage all aspects of the operation. Most importantly, performance measures make transparent our activities and show what services our ratepayers receive for their dollars.

Performance Audits

The performance audit focuses on our system and processes to ensure they are functioning as designed. Components of the audit vary depending on the department, but embrace the following concepts:

- Reviewing the quality of the information staff uses to measure
- Ensuring that our business systems and related processes are set up and operating appropriately
- Ensuring that critical activities of the business are completed on time and with quality
- Ensuring critical programs and processes are in place and operating properly

The performance audit is an independent, third-party confirmation of our performance for the year. The audit is designed to be simple to communicate and meaningful because the focus is on our most critical business functions. It is meant to be a straightforward evaluation of Mesa Water’s efficiency and effectiveness. The performance audit supports Mesa Water’s commitment to continuous improvement by providing meaningful feedback that can lead to operational improvements. Overall, the performance audit:
• Assures the vision of the Board
• Reassures efficient and effective management of public funds
• Ensures that measures and standards are in place and achieved

Embracing the Business Management Process benefits our Board, ratepayers, and Mesa Water staff. It reinforces our commitment to our responsibility to our ratepayers; our ratepayers receive an efficiently run business and accountability of resources; and provides the organization with meaningful challenges coupled with opportunity for improvement.

Performance Audit Process

Planning
The first phase of the audit process involves planning the audit, including defining the audit objective, scope, schedule, and audit criteria. This phase involves communicating with the Management Team and each of the departments to share the audit process expectations for both the auditors and staff. The purpose of these meetings are to accomplish the following:

• Review of the information and criteria related to the program or activity to be audited
• Communication of the scope and schedule
• Establish the expectations when the auditors are on site
• Provide a forum for staff questions and feedback

Information Gathering and Analysis
In the second phase of the audit process, the auditors gather and analyze the information necessary to draw a conclusion on each of the particular performance measures. This includes collecting department-prepared documentation and, if necessary, conducting interviews with the managers and staff relevant to the performance measure.

What the Auditors Require:

Access: providing the auditor with access to the premises, systems, documents, and other property that may be necessary to the audit.

Responsiveness: managers and relevant staff should be reasonably available when the auditors are on site for questions, request for documentation, and access to information.
Feedback: concerns or issues related to the audit should be raised with the Business Administrator in a timely manner. The Business Administrator will address these concerns with the General Manager and will provide feedback within 10 business days from the date of notification. The Business Administrator will also seek feedback on the conduct of the audit process at the conclusion of the audit.

Reporting
The third phase is producing the preliminary audit findings, conclusions, and recommendations. This information is provided to the Department Managers for review and feedback, including to correct errors of fact, and where necessary, to allow for provision of additional information and context.

The Business Administrator will schedule individual meetings with the auditor and Department Managers to share the draft information. The auditors first present the information in a presentation format and provide a copy of the presentation to the Department Manager. This format allows for a question and feedback process to ensure clarity of the information and that audit results are communicated. Any issues that arise will be documented by the auditor and reviewed for further consideration. The manager is responsible for providing further context, data, or any other sort of information to the Business Administrator for the auditor to review within seven business days after the audit presentation meeting. The auditor will take no more than seven business days to resolve any outstanding issues. The auditor will make the final determination and score the performance measure(s) accordingly.

The auditor will then prepare written documentation of the draft performance audit results for each department. The report will be provided as one document with a number of sections representing the audited department. The manager is provided seven business days to review the report and provide feedback to the Business Administrator for the auditor to review. The auditor will take no more than seven business days to review any comments. The auditor will make the final determination and score the performance measure(s) in question accordingly. The final report will be prepared and distributed to the Management Team. The auditor and Business Administrator will present the audit results to the Board.

The Business Administrator will be responsible for organizing the recommendations from the audit of each department into an Action Plan. The Business Administrator will submit the Action Plan to the General Manager and Department Manager within twenty business days after the submission of the final report. Each Department Manager will meet with the General Manager and Business Administrator to review each recommendation; discuss/determine/agree to a resolution; and assign a responsible resource to accomplish the agreed upon recommended action(s). This meeting will occur within fifteen business days after the submission of the Action Plan.
The Department Manager is responsible to facilitate and complete each of the agreed upon recommended action(s). Upon completion of each action, the Department Manager will meet with the General Manager and review the completed effort. The General Manager will formally approve the completed action with their signature on the specific recommended action within the Action Plan. The Department Manager will keep record of the Action Plan and will make it available for the forthcoming Annual Performance Audit.

The following pages outline the specific KPIs for each department. The intent of this narrative is to provide a higher level of detail in an effort to bring clarity and agreement to each KPI. The performance indicators are designed to be flexible in order to adjust to the vision of the Board. Any changes to the KPIs will be brought to the Board for approval. This ensures that the vision of Mesa Water aligns with the KPIs.

**Performance Audit**

**Water Operations**

**WORK PERFORMANCE**

**Measure 1:** Results from the 10 Key Performance Indicators for the Fiscal Year

**Target:** This measure varies based on activity

- a. Capital Mainline Valve Replace (number of valves replaced per day)
- b. Capital Hydrant Upgrade (number of hydrants upgraded per day)
- c. Hydrant Maintenance (number of hydrants maintained per day)
- d. Distribution Valve Maintenance (number of valves maintained per day)
- e. Night Valve Maintenance (number of valves maintained per day)
- f. PDO System Monitoring (number of system checks completed per day)
- g. PDO Weekly (number of completed checklists per day)
- h. Backflow Test Reports (number of test reports completed per day)
- i. Instrument Calibration Checks (number of instruments checked per day)

The activities listed above are measured utilizing a 3-point system and assigning points based upon performance. The measure for each activity is average daily production (ADP) which is a standard output measure that is based on the average number of units produced in a 9-hour day of work. A production range is established for each activity and points are awarded based on the following criteria:

- 1 point = below range (lower productivity)
- 2 points = within range (expected productivity)
- 3 points = above range (higher productivity)

The production range for each activity is determined during the Annual Work Plan Update each year. This update process begins in March and is a collaborative effort
with the Department Manager, Supervisors, and staff.

**Source:** Computerized Maintenance Management System (CMMS)

**Frequency:** Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To evaluate how well our key services are performed and holds management accountable to our annual goals. They provide management the ability to measure time (through ADP and Hours per Unit) in order to manage all aspects of the operation.

**Audit Preparation:** No preparation needed. Information from Work Status Reports from CMMS.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

---

**VERIFY ACCURATE REPORTING OF WORK**

**Measure 2:** Work Reporting Accuracy

**Target:** This measure is verified by the percent of accurate work reporting entry into the Computerized Maintenance Management System. A random sample of work reporting forms are selected by the auditor. The auditor will then compare the data on the work reporting form to the data entered in the Computerized Maintenance Management System. Points of focus includes as applicable: Activity Number, Project Number, Employee Name, Labor Hours, Equipment Hours, Parts/Materials, and Work Quantity.

Deviations between what was reported and what was entered into the system will be noted and the accuracy percent will be determined.

**Work Reporting Accuracy = Total Data Entry Points/Accurate Data Entry Points**

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Computerized Maintenance Management System

**Frequency:** Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the accuracy of the information entered into the Computerized Maintenance Management System. The various reports generated from the system are used to make management decisions including work planning, work scheduling, activity performance (productivity), activity costing, work loading, monthly activity monitoring, labor/equipment/parts utilization, and various analysis reports. The management
decisions are impactful to the organization and require data entry to meet or exceed acceptable accuracy standards.

**Audit Preparation:** No preparation needed. Information from Work Status Reports from CMMS.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**MANAGEMENT PROCESS**

**Measure 3:** Two-Week Scheduling, Data Entry, & Monthly Work Status Meetings

**Target:** Percent of successfully completed and on-time submittal of the two-week work schedule, entry of performance data, and holding the monthly work status meeting. There are 26-27 occurrences (depending on the year) where the two-week schedule needs to be completed/submitted and 12 occurrences where the monthly work status meeting needs to be conducted with staff. There are a total of 38 to 39 opportunities for the year.

The Business Administrator develops and submits to the Department Managers by June 15 the monthly schedule with the expected date of completion for these events. The Business Administrator tracks the completion of the two-week schedule adherence by checking the electronic file location and ensuring the schedule has been developed by the designated time frame. The Business Administrator runs the labor report out of the Computerized Maintenance Management System at the end of the scheduled data entry due date to ensure all labor hours for each employee have been entered. The Business Administrator tracks the completion of the monthly status meeting through the electronic documentation in the same file location of the Meeting Agenda and Monthly Status Report.

This measure is verified by the percentage of successful on-time submission of the two-week schedule, data entry date, and successful on time event for the monthly status meeting with department staff. For example, if there were 35 successful submissions and events out of 38 possible, the success rate would be 92%.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within the acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Monthly Management Process Schedule/Tracker

**Frequency:** Monitored monthly by the Business Administrator and submitted to the Department Managers. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the excellent business processes related to two-week scheduling (planning work in advance in short two week sprints) and monitoring work performance
monthly (time, productivity, and costs for delivering our services to the ratepayers) are part of Mesa Water’s culture and embraces the District’s perpetual agency philosophy.

**Strategic Plan**: Goal 3 – Be financially responsible and transparent.

**ACCURACY OF ASSETS**

**Measure 4**: Affirm Quarterly Asset Verification Meetings

**Target**: Percent of successfully scheduled and performed asset verification meetings. The meetings are run by the Water Operations Manager with the following staff in attendance:

- Water Operations Supervisor(s)
- Water Quality & Compliance Supervisor
- Field Services Supervisor
- Department Assistant

A meeting agenda is developed that outlines the various assets groups to be discussed and reviewed including Water System, MWRF, Water System Valves, Water System Hydrants, Facilities, and Fleet. Each supervisor will report any assets that have been added or replaced within the asset groups that are under their responsibility. Added or replaced assets are recorded on the Retiring and Implementing New Asset Form that will be presented at this meeting and confirmed as complete.

This measure is verified by the percentage of successful on time events for the quarterly meeting with department staff. For example, there are 4 scheduled meetings for the fiscal year and if 4 successful events occurred out of 4 possible, the success rate would be 100%.

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard

**Source**: Manual Files

**Frequency**: Monitored quarterly by the Department Manager and Supervisors through Asset Verification Meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose**: To ensure Mesa Water’s critical assets are monitored, maintained, and that the CMMS accurately reflects the assets that are in the field.

**Audit Preparation**: Meeting Package (agenda, any Retiring and Implementing New Asset Form(s), minutes, action list) organized in a file drawer with easy access upon request.
**Strategic Plan:** Goal 2 – Practice perpetual infrastructure renewal and improvement.

**WATER QUALITY**

**Measure 5:** Verify Monthly Water Quality Test Results Submitted to California Division of Drinking Water

**Target:** Percent of on-time submittals of Mesa Water’s water quality test results submitted to California Division of Drinking Water. This measure is verified by the 12 sent emails to California Division of Drinking Water.

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard

**Source:** Manual Files

**Frequency:** Monitored monthly by the Department Manager and supervisor through review and submission of test results to California Division of Drinking Water. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance with California Division of Drinking Water, water quality testing requirements.

**Audit Preparation:** Organize confirmation emails in one file folder from July to June for the audit year.

**Strategic Plan:** Goal 1 – Provide a safe, abundant, and reliable water supply.

**PRODUCTION DUTY OPERATOR**

**Measure 6:** Production Duty Checklist Compliance

**Target:** Percent of on-time submittals of emailed production duty checklist to the Production Duty Operator (PDO) Group within the agreed upon time requirements as documented in the Production System Operation Plan. This measure is verified by review of the Supervisor’s PDO Daily Performance Log.

The PDO is on-call 24 hours a day for a 7-day period to oversee the operations of Mesa Water’s production and storage systems. The PDO shall be responsible for monitoring the SCADA system and use it to capture the required checklist parameters. The PDO shall check the SCADA system (per checklist requirements) to monitor the system parameters via their assigned production duty laptop computer per the following schedule:

- Weekdays (Regular Shift): The PDO shall monitor the operational system parameters at the start of regular work shift at 7:15 (7:45 am Mondays), 10:00 am, 1:00 pm, and 4:15 pm;
• Weeknights: The PDO shall monitor the operational system parameters at 7:00 pm, between 10:00-11:00 pm, and between 4:00-5:00 am;

• Weekends: The PDO shall monitor the operational system parameters at 7:00 am, 10:00 am, 1:00 pm, 4:00 pm, 7:00 pm, between 10:00-11:00 pm, and 4:00-5:00 am;

The checklist is submitted seven times per day, 365 days per year resulting in 2,555 submittals. This is measured by the percentage of successful on-time submission of the PDO Checklist based on the standards established in the Production System Operation Plan. For example, if there were 2,409 successful submissions out of 2,555 possible, the success rate would be 94%.

The following is the acceptable accuracy range:

• 93% or less is below acceptable accuracy standards
• 94% - 96% is within acceptable accuracy standards
• 97% or higher is exceeding acceptable accuracy standards

**Source:** Supervisor’s PDO Daily Performance Log

**Frequency:** Monitored daily by the supervisor through review and submission of the PDO Checklist emailed to the PDO Group List. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure Mesa Water’s system is operating and performing to the standards documented in the Production System Operation Plan.

**Audit Preparation:** Prepare and submit upon request the PDO Supervisor Log.

**Strategic Plan:** Goal 1 – Provide a safe, abundant, and reliable water supply.

**Measure 7: Weekly Water Supply Forecast Compliance**

**Target:** Comparison of the submission time of the Weekly Water Supply Forecast to the agreed upon time requirements in the Production System Operation Plan.

The Production Duty Operator is required to develop a weekly water supply forecast plan. This plan is submitted to the Water Operations Supervisor for review and approval. This plan assists with anticipating the water demands for the upcoming week; determining sources of water (wells, MWRF, CPTP); and reservoir operation.

This performance indicator is measured by the percent of Weekly Water Supply Forecasts that were submitted on time to the Water Operations Supervisor.

The following is the acceptable accuracy range:

• 93% or less is below acceptable accuracy standards
• 94% - 96% is within acceptable accuracy standards
• 97% or higher is exceeding acceptable accuracy standards
**Source:** Supervisor’s weekly performance log.

**Frequency:** Monitored weekly by the supervisor through review and submission of the Weekly Water Supply Forecast. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure Mesa Water’s system is operating and performing to the standards documented in the Production System Operation Plan.

**Audit Preparation:** Prepare and submit upon request the Weekly Water Supply Forecast Supervisor Log.

**Strategic Plan:** Goal 1 – Provide a safe, abundant, and reliable water supply.

---

**FLEET COMPLIANCE**

**Measure 8:** Quarterly CHP/BIT Completed

**Target:** Compare planned CHP/BIT schedule for required fleet to actual results. This should be completed at 100% for all vehicles that meet the requirements for the CHP/BIT for the previous calendar year. The Water Operations Coordinator is responsible for planning, completing, recording, and filing the CHP/BIT results every quarter. For each quarter, the auditor will review the following for every required vehicle:

1. The CHP/BIT form is completed for each inspection item
2. Identified repairs are completed within 3 months and confirmed by a work order.
3. The CHP/BIT form signed off by a professional fleet mechanic

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard

**Source:** Manual Files

**Frequency:** Monitored quarterly by the Department Manager and Water Operations Coordinator through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance with California Highway Patrol pursuant to Section 34501 or 35501.12 of the Californian Vehicle Code (CVC)

**Audit Preparation:** CHP/BIT paperwork organized in a file drawer with easy access upon request. Submit a list of vehicles by VIN that are subject to the regulation for the audit year. Organize inspection results in a one file folder for the preceding calendar year.

**Strategic Plan:** Goal 2 – Practice perpetual infrastructure renewal and improvement. Goal 6 – Provide outstanding customer service.
**Measure 9: Annual SMOG Testing Completed**

**Target:** Compare planned SMOG Testing schedule for required fleet to actual results. This should be completed at 100% for all vehicles that meet the requirements for the previous calendar year. The Water Operations Coordinator is responsible for planning, completing, recording, and filing the SMOG Testing results each calendar year. The auditor will review the following for every required gas powered vehicle:

- a. The Vehicle Inspection Report is completed for each vehicle by a certified testing location
- b. The form signed off by a certified professional SMOG technician

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard

**Source:** Manual Files

**Frequency:** Monitored annually by the Department Manager and Water Operations Coordinator through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance with California emissions codes

**Audit Preparation:** SMOG paperwork organized in a file drawer with easy access upon request. Submit a list of vehicles by VIN that are subject to the regulation for the audit year. Organize inspection results in a one file folder for the preceding calendar year.

**Strategic Plan:** Goal 2 – Practice perpetual infrastructure renewal and improvement.

Goal 6 – Provide outstanding customer service.

---

**Measure 10: Annual Opacity Testing Completed**

**Target:** Compare planned Opacity Testing schedule for required fleet to actual results. This should be completed at 100% for all vehicles that meet the requirements for the previous calendar year. The Water Operations Coordinator is responsible for planning, completing, recording, and filing the Opacity Testing results each calendar year. The auditor will review the following for every required diesel powered vehicle:

- c. The Vehicle Inspection Report is completed for each vehicle by a certified testing professional
- d. The form signed off by a certified professional Opacity technician

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard
**Source:** Manual Files

**Frequency:** Monitored annually by the Department Manager and Water Operations Coordinator through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance with California Air Resources Board emissions codes

**Audit Preparation:** Opacity paperwork organized in a file drawer with easy access upon request. Submit a list of vehicles that are subject to the regulation for the audit year. Organize inspection results in a one file folder for the preceding calendar year.

**Strategic Plan:** Goal 2 – Practice perpetual infrastructure renewal and improvement. Goal 6 – Provide outstanding customer service.

---

**REVIEW OF COMPLIANCE DOCUMENTATION**

**Measure 11:** Review of Regulatory Compliance Reports.

**Target:** The auditor will randomly select and confirm three reports that have been completed and submitted to appropriate regulatory agencies. This measure is verified by the accompanied sent emails to the appropriate regulatory agency.

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standard

**Source:** Manual Files

**Frequency:** Monitored annually by the Department Manager and Water Quality Supervisor through quarterly review. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance various federal, state, and county regulatory agencies depending on the report selected.

**Audit Preparation:** Submit compliance documentation log upon request. Auditor to select three random compliance reports for the audit. Provide written/electronic confirmation of report submission for the three reports.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

---

**ACTION PLAN COMPLIANCE**

**Measure 12:** Review of all action plans associated with any Root Cause Analysis conducted during the audit year. Confirm that an action plan exists and that progress is being made towards completion.
**Target:** Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide any Root Cause Analysis Action Plan that was conducted during the audit year to the auditor. The Root Cause Action Plan will list the total number of actions and indicate whether those actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

**Source:** Root Cause Analysis Action Plan(s) for the previous audit year.

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure Mesa Water is actively progressing towards recommended and agreed upon root cause analysis recommendations.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Root Cause Analysis Action Plan for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

---

**Measure 13:** Review of all action plans associated with the Annual Water Operations Performance Audit.

**Target:** Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year’s Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether those actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

**Source:** Performance Audit Action Plan for the previous audit year.

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.
**Purpose:** To ensure Mesa Water is actively progressing towards recommended and agreed upon audit recommendations.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

---

### CONTINUOUS IMPROVEMENT

**Measure 14:** Review of the overall score from the previous audit year.

**Target:** Measure percent change of the overall department performance score compared to the previous audit year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year's Score – Percent of Current Year's Score

The following is the acceptable accuracy range:

- - 5% or lower than previous year is below acceptable standards
- - 4% or + 4% of previous year is within the acceptable standards
- 5% or higher that previous year or maintained gold status is exceeding acceptable standards

**Source:** Previous year’s performance audit

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To encourage and reward departments based on the continuous improvement philosophy.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Performance Audit

Engineering

VERIFY ACCURATE REPORTING OF WORK

**Measure 1: Work Reporting Accuracy**

**Target:** This measure is verified by the percent of accurate work reporting entry into the Computerized Maintenance Management System. A random sample of work reporting forms are selected by the auditor. The auditor will then compare the data on the work reporting form to the data entered in the Computerized Maintenance Management System. Points of focus includes as applicable: Activity Number, Project Number, Employee Name, Labor Hours, Equipment Hours, Parts/Materials, and Work Quantity.

Deviations between what was reported and what was entered into the system will be noted and the accuracy percent will be determined.

**Work Reporting Accuracy = Total Data Entry Points/Accurate Data Entry Points**

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Computerized Maintenance Management System

**Frequency:** Monitored monthly by the Department Manager through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the accuracy of the information entered into the Computerized Maintenance Management System. The various reports generated from the system are used to make management decisions including work planning, work scheduling, activity performance (productivity), activity costing, work loading, monthly activity monitoring, labor/equipment/parts utilization, and various analysis reports. The management decisions are impactful to the organization and require data entry to meet or exceed acceptable accuracy standards.

**Audit Preparation:** No preparation needed. Information from Work Status Reports from CMMS.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
MANAGEMENT PROCESS

Measure 2: Two-Week Scheduling, Data Entry, & Monthly Work Status Meetings

Target: Percent of successfully completed and on-time submittal of the two-week work schedule and holding the monthly work status meeting. There are 26-27 occurrences (depending on the year) where the two-week schedule needs to be completed/submitted and 12 occurrences where the monthly work status meeting needs to conducted with staff. There are a total of 38 to 39 opportunities for the year.

The Business Administrator develops and submits to the Department Managers by June 15 the monthly schedule with the expected date of completion for these events. The Business Administrator tracks the completion of the two-week schedule adherence by checking the electronic file location and ensuring the schedule has been developed by the designated time frame. The Business Administrator runs the labor report out of the Computerized Maintenance Management System at the end of the scheduled data entry due date to ensure all the labor hours for each employee have been entered. The Business Administrator tracks the completion of the monthly status meeting through the electronic documentation in the same file location of the Meeting Agenda and Monthly Status Report.

This measured is verified by the percentage of successful on-time submission of the two-week schedule, data entry date, and successful on time event for the monthly status meeting with department staff. For example, if there were 35 successful submissions and events out of 38 possible, the success rate would be 92%.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within the acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

Source: Monthly Management Process Schedule/Tracker

Frequency: Monitored monthly by the Business Administrator and submitted to the Department Managers. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure the excellent business processes related to two-week scheduling (planning work in advance in short two-week sprints) and monitoring work performance monthly (time, productivity, and costs for delivering our services to the ratepayers) are part of Mesa Water’s culture and embracing our perpetual agency philosophy.

Strategic Plan: Goal 3 – Be financially responsible and transparent.
ENGINEERING PROJECTS

Measure 3: Project Hours

Target: Percent of labor hours directly associated with Capital and Expense Projects compared to available hours less leave. The available hours are established at 2,080 for each Mesa Water engineer. The leave hours associated with the audit year are determined for each Mesa Water engineer through activity code OH-01 Leave and generated out of the Computerized Maintenance Management System. The project hours associated with the audit year are determined for each Mesa Water® engineer through a project hour report generated out of the Computerized Maintenance Management System. The calculation is applied as follows:

Project Application Rate = Actual Booked Hours/Available Hours – Leave Hours

The following is the acceptable accuracy range:

- 69% or less is below acceptable standards
- 70% - 79% is within the acceptable standards
- 80% or higher is exceeding acceptable standards

Source: Computerized Maintenance Management System

Frequency: Monitored monthly by the Department Manager through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To measure the application of staff time booked to Capital and Expense Projects compared to staff availability.

Audit Preparation: No preparation needed. Information provided by the Computerized Maintenance Management System.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

Measure 4: Construction Inspections

Target: Percent of construction inspections performed within three business days.

A sample of Customer Project files are randomly selected by the auditor for review. Inspection dates are scheduled and documented throughout the various phases of the project and signed off by the Construction Inspector as complete. Each scheduled inspection for the selected Customer Projects counts as one inspection. The total number of inspections can vary for each Customer Project due to the maturity of the project and status of each phase. This could result in one particular Customer Project incurring six inspections and another Customer project incurring two inspections.

The amount of inspections for the selected Customer Projects are summed providing a total count for the sample. The scheduled inspection dates are documented by the auditor and compared to the actual inspection dates, which are recorded in the
Computerized Maintenance Management System. The variance between the scheduled and actual inspection dates are recorded by the auditor and dates that exceed three business days are noted.

Construction Inspections = Inspections Performed within 3 Days/Total Inspections

The following is the acceptable accuracy range:

- 89% or less is below acceptable standards
- 90% - 94% is within the acceptable standards
- 95% or higher is exceeding acceptable standards

**Source:** Customer Project Files and Computerized Maintenance Management System

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To measure the level of customer service provided by Mesa Water inspection services to our customers.

**Audit Preparation:** Customer project files organized in a file drawer with easy access upon request. Inspection request and completion dates provided in CMMS.

**Strategic Plan:** Goal 6 – Provide outstanding customer service.

**Measure 5:** Contract Management

**Target:** Cost of construction contract change orders in Capital Program projects to less than 5% of the total annual value of construction awarded.

Financial Services will provide the auditor a report of all open projects with change orders. The auditor will determine the total dollar value of the change orders and the total dollar value of the construction contracts.

Contract Management = Total Dollar Value of Change Orders/Total Dollar Value of Construction Contracts

The following is the acceptable accuracy range:

- 10% or greater is below acceptable standards
  - 9% - 6% is within the acceptable standards
  - 5% or less is exceeding acceptable standards

**Source:** Financial System

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To measure the efficiency of contract management.

**Audit Preparation:** No preparation needed. Information provided by Financial System.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Measure 6: Efficiency of Plan Check

Target: Percent of plans reviewed within 15 business days

A sample of Customer Projects files are randomly selected by the auditor for review. The Project Status Form (within each project file) documents the start and end of the plan check process. There are occasions where multiple plan checks are performed on one Customer Project. All plan checks will be noted and counted.

The number of plan checks for each Customer Project selected are summed providing a total count for the sample. The plan check start and end dates will be reviewed and determined to either be within or exceeding the established target. The projects where the plan check end date exceeds the target will be noted.

Construction Inspections = Plan Checks within the Target Range/Total Plan Checks

The following is the acceptable accuracy range:

- 89% or less is below acceptable standards
- 90% - 94% is within the acceptable standards
- 95% or higher is exceeding acceptable standards

Source: Project Files - Project Status Form

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To measure the level of customer service provided by Mesa Water plan check services to our customers.

Audit Preparation: Customer project files organized in a file drawer with easy access upon request. Project Status Form available in customer project file.

Strategic Plan: Goal 6 – Provide outstanding customer service.

Measure 7: Efficiency of Contract Award for Construction or Professional Services

Target: Average time from Committee/Board approval to securing contract signature

The auditor will request a list of construction or professional service contracts for the audit year from Records Management. The auditor will request select contracts from the list for review. The auditor will then request the Board approval date documentation (as necessary) from Records Management for each contract. The auditor will document the contract signature date for each contract. An analysis will be performed by the auditor that will determine the number of days between the Board approval date and the signature date.

Efficiency of Contract Award = Contract Signature Date – Board Approval Date

The following is the acceptable accuracy range:

- 46 days or greater is below acceptable standards
• 45 to 31 days is within the acceptable standards
• 30 days or less is exceeding acceptable standards

Source: Records request for contract documents.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To measure the efficiency of the contract approval/award process.

Audit Preparation: No preparation needed. Information provided by Records Management.

Strategic Plan: Goal 6 – Provide outstanding customer service.

Measure 8: Project Management (projects less than $400,000)

Target: Labor/Construction Management Cost as a percent of the total project cost

Financial Services will provide the auditor a report of all closed projects from the audit year. The auditor will randomly select a number of projects (total cost of less than $400,000) from the list and will document the actual total cost for all selected projects. From the report, the auditor will also document the actual total cost for labor and construction management for all selected projects.

Project Management = Total Cost of Labor and Construction Management/Total Cost of the Project

The following is the acceptable accuracy range:

• 30% or greater is below acceptable standards
• 29% - 16% is within the acceptable standards
• 15% or less is exceeding acceptable standards

Source: Financial System

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To measure the efficiency of project management.

Audit Preparation: No preparation needed. Information provided by Financial System.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

Measure 9: Project Management (projects greater than $400,000)

Target: Labor/Construction Management Cost as a percent of the total project cost

Financial Services will provide the auditor a report of all closed projects from the audit year. The auditor will randomly select a number of projects (total cost greater than
$400,000) from the list and will document the actual total cost for all selected projects. From the report, the auditor will also document the actual total cost for labor and construction management for all selected projects.

Project Management = Total Cost of Labor and Construction Management/Total Cost of the Project

The following is the acceptable accuracy range:

- 20% or greater is below acceptable standards
- 19% - 11% is within the acceptable standards
- 10% or less is exceeding acceptable standards

**Source:** Financial System

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To measure the efficiency of project management

**Audit Preparation:** No preparation needed. Information provided by Financial System.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent

**Measure 10:** File completed projects in a timely manner

**Target:** Length of time that projects are filed with Financial Services to begin formal project closing process.

Financial Services will provide the auditor a list of all closed projects from the audit year. The auditor will randomly select a number of projects from the list. The auditor will document the project complete date and filed date on the Project Closeout Checklist. An analysis will be performed by the auditor that will determine the number of days between the Project Complete Date and the Project Filed Date.

Project Filing Efficiency = Project Filing Date – Project Complete Date

The following is the acceptable accuracy range:

- 120 days or greater is below acceptable standards
- 119 - 90 days is within the acceptable standards
- 89 days or less is exceeding acceptable standards

**Source:** Project Files - Project Closeout Checklist

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To measure the efficiency of project complete process which drives the project close out process.
Audit Preparation: Financial Services to provide closed project list for the audit year. District & Customer project files organized in a file drawer with easy access upon request.

Strategic Plan: Goal 3 – Be financially responsible and transparent. Goal 6 – Provide outstanding customer service.

ACTION PLAN COMPLIANCE

Measure 11: Review of all action plans associated with the Annual Engineering Performance Audit.

Target: Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year’s Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether that actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Performance Audit Action Plan for the previous audit year.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure Mesa Water is actively progressing towards recommended and agreed upon audit recommendations.

Audit Preparation: Mesa Water's Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

CONTINUOUS IMPROVEMENT

Measure 12: Review of the overall score from the previous audit year.

Target: Measure percent change of the overall department performance score compared to the previous audit year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall
score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score

The following is the acceptable accuracy range:

- 5% or lower than previous year is below acceptable standards
- 4% or +4% of previous year is within the acceptable standards
- 5% or higher that previous year or maintained gold status is exceeding acceptable standards

**Source:** Previous year’s performance audit

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To encourage and reward departments based on the continuous improvement philosophy.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Performance Audit

Customer Services

WORK PERFORMANCE

Measure 1: Results from the 2 Key Performance Indicators for the Fiscal Year

Target: This measure varies based on activity

a. Customer Inquiries - Office (number of customers served per day)
b. Customer Payment Processing (number of payment batches processed per day)

The activities listed above are measured utilizing a 3-point system and assigning points based upon performance. The measure for each activity is “average daily production” which is a standard output measure that is based on the average number of units produced in a 9-hour day of work. A production range is established for each activity and points are awarded based on the following criteria:

- 1 point = below range (lower productivity)
- 2 points = within range (expected productivity)
- 3 points = above range (higher productivity)

The production range for each activity is determined during the Annual Work Plan Update each year. This update process begins in March and is a collaborative effort with the Department Manager, Supervisors, and staff.

Source: Computerized Maintenance Management System

Frequency: Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To evaluate how well our key services are performed and holds management accountable to our annual goals. They provide management the ability to measure time (through ADP and Hours per Unit) in order to manage all aspects of the operation.

Audit Preparation: No preparation needed. Information from Work Status Reports from CMMS.

VERIFY ACCURATE REPORTING OF WORK

Measure 2: Work Reporting Accuracy

Target: This measure is verified by the percent of accurate work reporting entry into the Computerized Maintenance Management System. A random sample of work reporting forms are selected by the auditor. The auditor will then compare the data on the work reporting form to the data entered in the Computerized Maintenance Management System. Points of focus includes as applicable: Activity Number, Project Number,
Employee Name, Labor Hours, Equipment Hours, Parts/Materials, and Work Quantity. Deviations between what was reported and what was entered into the system will be noted and the accuracy percent will be determined.

Work Reporting Accuracy = Total Data Entry Points/Accurate Data Entry Points

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Computerized Maintenance Management System

**Frequency:** Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the accuracy of the information entered into the Computerized Maintenance Management System. The various reports generated from the system are used to make management decisions including work planning, work scheduling, activity performance (productivity), activity costing, work loading, monthly activity monitoring, labor/equipment/parts utilization, and various analysis reports. The management decisions are impactful to the organization and require data entry to meet or exceed acceptable accuracy standards.

**Audit Preparation:** No preparation needed. Information from Work Status Reports from CMMS.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**MANAGEMENT PROCESS**

**Measure 3:** Two-Week Scheduling, Data Entry, & Monthly Work Status Meetings

**Target:** Percent of successfully completed and on-time submittal of the two-week work schedule, entry of performance data, and holding the monthly work status meeting. There are 26-27 occurrences (depending on the year) where the two-week schedule needs to be completed/submitted and 12 occurrences where the monthly work status meeting needs to conducted with staff. There are a total of 38 to 39 opportunities for the year.

The Business Administrator develops and submits to the Department Managers by June 15 the monthly schedule with the expected date of completion for these events. The Business Administrator tracks the completion of the two-week schedule adherence by checking the electronic file location and ensuring the schedule has been developed by the designated time frame. The Business Administrator runs the labor report out of the Computerized Maintenance Management System at the end of the scheduled data
entry due date to ensure all the labor hours for each employee have been entered. The Business Administrator tracks the completion of the monthly status meeting through the electronic documentation in the same file location of the Meeting Agenda and Monthly Status Report.

This measured is verified by the percentage of successful on-time submission of the two-week schedule, data entry date, and successful on time event for the monthly status meeting with department staff. For example, if there were 35 successful submissions and events out of 38 possible, the success rate would be 92%.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within the acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

Source: Monthly Management Process Schedule/Tracker

Frequency: Monitored monthly by the Business Administrator and submitted to the Department Managers. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure the excellent business processes related to two-week scheduling (planning work in advance in short two week sprints) and monitoring work performance monthly (time, productivity, and costs for delivering our services to the ratepayers) are part of Mesa Water’s culture and embracing our perpetual agency philosophy.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

CUSTOMER SATISFACTION

Measure 4: Overall result of the annual Elite Customer Service Audit

Target: Overall Key Performance Indicator Score

The following is the acceptable accuracy range:

- 71% or less is below acceptable standards
- 82% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Elite Customer Service Audit

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure Mesa Water is providing outstanding customer service.
Audit Preparation: Mesa Water's Business Administrator to provide the Elite Customer Service Audit for the audit year.

Strategic Plan: Goal 6 – Provide outstanding customer service.

ACTIONS PLAN COMPLIANCE

Measure 5: Review of all action plans associated with the Annual Customer Service Performance Audit.

Target: Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year’s Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether that actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Performance Audit Action Plan for the previous audit year.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure Mesa Water is actively progressing towards recommended and agreed upon audit recommendations.

Audit Preparation: Mesa Water’s Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

CONTINUOUS IMPROVEMENT

Measure 6: Review of the overall score from the previous audit year.

Target: Measure percent change of the overall department performance score compared to the previous audit year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.
Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score

The following is the acceptable accuracy range:

- - 5% or lower than previous year is below acceptable standards
- - 4% or + 4% of previous year is within the acceptable standards
- - 5% or higher than previous year or maintained gold status is exceeding acceptable standards

**Source:** Previous year’s performance audit

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To encourage and reward departments based on the continuous improvement philosophy.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Performance Audit

Financial Services

**WORK PERFORMANCE**

**Measure 1:** Results from the 5 Key Performance Indicators for the Fiscal Year

**Target:** This measure varies based on activity

- a. Purchase Order/Change Order Processing (time per PO/CO produced)
- b. Payroll Process (time per payroll produced)
- c. Project Accounting - District (time per district capital project closed)
- d. Monthly Close (time per close)
- e. Accounts Payable (time per check produced)

The activities listed above are measured utilizing a 3-point system and assigning points based upon performance. The output for each activity is “hours per unit” which is a standard output measure for administrative type of efforts that is based on the average time that it takes to produce one unit of work. A production range is established for each activity and points are awarded based on the following criteria:

- 1 point = above range (lower productivity)
- 2 points = within range (expected productivity)
- 3 points = below range (higher productivity)

The production range for each activity is determined during the Annual Work Plan Update each year. This update process begins in March and is a collaborative effort with the Department Manager, Supervisors, and staff.

**Source:** Computerized Maintenance Management System

VERIFY ACCURATE REPORTING OF WORK

Measure 2: Work Reporting Accuracy

Target: This measure is verified by the percent of accurate work reporting entry into the Computerized Maintenance Management System. A random sample of work reporting forms are selected by the auditor. The auditor will then compare the data on the work reporting form to the data entered in the Computerized Maintenance Management System. Points of focus includes as applicable: Activity Number, Project Number, Employee Name, Labor Hours, Equipment Hours, Parts/Materials, and Work Quantity.

Deviations between what was reported and what was entered into the system will be noted and the accuracy percent will be determined.

Work Reporting Accuracy = Total Data Entry Points/Accurate Data Entry Points

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

Source: Computerized Maintenance Management System

Frequency: Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure the accuracy of the information entered into the Computerized Maintenance Management System. The various reports generated from the system are used to make management decisions including work planning, work scheduling, activity performance (productivity), activity costing, work loading, monthly activity monitoring, labor/equipment/parts utilization, and various analysis reports. The management decisions are impactful to the organization and require data entry to meet or exceed acceptable accuracy standards.

Audit Preparation: No preparation needed. Information from Work Status Reports from CMMS.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

MANAGEMENT PROCESS

Measure 3: Two-Week Scheduling, Data Entry, & Monthly Work Status Meetings

Target: Percent of successfully completed and on-time submittal of the two-week work schedule, entry of performance data, and holding the monthly work status meeting. There are 26-27 occurrences (depending on the year) where the two-week schedule needs to be completed/submitted and 12 occurrences where the monthly work status meeting needs to conducted with staff. There are a total of 38 to 39 opportunities for
the year.

The Business Administrator develops and submits to the Department Managers by June 15 the monthly schedule with the expected date of completion for these events. The Business Administrator tracks the completion of the two-week schedule adherence by checking the electronic file location and ensuring the schedule has been developed by the designated time frame. The Business Administrator runs the labor report out of the Computerized Maintenance Management System at the end of the scheduled data entry due date to ensure all the labor hours for each employee have been entered. The Business Administrator tracks the completion of the monthly status meeting through the electronic documentation in the same file location of the Meeting Agenda and Monthly Status Report.

This measured is verified by the percentage of successful on-time submission of the two-week schedule, data entry date, and successful on time event for the monthly status meeting with department staff. For example, if there were 35 successful submissions and events out of 38 possible, the success rate would be 92%.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within the acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Monthly Management Process Schedule/Tracker

**Frequency:** Monitored monthly by the Business Administrator and submitted to the Department Managers. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the excellent business processes related to two-week scheduling (planning work in advance in short two week sprints) and monitoring work performance monthly (time, productivity, and costs for delivering our services to the ratepayers) are part of Mesa Water’s culture and embracing our perpetual agency philosophy.

**Audit Preparation:** No preparation needed. Information from the Monthly Management Process Schedule/Tracker.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**VERIFICATION OF NEW ACCOUNTS**

**Measure 4:** Verification of New Accounts

**Target:** Verify documentation and approval of new accounts. Identify accounts within the Chart of Accounts that were established during the audit year with corresponding documentation for the previous audit year. This includes all new accounts and sub/repurposed accounts.
This measured is verified by the percentage of approved documentation for each new account that was added to the chart of accounts. For example, if 5 accounts were added to the chart of accounts compared to the previous year, there must be corresponding 5 Change of Accounts forms approved by the General Manager.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 99% is within the acceptable accuracy standards
- 100% is exceeding acceptable accuracy standards

Source: Change of Account Log book and signed request form. Previous and List of Chart of Accounts for the audit year and previous audit year from the Financial System.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure Mesa Water’s Chart of Accounts are effectively managed to a size that meets its business needs.

Audit Preparation: List of chart of accounts from the financial system for the audit year and previous audit year. Change of accounts log book with GM approval form for each change prepared for request.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

MONTHLY CLOSE

Measure 5: Monthly Close Documentation

Target: Verify the monthly close checklist for Project Accounting and Expense Accounts

This measured is verified by the percentage of approved documentation for each monthly close. There are 12 monthly close operations performed each year. Financial Services will document the closing of the capital projects and expense accounts each month through a detailed checklist. This checklist will be signed off by the CFO and Controller. In addition, monthly financial statements (projects and expense) will be produced for and delivered to the departments by the 15 business days of every month.

The following is the acceptable accuracy range:

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standards

Source: Signed monthly close checklist (capital projects/expense accounts) and corresponding department financial statements for each month of the audit year.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.
Purpose: To ensure accurate and timely statements to support fiscal monitoring and decision making. The financial statements represent Mesa Water’s true financial position to inform the Board of Directors, managers, lenders, and the public.

Audit Preparation: Monthly close packet that includes a checklist and financial statements.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

FINANCIAL INVESTMENTS

Measure 6: Investment Performance (PARS/OPEB Trust)

Target: Rate of Return on Investments (Pension Trust & OPEB Trust). Performance tied to S&P 500 for the fiscal year timeframe.

The following is the acceptable return on investment range:

- 90% or less is below an acceptable rate of return
- +/- 10% of S&P 500 is an acceptable rate of return
- 110% or greater is exceeding and acceptable rate of return

Source: Monthly treasury status report on investments (June)

Frequency: Reviewed monthly by Financial Services and submitted quarterly to the Board of Directors. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure an investment return is achieved that aligns with the objectives of the Board of Directors.

Audit Preparation: June investment statement for the audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

Measure 7: Investment Performance (Other Investments)

Target: Rate of Return on Investments (Other Investments). Performance tied to Local Agency Investment Fund (LAIF) for the fiscal year timeframe.

The following is the acceptable rate of return range:

- 90% or less is below an acceptable rate of return
- +/- 10% LAIF is an acceptable rate of return
- 110% or greater is exceeding and acceptable rate of return

Source: Monthly treasury status report on investments (June)
**Frequency:** Reviewed monthly by Financial Services and submitted quarterly to the Board of Directors. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure an investment return is achieved that aligns with the objectives of the Board of Directors.

**Audit Preparation:** June LAIF investment statement for the audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**Measure 8:** Cash On Hand

**Target:** The amount of cash on hand. Measured at the end of the fiscal year. Adjusted for any Board approved actions.

The following is the acceptable cash on hand range:

- 95% or less of budgeted cash on hand
- +/- 5% of budgeted cash on hand
- 105% or greater than budgeted cash on hand

**Source:** 4th Quarter Mesa Water Financial Statement.

**Frequency:** Reviewed monthly by Financial Services and submitted quarterly to the Board of Directors. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure a level of cash on hand is achieved that aligns with the objectives of the Board of Directors.

**Audit Preparation:** 4th Quarter Mesa Water Financial Statement

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**Measure 9:** Days Cash

**Target:** The number of days Mesa Water can fully run its operations and maintenance with no revenue. Measured at the end of the fiscal year. Adjusted for any Board approved actions.

The following is the acceptable budgeted days range:

- 95% or less of budgeted days
- +/- 5% of budgeted days
- 105% or greater than budgeted days

**Source:** 4th Quarter Mesa Water Financial Statement.
**Frequency:** Reviewed monthly by Financial Services and submitted quarterly to the Board of Directors. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To gauge Mesa Water's financial security.

**Audit Preparation:** 4th Quarter Mesa Water Financial Statement

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**Measure 10:** Debt Coverage Ratio

**Target:** Ratio of cash available for debt servicing to interest, principal and lease payments. Measured at the end of the fiscal year. Adjusted for any Board approved actions.

The following is the acceptable debt coverage range:

- 95% or less of Board approved debt coverage ratio
- +/- 5% Board approved debt coverage ratio
- 105% or greater than Board approved debt coverage ratio

**Source:** 4th Quarter Mesa Water Financial Statement.

**Frequency:** Reviewed monthly by Financial Services and submitted quarterly to the Board of Directors. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To gauge Mesa Water's financial security

**Audit Preparation:** 4th Quarter Mesa Water Financial Statement

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**ACTION PLAN COMPLIANCE**

**Measure 11:** Review of all action plans associated with the Annual Financial Services Performance Audit.

**Target:** Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year's Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether that actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:
CONTINUOUS IMPROVEMENT

Measure 12: Review of the overall score from the previous audit year.

Target: Measure percent change of the overall department performance score compared to the previous year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score

The following is the acceptable accuracy range:

- - 5% or lower than previous year is below acceptable standards
- - 4% or + 4% of previous year is within the acceptable standards
- 5% or higher that previous year or maintained gold status is exceeding acceptable standards

Source: Previous year’s performance audit

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To encourage and reward departments based on the continuous improvement philosophy.

Audit Preparation: Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent.
Performance Audit

Public Affairs

PUBLIC AWARENESS

Measure 1: Mesa Water Brand Identity

Target: Percent of respondents who correctly identify Mesa Water as their water provider. This measure represents unaided awareness.

The following is the acceptable standard range:

- 39% or less is below acceptable standards
- 40% to 70% is within the acceptable standards
- 71% or higher is exceeding acceptable standards

Source: Annual Customer Opinion Survey

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To gauge Mesa Water’s brand identity with its customers

Audit Preparation: Mesa Water’s Business Administrator to provide the Annual Customer Opinion Survey for the audit year.

Strategic Plan: Goal 4 – To increase public awareness about Mesa Water and about water.

Measure 2: Mesa Water Brand Recognition

Target: Percent of respondents who have an overall awareness of Mesa Water. This measure represents unaided awareness plus aided awareness.

The following is the acceptable standard range:

- 69% or less is below acceptable standards
- 70% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Annual Customer Opinion Survey

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To gauge Mesa Water’s awareness with its customers

Audit Preparation: Mesa Water's Business Administrator to provide the Annual Customer Opinion Survey for the audit year.
**Strategic Plan:** Goal 4 – To increase public awareness about Mesa Water and about water.

**COMMUNICATION**

**Measure 3:** Communication Efforts

**Target:** Percent of respondents who are very satisfied with Mesa Water’s efforts to communicate with customers

The following is the acceptable standard range:

- 69% or less is below acceptable standards
- 70% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

**Source:** Annual Customer Opinion Survey

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To gauge Mesa Water’s communication efforts with its customers

**Audit Preparation:** Mesa Water's Business Administrator to provide the Annual Customer Opinion Survey for the audit year.

**Strategic Plan:** Goal 6 – Provide outstanding customer service.

**PRODUCT SATISFACTION**

**Measure 4:** Good Tasting Water

**Target:** Percent of respondents who believe that Mesa Water provides water that tastes good.

The following is the acceptable standard range:

- 79% or less is below acceptable standards
- 80% to 94% is within the acceptable standards
- 95% or higher is exceeding acceptable standards

**Source:** Annual Customer Opinion Survey

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To gauge Mesa Water’s product satisfaction with its customers

**Audit Preparation:** Mesa Water's Business Administrator to provide the Annual Customer Opinion Survey for the audit year.
Strategic Plan: Goal 1 – Provide a safe, abundant, and reliable water supply.

ACTION PLAN COMPLIANCE
Measure 5: Review of all action plans associated with the Annual Public Affairs Performance Audit.
Target: Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year’s Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether those actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Performance Audit Action Plan for the previous audit year.
Frequency: Audited annually based on the year-end results compared to established standards for the audit year.
Purpose: To ensure Mesa Water® is actively progressing towards recommended and agreed upon audit recommendations.
Audit Preparation: Mesa Water’s Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent

CONTINUOUS IMPROVEMENT
Measure 6: Review of the overall score from the previous audit year.
Target: Measure percent change of the overall department performance score compared to the previous audit year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score
The following is the acceptable accuracy range:

- 5% or lower than previous year is below acceptable standards
- -4% or +4% of previous year is within the acceptable standards
- 5% or higher than previous year or maintained gold status is exceeding acceptable standards

**Source:** Previous year’s performance audit

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To encourage and reward departments based on the continuous improvement philosophy.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Performance Audit

Administration Services

**WORK PERFORMANCE**

**Measure 1:** Results from the 3 Key Performance Indicators for the Fiscal Year

**Target:** This measure varies based on activity

a. Board Meeting Process (time per Board Meeting Packet Produced and meeting held)
b. Committee Meeting Process (time per Committee Packet Produced and meeting held)
c. Public Records Request (time per public record request processed)

The activities listed above are measured utilizing a 3-point system and assigning points based upon performance. The output for each activity is “hours per unit” which is a standard output measure for administrative type of efforts that is based on the average time that it takes to produce one unit of work. A production range is established for each activity and points are awarded based on the following criteria:

- 1 point = above range (lower productivity)
- 2 points = within the range (expected productivity)
- 3 points = below range (higher productivity)

The production range for each activity is determined during the Annual Work Plan Update each year. This update process begins in March and is a collaborative effort with the Department Manager, Supervisors, and staff.

**Source:** Computerized Maintenance Management System

**Frequency:** Monitored monthly by the Department Manager and Controller through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To evaluate how well our key services are performed and holds management accountable to our annual goals. They provide management the ability to measure time (through ADP and Hours per Unit) in order to manage all aspects of the operation.

**Audit Preparation:** No preparation needed. Information from Work Status Reports from CMMS.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**VERIFY ACCURATE REPORTING OF WORK**

**Measure 2:** Work Reporting Accuracy

**Target:** This measure is verified by the percent of accurate work reporting entry into the
Computerized Maintenance Management System. A random sample of work reporting forms are selected by the auditor. The auditor will then compare the data on the work reporting form to the data entered in the Computerized Maintenance Management System. Points of focus includes as applicable: Activity Number, Project Number, Employee Name, Labor Hours, Equipment Hours, Parts/Materials, and Work Quantity. Deviations between what was reported and what was entered into the system will be noted and the accuracy percent will be determined.

Work Reporting Accuracy = Total Data Entry Points/Accurate Data Entry Points

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

Source: Computerized Maintenance Management System

Frequency: Monitored monthly by the Department Manager and Supervisors through work status meetings. Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure the accuracy of the information entered into the Computerized Maintenance Management System. The various reports generated from the system are used to make management decisions including work planning, work scheduling, activity performance (productivity), activity costing, work loading, monthly activity monitoring, labor/equipment/parts utilization, and various analysis reports. The management decisions are impactful to the organization and require data entry to meet or exceed acceptable accuracy standards.

Audit Preparation: No preparation needed. Information from Work Status Reports from CMMS.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

**MANAGEMENT PROCESS**

**Measure 3:** Two-Week Scheduling, Data Entry, & Monthly Work Status Meetings

Target: Percent of successfully completed and on-time submittal of the two-week work schedule, entry of performance data, and holding the monthly work status meeting. There are 26-27 occurrences (depending on the year) where the two-week schedule needs to be completed/submitted and 12 occurrences where the monthly work status meeting needs to conducted with staff. There are a total of 38 to 39 opportunities for the year.

The Business Administrator develops and submits to the Department Managers by June 15 the monthly schedule with the expected date of completion for these events. The
Business Administrator tracks the completion of the two-week schedule adherence by checking the electronic file location and ensuring the schedule has been developed by the designated time frame. The Business Administrator runs the labor report out of the Computerized Maintenance Management System at the end of the scheduled data entry due date to ensure all the labor hours for each employee have been entered. The Business Administrator tracks the completion of the monthly status meeting through the electronic documentation in the same file location of the Meeting Agenda and Monthly Status Report.

This measured is verified by the percentage of successful on-time submission of the two-week schedule, data entry date, and successful on time event for the monthly status meeting with department staff. For example, if there were 35 successful submissions and events out of 38 possible, the success rate would be 92%.

The following is the acceptable accuracy range:

- 89% or less is below acceptable accuracy standards
- 90% - 94% is within the acceptable accuracy standards
- 95% or higher is exceeding acceptable accuracy standards

**Source:** Monthly Management Process Schedule/Tracker

**Frequency:** Monitored monthly by the Business Administrator and submitted to the Department Managers. Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the excellent business processes related to two-week scheduling (planning work in advance in short two week sprints) and monitoring work performance monthly (time, productivity, and costs for delivering our services to the ratepayers) are part of Mesa Water’s culture and embracing our perpetual agency philosophy.

**Audit Preparation:** No preparation needed. Information from the Monthly Management Process Schedule/Tracker.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**TRANSPARENCY**

**Measure 4:** Board and Committee Meeting Minutes

**Target:** Publish Draft Minutes within 60 days of each Board and Committee Meeting. This target is an internal standard.

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standards

**Source:** Website report denoting the day/time of the publishing

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.
**Purpose:** To ensure the excellent business processes related to transparency.

**Audit Preparation:** Administrative Services to provide confirmation of postings via website services.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

**Measure 5:** Website Transparency

**Target:** Verify and affirm that select items are posted on the Mesa Water website and are current.
- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standards

**Source:** Website report denoting the day/time of the publishing

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the excellent business processes related to transparency.

**Audit Preparation:** Administrative Services to provide confirmation of postings via website services.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

---

**OPEN MEETING COMPLIANCE**

**Measure 6:** Board and Committee Packets

**Target:** Post to website all Board and Committee Packets within 72 hours of regular meeting or 24 hours for a special meeting
- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standards

**Source:** Website report denoting the day/time of the publishing

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure the compliance with the Brown Act related to adequate public notice for open meetings.

**Audit Preparation:** Administrative Services to provide confirmation of postings via website services

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Measure 7: Public Records Requests Compliance

Target: Response to all public records requests within 10 days of receipt of request

Administrative Services will provide the Records Request files for the audit year. Placed on the top within each file there will be the email denoting the original request (with date of request highlighted) and a second email denoted Mesa Water’s response (with date of response highlighted) to the request.

- 99% or less is below acceptable accuracy standards
- 100% is the acceptable accuracy standards

Source: Confirmation of emails; one from the public requesting the information and the second confirming the information has been sent.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure compliance with the California Public Records Request Act.

Audit Preparation: Administrative Services to provide confirmation of postings via website services.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

ACTION PLAN COMPLIANCE

Measure 8: Review of all action plans associated with the Annual Administration Services Performance Audit.

Target: Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year’s Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether that actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

Source: Performance Audit Action Plan for the previous audit year.

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.
**Purpose:** To ensure Mesa Water is actively progressing towards recommended and agreed upon audit recommendations.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

### CONTINUOUS IMPROVEMENT

**Measure 9:** Review of the overall score from the previous audit year.

**Target:** Measure percent change of the overall department performance score compared to the previous audit year.

The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score

The following is the acceptable accuracy range:

- -5% or lower than previous year is below acceptable standards
- -4% or +4% of previous year is within the acceptable standards
- 5% or higher than previous year or maintained gold status is exceeding acceptable standards

**Source:** Previous year’s performance audit

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To encourage and reward departments based on the continuous improvement philosophy.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.
Performance Audit

Human Resources

EMPLOYEE DEVELOPMENT

Measure 1: Professional Development Participation

Target: Percentage of Employees participating in Tuition/Education/Certification Reimbursement Programs

Percent of Employee Participation = Employees Participating/Total Employees Eligible

The following is the acceptable accuracy range:

- 9% or less is below acceptable standards
- 10% to 15% is within the acceptable standards
- 16% or higher is exceeding acceptable standards

Source: Human Resource Information System

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To gauge Mesa Water employee’s professional development participation.

Audit Preparation: Prepare electronic files for auditor. Count of total eligible FTE’s and count of FTE’s participating in the professional development program.

Strategic Plan: Goal 5 – Attract and retain skilled employees.

Measure 2: Time to Fill

Target: The amount of time that it takes to fill a vacant position.

Time to Fill = Average number of business days elapsed between requisition date and offer acceptance

The following is the acceptable accuracy range:

- 91 days or greater is below acceptable standards
- 90 – 80 days is within the acceptable standards
- 70 days or less is exceeding acceptable standards

Source: NeoGov

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To gauge the efficiency of Mesa Water’s hiring process.
Audit Preparation: Report out of NeoGov for each position hired showing the requisition date and offer acceptance date for the audit year.

Strategic Plan: Goal 6 – Provide outstanding customer service.

EMPLOYEE RECRUITMENT

Measure 3: Job Offer Ratio

Target: The level of job offers rejected compared to the number of job offers made.

Job Offer Ratio = Percent of offers rejected to offers made

The following is the acceptable accuracy range:

- 69% or less is below acceptable standards
- 70% to 74% is within the acceptable standards
- 75% or greater is exceeding acceptable standards

Source: NeoGov

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To measure the quality of the job offers and Mesa Water’s recruitment process.

Audit Preparation: Report out of NeoGov for each position offered and offers rejected for the audit year.

Strategic Plan: Goal 6 – Provide outstanding customer service.

Measure 4: Temporary Staff Utilization

Target: The level of full time temporary employees working at Mesa Water. This metric excludes limited term employees.

Temporary Staff Utilization = Percent of temporary and contract employees to total employees

The following is the acceptable accuracy range:

- 181 days or greater below acceptable standards
- 180 to 90 days is within the acceptable standards
- 90 days or less is exceeding acceptable standards

Source: Human Resource Information System

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To ensure temporary staff are used to fill short-term needs.
Audit Preparation: Prepare electronic files for auditor. Total count of FTE's and total count of temporary/contract employees at the end of the audit year.

Strategic Plan: Goal 5 – Attract and retain skilled employees.

**EMPLOYEE RETENTION**

**Measure 5: Turnover Rate**

**Target:** Monitoring employee voluntary and involuntary movement out of the organization

Turnover Rate = (# employees leaving/employees at start + employees at end)/2

The following is the acceptable accuracy range:

- 9% or greater is below acceptable standards
- 8% to 4% is within the acceptable standards
- 3% or less is exceeding acceptable standards

**Source:** Human Resource Information System

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To measure, by percent, how many employees are leaving Mesa Water Audit Preparation: Prepare electronic files for auditor. Total count of FTE's and count of FTE's that moved out of the organization during the audit year.

**Strategic Plan:** Goal 5 – Attract and retain skilled employees.

**EMPLOYEE ENGAGEMENT**

**Measure 6: Annual Employee Performance Evaluation**

**Target:** All employees receive their annual review by September 30

Annual Review Rate = (number employees receiving their review on time/number of employees)

The following is the acceptable accuracy range:

- 94% or less is below acceptable standards
- 95% to 99% is within the acceptable standards
- 100% is exceeding acceptable standards

**Source:** Human Resource Information System

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.
**Purpose:** To ensure the excellent business processes related to annual employee reviews are part of Mesa Water’s culture and embracing our perpetual agency philosophy.

**Audit Preparation:** Prepare electronic files for auditor. Total count of FTE's and the date that their annual performance evaluation occurred during the audit year.

**Strategic Plan:** Goal 6 – Provide outstanding customer service.

**Measure 7: Annual Employee Engagement Survey**

**Target:** All employees participate in the Annual Employee Survey by August 15

Overall Mesa Water score from the 12 Question Gallup Poll measuring the work environment.

The following is the acceptable accuracy range:

- Below 33rd percentile is below acceptable standards
- 33rd to 66th percentile is within the acceptable standards
- 66th percentile of higher is exceeding acceptable standards

**Source:** Gallup Poll Report

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To understand how engaged Mesa Water employees are at work. Provide insight into employee motivation and productivity.

**Audit Preparation:** Business Administrator to provide documentation from the Gallup organization depicting the overall score for Mesa Water resulting from the annual survey.

**Strategic Plan:** Goal 5 – Attract and retain skilled employees.

**Measure 8: Experience Modification Rate**

**Target:** Metric used to represent a business prior workers comp claims and potential for future injuries. A rate of 1.00 is average for the industry. A rate below 1.0, Mesa Water would be considered safer than most other similar peer agencies.

The following is the acceptable accuracy range:

- 1.00 or greater is below acceptable standards
- 0.99 to 0.80 is within the acceptable standards
- 0.79 of less is exceeding acceptable standards

**Source:** ACWA-JPIA Worker's Comp Program Renewal Notification
**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To gauge the past cost of injuries and future changes of risk

**Audit Preparation:** Business Administrator to provide ACWA-JPIA Worker's Compensation Program Renewal Notification for the audit year.

**Strategic Plan:** Goal 5 – Attract and retain skilled employees.

### ACTION PLAN COMPLIANCE

**Measure 9:** Review of all action plans associated with the Annual Administration Services Performance Audit.

**Target:** Percent of resolved action items and confirmed by signature of Department Manager and General Manager.

The Business Administrator will provide the previous year's Performance Audit Action Plan to the auditor. The Performance Audit Action Plan will list the total number of actions and indicate whether those actions have been resolved. The auditor will determine the percentage of resolved actions.

Percent of Resolved Action Items = Resolved Action Items/Total Action Items

The following is the acceptable accuracy range:

- 79% or less is below acceptable standards
- 80% to 89% is within the acceptable standards
- 90% or higher is exceeding acceptable standards

**Source:** Performance Audit Action Plan for the previous audit year.

**Frequency:** Audited annually based on the year-end results compared to established standards for the audit year.

**Purpose:** To ensure Mesa Water is actively progressing towards recommended and agreed upon audit recommendations.

**Audit Preparation:** Mesa Water's Business Administrator to provide the Performance Audit Action Plan for the previous audit year.

**Strategic Plan:** Goal 3 – Be financially responsible and transparent.

### CONTINUOUS IMPROVEMENT

**Measure 10:** Review of the overall score from the previous audit year.

**Target:** Measure percent change of the overall department performance score compared to the previous audit year.
The Business Administrator will provide the auditor the Performance Audit from the previous year. After the completion of the current year’s audit and associated overall score, the auditor will determine the change in percent compared to the previous year and score accordingly.

Percent Change of Overall Department Score = Percent of Previous Year’s Score – Percent of Current Year’s Score

The following is the acceptable accuracy range:

- 5% or lower than previous year is below acceptable standards
- - 4% or + 4% of previous year is within the acceptable standards
- 5% or higher that previous year or maintained gold status is exceeding acceptable standards

Source: Previous year’s performance audit

Frequency: Audited annually based on the year-end results compared to established standards for the audit year.

Purpose: To encourage and reward departments based on the continuous improvement philosophy.

Audit Preparation: Mesa Water's Business Administrator to provide the Performance Audit for the previous audit year.

Strategic Plan: Goal 3 – Be financially responsible and transparent.

MEMORANDUM

TO: Board of Directors
FROM: Denise Garcia, Administrative Services Manager
DATE: January 14, 2021
SUBJECT: Public Hearing: Directors Compensation and Expense Reimbursement

RECOMMENDATION

a. Conduct public hearing;
b. Review and discuss Ordinance No. 30; and
c. Adopt Ordinance No. 30 – Directors Compensation and Expense Reimbursement.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

At its February 14, 2019 meeting, the Board of Directors (Board) adopted Ordinance No. 29 – Directors Compensation and Expense Reimbursement Superseding Ordinance No. 28, setting the rate in Section 1 to $291 effective July 1, 2019 and adopting all proposed changes.

At its March 12, 2020 meeting, the Board directed staff to schedule a public hearing for the April 9, 2020 Board meeting to address Directors compensation and expense reimbursement.

Prior to the April 9, 2020 public hearing, this item was deferred at the request of the Board President.

At its December 10, 2020 meeting, the Board directed staff to schedule a public hearing for the January 14, 2021 Board meeting to address Directors Compensation and Expense Reimbursement.

BACKGROUND

At the October 31, 2008 Board workshop, the Board directed staff to prepare an ordinance increasing Directors’ fees concurrent with the District’s budget cycle, thus changing from a calendar year to a fiscal year.

In addition, a public hearing must be held prior to the Board taking action to increase Directors compensation. Prior to the date of the public hearing, Mesa Water is required to place an advertisement once a week for two weeks, each published with at least five days intervening between publication dates, in a local newspaper announcing the public hearing. If the Board
approves the ordinance, a minimum of sixty days must elapse prior to the increase becoming effective.

**DISCUSSION**

The current Directors compensation amount of $291 per meeting was approved February 14, 2019 and effective July 1, 2019. The Board reviews the topic of Directors compensation annually.

Staff placed legal advertisements announcing the public hearing in the Daily Pilot on Thursday, December 31, 2020 and Thursday, January 7, 2021. The same notice was posted on the District’s website and kiosk; and at the City of Costa Mesa City Hall.

**LEGAL REVIEW**

Mesa Water’s Legal Counsel has reviewed the draft ordinance and recommends Board approval.

**FINANCIAL IMPACT**

In Fiscal Year 2021, $1,000 is budgeted for Regulatory Compliance/Permits; $385 has been spent to date.

Should the Board approve an increase, the Directors compensation increase and the mandatory payroll related Social Security (FICA), Medicare, and Workers’ Compensation costs have been accounted for in the Fiscal Year 2021 budget and will be placed in the Fiscal Year 2022 Proposed Budget.

ORDINANCE NO. 30

ORDINANCE OF THE
MESA WATER DISTRICT BOARD OF DIRECTORS
REGARDING DIRECTORS COMPENSATION
AND EXPENSE REIMBURSEMENT
SUPERSEDING ORDINANCE NO. 29

WHEREAS, Mesa Water District (Mesa Water) is a county water district organized and operating pursuant to the provisions of the laws of the State of California (State or California); and

WHEREAS, the California Water Code (Water Code) governs compensation of the Mesa Water District Board of Directors (collectively, the “Board” and individually, a “Director”) for each day of service rendered as a Director by request of the Board, together with any expenses incurred in the performance of his or her duties required or authorized by the Board; and

WHEREAS, the Board of Directors has previously adopted Ordinance No. 29 regarding compensation for Directors attendance at Board meetings, days of service at committee meetings, attendance at conferences, seminars, and other water related agencies’ meetings and other activities, as specified by action of the Board, and the Board desires to supersede Ordinance No. 29 by adoption of this Ordinance, including the provisions hereof; and

WHEREAS, notice of the consideration of this Ordinance, and the proposed Director compensation changes set forth herein, has been provided consistent with the applicable requirements of California law; and

WHEREAS, it is the further desire of the Board to provide for reimbursement to Directors for expenses incurred in the performance of his or her duties as required or authorized by the Board.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF DIRECTORS OF MESA WATER DISTRICT AS FOLLOWS:

Section 1: Board of Directors Meetings; Days of Service:

(a) Effective sixty (60) days after the adoption of this Ordinance No. 30, March 15, 2020, the compensation paid to Directors shall be Three Hundred and Five Dollars ($305.00) per day for each day’s attendance at Board meetings, or for each day’s service rendered as a Director by request of, or with the authorization of, the Board as further set forth herein.
(b) Effective as of July 1, 2021, the compensation paid to Directors shall be Three Hundred and Twenty Dollars ($320.00) per day for each day’s attendance at Board meetings, or for each day’s service rendered as a Director by request of, or with the authorization of, the Board as further set forth herein.

Section 2: Meetings/Activities that Constitute Days of Service for the Purpose of Section 1: The following meetings and activities shall constitute a day of service for purposes of Section 1 of this Ordinance:

(a) Committee and Other Agency Meetings: Committee meetings for those Directors assigned, or attending, as applicable, shall include the following:

(i). Engineering & Operations Committee;
(ii). Executive Committee;
(iii). Finance Committee;
(iv). Legislative and Public Affairs Committee;
(v). Other public agency meetings (including regular, adjourned regular and special meetings of the governing bodies of such public agencies as shall be designated and/or authorized by the Board from time to time); and
(vi). Other Mesa Water committees, including, but not limited to, ad hoc committees, as the Board shall designate by Board action from time to time.

(b) Teleconferencing: Participation at any public agency meeting that is covered under Section 2(a) by teleconference, or equivalent means, shall be considered as a day of service for the purpose of this Ordinance.

(c) Conferences and Seminars: Attendance at authorized conferences or seminars as assigned, designated and/or authorized by action of the Board.

(d) Meetings with Agencies, Organizations, and/or Representatives Concerning or Relating to Water, Governmental or Environmental Matters or Issues: Meetings by Director(s) of or with agencies or organizations, and/or representatives of such, in or related to the public water industry or governmental or environmental matters or issues to discuss, review, and/or receive information relating to Mesa Water, Mesa Water’s business or operations, governmental or environmental matters or issues and/or water industry standards, operations, policy matters and/or fiscal issues.
(e) **Other Activities Approved by Action(s) of the Board:** Activities by Director(s) other than as described in Sections 2 (a), (b), (c), or (d) above, as authorized by action(s) of the Board in advance of such activity(ies).

**Section 3: Limitations:**

(a) **Maximum Number of Meetings/Days:** The fee paid to the Directors shall be made for no more than one meeting per each day of service, and the maximum number of days for which any Director may receive compensation under Sections 1 or 2 hereof, in any calendar month shall be ten (10).

(b) **No Duplicate Compensation:** Notwithstanding the foregoing provisions of Sections 1 or 2, any Director that receives compensation from any other entity for attendance and/or participation of any meeting(s), conference(s), seminar(s) or other activity(ies) set out in Sections 1 or 2 shall not be compensated by Mesa Water.

**Section 4: Director Reimbursement(s):** In addition to the compensation described in Section 1, and subject to applicable California law, Directors expenses shall be reimbursed if they are reasonable and necessary to conduct Mesa Water’s business pursuant to provisions of the Mesa Water Director reimbursement policy(ies) as adopted by the Board, as are in effect on the date the expense is incurred.

**Section 5: Authorization (Statutory Requirements):** This Ordinance is adopted pursuant to Water Code Sections 20203 and 30523. To the extent required by law, this Ordinance shall satisfy the requirements of Water Code Sections 20201 and 20202 and California Government Code Section 53232.1.

**Section 6: Effective Date:** This Ordinance No. 30 shall take effect upon adoption hereof, subject to the provisions of Section 1 hereof (Effective Date).

**Section 7: Superseding Prior Ordinance:** This Ordinance No. 30 shall supersede Ordinance No. 29 upon the Effective Date hereof, subject to the provisions of Section 1 hereof.
PASSED AND APPROVED at the regular meeting of the Board of Directors held on the 14th day of January 2021, and adopted by the following roll call vote:

ORDINANCE NO. 2930

ORDINANCE OF THE
MESA WATER DISTRICT BOARD OF DIRECTORS
REGARDING DIRECTORS COMPENSATION
AND EXPENSE REIMBURSEMENT
SUPERSEDING ORDINANCE NO. 2829

WHEREAS, Mesa Water District ("Mesa Water") is a county water district organized and operating pursuant to the provisions of the laws of the State of California ("State" or "California") law; and

WHEREAS, the California Water Code ("Water Code") governs compensation of the Mesa Water District Board of Directors (collectively, the "Board" and individually, a "Director") for each day of service rendered as a Director by request of the Board, together with any expenses incurred in the performance of his or her duties required or authorized by the Board; and

WHEREAS, the Board of Directors has previously adopted Ordinance No. 28-29 regarding compensation for Directors attendance at Board meetings, days of service at committee meetings, attendance at conferences, seminars, and other water related agencies’ meetings and other activities, as specified by action of the Board, and the Board desires to supersede Ordinance No. 28-29 by adoption of this Ordinance, including the provisions hereof; and

WHEREAS, notice of the consideration of this Ordinance, and the proposed Director compensation changes set forth herein, has been provided consistent with the applicable requirements of California law; and

WHEREAS, it is the further desire of the Board to provide for reimbursement to Directors for expenses incurred in the performance of his or her duties as required or authorized by the Board.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF DIRECTORS OF MESA WATER DISTRICT AS FOLLOWS:

Section 1: Board of Directors Meetings; Days of Service:

(a) Effective sixty (60) days after the adoption of this Ordinance No. 30, March 15, 2020, the compensation paid to Directors shall be Two Hundred Ninety-One Three Hundred and Five Dollars ($291305.00) per day for each day's attendance at Board meetings, or for each day's service rendered as a Director by request of, or with the authorization of, the Board as further set forth herein.
(b) Effective as of July 1, 2021, the compensation paid to Directors shall be Three Hundred and Twenty Dollars ($320.00) per day for each day’s attendance at Board meetings, or for each day’s service rendered as a Director by request of, or with the authorization of, the Board as further set forth herein.

Section 2: Meetings/Activities that Constitute Days of Service for the Purpose of Section 1: The following meetings and activities shall constitute a day of service for purposes of Section 1 of this Ordinance:

(a) Committee and Other Agency Meetings: Committee meetings for those Directors assigned, or attending, as applicable, shall include the following:

(i). Engineering & Operations Committee;
(ii). Executive Committee;
(iii). Finance Committee;
(iv). Legislative and Public Affairs Committee;
(v). Other public agency meetings (including regular, adjourned regular and special meetings of the governing bodies of such public agencies as shall be designated and/or authorized by the Board from time to time); and
(vi). Other Mesa Water committees, including, but not limited to, ad hoc committees, as the Board shall designate by Board action from time to time.

(b) Teleconferencing: Participation at any public agency meeting that is covered under Section 2(a) by teleconference, or equivalent means, shall be considered as a day of service for the purpose of this Ordinance.

(c) Conferences and Seminars: Attendance at authorized conferences or seminars as assigned, designated and/or authorized by action of the Board.

(d) Meetings with Agencies, Organizations, and/or Representatives Concerning or Relating to Water, Governmental or Environmental Matters or Issues: Meetings by Director(s) of or with agencies or organizations, and/or representatives of such, in or related to the public water industry or governmental or environmental matters or issues to discuss, review, and/or receive information relating to Mesa Water, Mesa Water’s business or operations, governmental or environmental matters or issues and/or water industry standards, operations, policy matters and/or fiscal issues.
(e) **Other Activities Approved by Action(s) of the Board:** Activities by Director(s) other than as described in Sections 2 (a), (b), (c), or (d) above, as authorized by action(s) of the Board in advance of such activity(ies).

**Section 3: Limitations:**

(a) **Maximum Number of Meetings/Days:** The fee paid to the Directors shall be made for no more than one meeting per each day of service, and the maximum number of days for which any Director may receive compensation under Sections 1 or 2 hereof, in any calendar month shall be ten (10).

(b) **No Duplicate Compensation:** Notwithstanding the foregoing provisions of Sections 1 or 2, any Director that receives compensation from any other entity for attendance and/or participation of any meeting(s), conference(s), seminar(s) or other activity(ies) set out in Sections 1 or 2 shall not be compensated by Mesa Water.

**Section 4: Director Reimbursement(s):** In addition to the compensation described in Section 1, and subject to applicable California law, Directors expenses shall be reimbursed if they are reasonable and necessary to conduct Mesa Water’s business pursuant to provisions of the Mesa Water Director reimbursement policy(ies) as adopted by the Board, as are in effect on the date the expense is incurred.

**Section 5: Authorization (Statutory Requirements):** This Ordinance is adopted pursuant to Water Code Sections 20201 and 20202 and California Government Code Section 53232.1.

**Section 6: Effective Date:** This Ordinance No. 2930 shall take effect upon adoption hereof, subject to the provisions of Section 1 hereof from and after July 1, 2019 (Effective Date).

**Section 7: Superseding Prior Ordinance:** This Ordinance No. 29–30 shall supersede Ordinance No. 29–29 upon the Effective Date hereof, subject to the provisions of Section 1 hereof.

* YTD Cost is trailing YTD Revenue by one month due to the timing of when costs are available.
Goal #3: Be financially responsible and transparent

Actual vs. Budget Capital Spending
(current month actual figures are estimated)
Goal #4: Increase public awareness about Mesa Water® and about water
