MEMORANDUM

TO:        Board of Directors
FROM:      Paul E. Shoenberger, P.E., General Manager
DATE:      February 14, 2019
SUBJECT:   Ducks Unlimited, Inc. Sponsorship

RECOMMENDATION

Approve a sponsorship with Ducks Unlimited, Inc. for Fiscal Year 2019 in the amount of $1,000.

The Executive Committee reviewed this item at its January 10, 2019 meeting and recommends Board approval.

STRATEGIC PLAN

Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

District memberships are reviewed annually by Mesa Water District’s (Mesa Water®) Board of Directors (Board) during the fiscal year budget discussions.

DISCUSSION

Ducks Unlimited, Inc. (DU) is the world’s largest private, nonprofit wetlands and waterfowl conservation organization. Since its inception in 1937, DU has conserved more than 14 million acres of waterfowl habitat throughout North America. Waterfowl conservation is facing important challenges as wetlands and other habitats are being degraded and destroyed across the continent. DU conserves, restores, and manages wetlands and associated habitats by restoring watersheds and grasslands, replanting forests, working with landowners and partners, acquiring land, protecting habitats through conservation easements and management agreements, and utilizing Geographic Information Systems technology. To accomplish its conservation mission, DU works in partnership with private individuals, landowners, agencies, scientific communities and other entities.

FINANCIAL IMPACT

In Fiscal Year 2019, $292,000 is budgeted for the District’s Public Affairs department expenses; $84,000 has been spent to date.

MEMORANDUM

TO: Board of Directors
FROM: Phil Lauri, PE, Assistant General Manager
DATE: February 14, 2019
SUBJECT: Programmable Logic Controllers and Supervisory Computer System Assessment

RECOMMENDATION

Approve a contract with Prime Systems Industrial Automation, Inc. for $199,200 and a 10% contingency for an amount not to exceed $219,120 to furnish, install, and integrate new programmable logic controllers at the Mesa Water Reliability Facility, and authorize execution of the contract.

The Engineering and Operations Committee reviewed this item at its January 15, 2019 meeting and recommends Board approval.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.

PRIOR BOARD ACTION/DISCUSSION

At its June 8, 2017 meeting, the Board of Directors (Board) awarded a contract for a period of five years with two one-year renewable options with an average annual amount of $92,775 to Prime Systems Industrial Automation, Inc. to provide maintenance and support of the Supervisory Control and Data Acquisition System.

At its October 11, 2018 meeting, the Board awarded a contract to TJC and Associates, Inc. in the amount of $70,050 and a contingency of $15,000 for a not to exceed amount of $85,050 to provide a Programmable Logic Controllers and Supervisory Computer System Assessment.

BACKGROUND

TJC and Associates, Inc. (TJCAA) was retained to perform a District-wide assessment of Mesa Water's Programmable Logic Controllers (PLC) and supervisory control systems. A final report is being prepared and will be presented at a future E&O Committee Meeting. The report will include an inventory of all PLC and supervisory control equipment, life cycle status for each, and short-term and long-term replacement recommendations. Life cycle status classifications are as follows:

- **Active**: The most current equipment for sale.
- **Active Mature**: Equipment is for sale and fully supported even though there are newer models available.
- **End of Life**: The manufacturer has announced a date that the equipment will be discontinued.
- **Discontinued**: The equipment is no longer manufactured or supported by the manufacturer.

An early finding from the District-wide PLC assessment found that the Mesa Water Reliability Facility (MWRF) operates using four PLCs that were part of the original treatment plant from 2000.
These include the following PLCs:

- PLC 01 (Well 6)
- PLC 05 (Chemical Building)
- PLC 06 (High Lift Pump Station)
- PLC 07 (Electrical Room)

TJCAA found that these four PLCs, along with the PLC for the TomCo carbon dioxide pH control system, have reached the “Discontinued” life cycle status, and are no longer supported by the manufacturer. TJCAA recommended that these PLCs be replaced immediately. The MWRF has experienced three previous operational failures of this equipment, and replacement parts must be acquired on the resale market. Replacement parts are becoming more difficult to obtain as these products continue to age. The parts available for sale are often refurbished rather than new. Two main replacement approaches were identified for consideration:

**Option 1 – Swing Arm Adaptor.** This approach allows the use of an adaptor module to be placed upon the existing control board. This will provide for new input/output modules to be compatible with the new PLC.

- **Advantages:**
  - Greatly reduces risk of wiring errors
  - Minimizes MWRF downtime
  - Does not require programming changes

- **Challenges**
  - Cannot be implemented until swing-arm kit is available, which is currently scheduled for Q1 2019
  - Will look like a retrofit inside the PLC panels

**Option 2– Complete Control System Replacement.** This approach replaces the entire control system with the new Schneider Electric PLC and Input/Output module. This approach requires rewiring of the existing field wiring modules to the new input/output modules.

- **Advantages:**
  - Clean installation inside the panel
  - Does not need to wait for swing-arm kit
  - Does not require programming changes

- **Challenges**
  - Rewiring requires several days of downtime per PLC panel
  - Risk for wiring errors and start-up challenges

Option 1 was determined as the preferred approach to minimize the risk of wiring errors, downtime, and reduced cost.
DISCUSSION

Staff requested a proposal from Prime Systems Industrial Automation, Inc. (Prime Systems) to furnish, install, and integrate the replacement PLCs per Option 1. As Mesa Water’s SCADA integrator, Prime Systems is familiar with MWRF automation. Prime Systems was competitively selected in 2017 to provide SCADA maintenance and support. Staff recommends that the Board approve a contract with Prime Systems for $199,200 and a 10% contingency for an amount not to exceed $219,120 to furnish, install, and integrate new programmable logic controllers at the MWRF, and authorize execution of the contract.

FINANCIAL IMPACT

In Fiscal Year 2019, $100,000 is budgeted for the MWRF PLC Replacement Study; $26,420 has been spent to date. Additional funds will come from Cash-on-Hand.

MWRF PLC Upgrade Quotation
Revision 1: Scope Clarification

Karyn,

Thank you for this opportunity for Prime Systems Industrial Automation, Inc. to present the following quotation for the PLC Upgrades at the MWRF.

Prime Systems Industrial Automation, Inc. prides itself on being responsive to our customer’s needs. With no formal marketing or sales force, Prime Systems relies completely on customer repeat business and “word of mouth” recommendations. With this marketing strategy, we have continued to grow our customer base and support our existing customers with the high quality work standards they have come to expect from our professional services.

Scope of Work:
This quotation is submitted to summarize the cost associated with the PLC Upgrades at the MWRF.

The Mesa Water Reliability Facility (MWRF) is controlled by Schneider Electric’s Modicon Quantum PLCs (Concept version) and associated I/O. Schneider Electric has released the RED Flag Notice identifying the End of Commercialization for the complete Modicon Quantum PLCs and Quantum I/O.

Schneider Electric defines the product lifecycle and “End of Commercialization” as follow:
“The announcement of the End of Commercialization of a product starts the “phase-out” period, during which the product continues to be available however it is not considered the preferred solution due to the pending obsolescence. Customers are advised to consider modernizing to a more current solution. After the expiration of the phase-out period, products enter the “service” only stage where new products are available until inventory is depleted and on a best effort basis in a repaired or refurbished condition.”

Each PLC can be upgraded independently without affecting the other “non” upgraded PLCs. This will allow shorter downtime intervals during which the PLC upgrades can be accomplished.

There are several options for upgrading the PLC hardware:

1. Build and Test a complete back panel with all new components.
   a. This is the industry standard upgrade path but is more expensive due to all new hardware cost, panel fabrication cost, and testing cost.

2. Perform on-site PLC replacement and rewiring of all I/O modules.
   a. All PLC replacement and wiring is done on-site so this method requires more down time for installation, wiring, and testing.

3. Perform on-site PLC replacement using Schneider Electric conversion module and wiring
   a. This method requires the minimal wiring so downtime and testing time are minimal. The conversion kits are expected to be release by Schneider Electric in January 2019.

Based on our November 28, 2018 meeting, Option 3 (above) has been selected by Mesa Water. The quote below is based on labor and materials to upgrade the five (5) PLCs base on Option 3.

Option 3 consists of installing the new Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O module wiring arms and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software. All PLC code conversion is done automatically using the Unity PLC Programming Software and therefore eliminates potential programming errors.

This estimate does not include replacing and/or upgrading any of the SCADA Software and/or SCADA Computer Hardware which is not require as part of the PLC upgrade.
Metal Frame houses the wiring arm adapters (inside) and the new M580 PLC on top. The Metal Frame is bolted to the back panel where the existing Quantum PLC Rack is currently mounted. Black cables connect the wiring arm adapters (with existing I/O wiring) and the new M580 I/O modules.

Black cables connect the wiring arm adapters (with existing I/O wiring) and the new M580 I/O modules. All cables are manufactured by Schneider Electric which so no I/O wiring is required during installation.

New M580 PLC and I/O are bolted to the top of the Metal Frame.
The project cost is quoted and itemized as follows:

1. **PLC 1 – Well 6 PLC**
   
   Prime Systems Industrial Automation, Inc. will purchase, procure, install, and test the Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O modules and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software.

2. **PLC 5 – Chemical Building PLC**
   
   Prime Systems Industrial Automation, Inc. will purchase, procure, install, and test the Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O modules and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software.

3. **PLC 6 – High Lift Pump Station PLC**
   
   Prime Systems Industrial Automation, Inc. will purchase, procure, install, and test the Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O modules and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software.

4. **PLC 7 – Electric Room PLC**
   
   Prime Systems Industrial Automation, Inc. will purchase, procure, install, and test the Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O modules and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software.

5. **TomCo PLC**
   
   Prime Systems Industrial Automation, Inc. will purchase, procure, install, and test the Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kit. The conversion kit allows for wiring adapters that connect to the existing Quantum I/O modules and the new Schneider Electric I/O modules. This allows the conversion to be done with no I/O wiring and therefore no I/O checkout is required. As part of this conversion, the exiting Quantum Concept PLC Code will be converted to Unity PLC Code using the new Schneider Electric Unity PLC Programming Software.

Cost includes all Sales Tax and S&H Charges.
Monthly progress billings will be provided based on work completed. All invoices are due and payable on net 30-day terms. This quotation is good for 30 days at which time we will requote as required.

**Terms and Conditions:**

1. The MWRF will need to be off during the PLC upgrade installation process. This approximate downtime is dependent on which PLC as follows:
   - PLC 1 2 Days
   - PLC 5 3 Days
   - PLC 6 2 Days
   - PLC 7 3 Days
   - TomCo PLC 1 Days

2. This quotation does not include replacing and/or upgrading any of the SCADA Software and/or SCADA Computer Hardware which is not require as part of the PLC upgrade.

3. This quotation does not include upgrading any of the Operator Interface Terminals (OITs). There are several OITs including the one mounted on the TomCo panel and the one in the CIP area.

4. The Schneider Electric “Quick Wiring Adapter and Swing Arm Assembly” conversion kits for the Quantum PLC line are scheduled to be released in January 2019. In the event these kits are delayed, an alternate PLC Upgrade solution will be implemented.

5. Any clarifications, modifications and/or additions to the Scope of Work as detailed above will be evaluated for cost impact. Additional effort will be quoted separately and must be approved prior to Prime Systems Industrial Automation, Inc. commencing work.

6. This quotation assumes that all work will be done during normal work hours (no weekend, holidays, or after hours).

7. This quotation assumes that all work days are limited to eight (8) hours. Any work in excess of eight (8) hours per day is considered overtime and is not included in this quotation.

8. Prime Systems Industrial Automation, Inc. standard work hours are Monday – Friday 8:00 AM – 5:00 PM. Any work outside these standard work hours is considered overtime/after-hours/weekend/holiday and is billed at the appropriate rate as identified above.

I hope this quotation is responsive to your needs and I look forward to demonstrating our reputation for quality work done in a timely manner. We appreciate the opportunity to work with you on this project and to support you in your automation and control system needs. If you have any questions, please don’t hesitate to call me at our office, 951-656-7139.

MEMORANDUM

TO: Board of Directors
FROM: Phil Lauri, P.E., Assistant General Manager
DATE: February 14, 2019
SUBJECT: I-405 Widening Project

RECOMMENDATION

a. Approve a Utility Agreement with Orange County Transportation Authority for $943,152 and a 10% contingency for an amount not to exceed $1,037,467 for the relocation of the Fairview Pipeline into the I-405 Overcrossing.

b. Approve a contract amendment with Tetra Tech, Inc. for $25,000 for a total amount not to exceed $50,000 for Professional Engineering Services on the I-405 Widening Project.

The Engineering and Operations Committee reviewed this item at its January 15, 2019 meeting and recommends Board approval.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.

PRIOR BOARD ACTION/DISCUSSION

At its July 19, 2016 meeting, the Engineering and Operations (E&O) Committee received a verbal update on the scope of the I-405 Widening Project and its impacts to the Fairview Road crossing relocation.

At its October 13, 2016 meeting, the Board of Directors (Board) approved the execution of a Preliminary Engineering Agreement with the Orange County Transportation Authority (OCTA), and directed staff to proceed with the OCTA-led approach for the Fairview water main relocation.

At its October 12, 2017 meeting, the Board approved the execution of the Utility Agreement with OCTA for the I-405 Crossing at the Santa Ana River Pipeline Relocation Project.

At its October 16, 2018 meeting, the E&O Committee received an update on the I-405 Widening Project and its effect on Mesa Water District (Mesa Water®) facilities.

BACKGROUND

OCTA, in cooperation with The California Department of Transportation (Caltrans) is widening the San Diego Freeway (I-405) between State Route 73 (SR-73) and Interstate 605 (I-605). This $1.9 billion project includes adding one regular lane in each direction from Euclid Street to I-605 and two toll lanes in each direction from SR-73 to I-605. The general purpose lane portion of the project is a Measure M (Orange County’s half-cent transportation sales tax) project and will be funded by a combination of local, state, and federal funds, with the express lanes financed and primarily paid for by those who choose to pay a toll and use the 405 Express Lanes.
On April 27, 2015, the OCTA Board of Directors voted to utilize Measure M funds and maintain local control of the project. OCTA is the responsible agency and the project sponsor with Caltrans assuming ownership at project completion. As OCTA is acting on the behalf of Caltrans, all agreements and forms are Caltrans standards. The I-405 Widening Project is a design-build contract.

**Impacts to Mesa Water:** The I-405 widening project will impact adjacent cities and utility companies including water, power, gas, sanitary sewer, storm drain, and petroleum. OCTA has structured their solicitation for bids to include all wet utilities as part of the widening project and require dry utility relocation by the individual utility companies. Mesa Water has a total of five water mains that cross I-405, connecting the Mesa Water well field to the rest of the distribution system. Based on the current vision for the project, one Mesa Water main is affected as part of the project: the Fairview Road/ I- 405 overcrossing. The Fairview Road crossing is a 12-inch asbestos concrete pipe (ACP) installed in 1966 under the I-405 and east of the existing Fairview Road Bridge. This pipeline is to be relocated into the new overcrossing bridge cell. In a previous design iteration, Mesa Water’s 24-inch concrete mortar lined and coated pipe (CMLC), located over the Santa Ana River from Suburbia Park northeast across I-405, was also affected. However, this facility is not affected in the final design.

**Prior Rights:** In order to receive financial compensation from OCTA’s for utility relocation, an agency must provide proof of prior rights. This includes as-built drawings showing a crossing existed before the I-405 was built, easements, or proof that the line was relocated due to a prior Caltrans project within the last ten years. Mesa Water staff completed an exhaustive search of Mesa Water records, as-built drawings, Caltrans records, and City of Costa Mesa records, and worked with a consultant to complete a title search. This research has determined that prior rights were established for the Santa Ana River water main through an easement in Suburbia Park. However, prior rights could not be proven for the Fairview Road water main as it is believed that the line was installed to support the development of the Mesa Water well field after the construction of the I-405 in Orange County. Mesa Water, along with the City of Seal Beach and West Orange County Water Board, is one of three agencies unable to establish prior rights on the seventeen bridge crossings that will be improved.

**DISCUSSION**

**Proposed Relocation:** The final design by OCTA’s design-builder includes abandoning the existing 12-inch ACP line in place, per CalTrans standards, and constructing a new 12-inch CMLC welded steel pipe within a steel casing in a bridge cell on the west side of the Fairview Road Bridge. Preliminary and final design documents have been reviewed by Mesa Water staff and TetraTech, Inc. (Tetra Tech) who was retained as Mesa Water’s design review consultant. Final design approval was provided in November 2018. **Construction of the Fairview Bridge portion of the project is expected to start early in Calendar Year 2019.** A temporary water line will be constructed as part of the Fairview Bridge Project to provide uninterrupted service for Mesa Water customers. The Fairview Road Bridge construction is expected to be completed by October 2019.

**Cost Estimate:** OC-405 Partners (Design/Builder) provided a cost estimate of $943,152 to OCTA for the proposed Fairview Pipeline relocation work. The cost estimate was reviewed by OCTA and Tetra Tech and found to be valid, and within 1% of TetraTech’s cost estimate. The approved cost
amount will be billed by OCTA to Mesa Water upon completion of construction, anticipated to occur early in Fiscal Year 2020. Staff recommends that the Board approve a Utility Agreement (see Attachment A) with OCTA for relocation of the Fairview pipeline for $943,152 and a 10% contingency for an amount not to exceed $1,037,467.

**Engineering Support Services:** Tetra Tech was retained via a $25,000 Sole Source Procurement in April of 2018 to assist Mesa Water in the technical review of OCTA’s Design/Builder’s design plans. Tetra Tech has done outstanding work ensuring OCTA’s Design/Builder’s design meets Mesa Water’s standards. With the project entering construction, Tetra Tech’s assistance with submittal reviews and request for information will be required.

It is estimated that this effort will be approximately $25,000. Staff recommends that that Board consider amending Tetra Tech’s contract for $25,000 for a total amount not to exceed $50,000.

**LEGAL REVIEW**

Mesa Water’s Legal Counsel has reviewed the subject Utility Agreement and recommends approval of the agreement.

**FINANCIAL IMPACT**

In Fiscal Year 2019, no funds are budgeted for the I-405 Widening Project; $10,457 has been spent to date. Requested funding of $943,152 will be budgeted in Fiscal Year 2020.

**ATTACHMENTS**

Attachment A: Orange County Transportation Authority Utility Agreement
The Orange County Transportation Authority (OCTA) in cooperation with the California Department of Transportation ("Caltrans") is proposing to improve Interstate 405 between State Route 73 and Interstate 605. OCTA and Caltrans have entered into Cooperative Agreement Number 12-697 relating to the Project under which Caltrans will provide Project oversight and upon completion of the Project, Caltrans will continue to own and maintain the Interstate 405.

**Mesa Water District**

Hereinafter referred to as “OWNER”, owns and maintains the following (the “Utility Facilities”):

- 12-inch asbestos cement pipe in 20-inch steel casing east of Fairview Rd crossing the I-405 within the limits of the OCTA Project which requires relocation to accommodate OCTA’s Project.

It is hereby mutually agreed between OCTA and OWNER as follows:

**I. WORK TO BE PERFORMED**

In accordance with Notice to Owner No. UK061127 dated 01/07/2019, OCTA shall relocate OWNER’s Utility Facilities as shown on OCTA’s Design-Build Project plans for the improvement of Interstate 405, EA 12-OH1000 which by this reference are made a part hereof. OWNER hereby acknowledges review of OCTA’s Design Build project plans for work and agrees to the construction in the manner proposed. Deviations from the plan described above initiated by either OCTA or the OWNER, shall be agreed upon by both parties hereto under a Revised Notice to Owner. Such Revised Notices to Owner, approved by OCTA and agreed to/acknowledged by the OWNER, will constitute an approved revision of the plan described above and are hereby made a part hereof. No work under said deviation shall commence prior to written execution by the OWNER of the Revised Notice to Owner. Changes in the scope of the work will require an amendment to this Agreement in addition to the revised Notice to Owner. OWNER shall have the right to inspect the work during construction. Upon completion of the work by OCTA, OWNER agrees to accept ownership and maintenance of the constructed...
facilities and relinquishes to OCTA ownership of the replaced facilities, except in the case of liability determined pursuant to Water Code 7034 or 7035.

II. LIABILITY FOR WORK

The existing facilities are located within the STATE’s right of way under permit and will be relocated at OWNER’s expense under the provisions of Section (673) of the Streets and Highways Code.

III. PERFORMANCE OF WORK

OWNER shall have access to all phases of the relocation work to be performed by OCTA, as described in Section I above, for the purpose of inspection to ensure that the work is in accordance with the specifications contained in the OCTA’s Design Build Contract; however, all questions regarding the work being performed will be directed to OCTA’s Resident Engineer for their evaluation and final disposition.

IV. PAYMENT FOR WORK

The OWNER shall pay its share of the actual cost of said work included in the OCTA’s Design-Build Contract within 45 days after receipt of OCTA’s bill, compiled on the basis of the actual bid price of said contract. The estimated cost to OWNER for the work being performed by OCTA’s Design-Build contractor is $943,152.

In the event actual final relocation costs as established herein are less than the sum of money advanced by OWNER to OCTA, OCTA hereby agrees to refund to OWNER the difference between said actual cost and the sum of money so advanced. In the event that the actual cost of relocation exceeds the amount of money advanced to OCTA, in accordance with the provisions of this Agreement, OWNER hereby agrees to reimburse OCTA said deficient costs upon receipt of an itemized bill as set forth herein.

V. GENERAL CONDITIONS

If OCTA’s project which precipitated this Agreement is canceled or modified so as to eliminate the necessity of work by OWNER, OCTA will notify OWNER in writing and OCTA reserves the right to terminate this Agreement by Amendment. The Amendment shall provide mutually acceptable terms and conditions for terminating the Agreement. MEMORANDUM

TO:       Board of Directors
FROM:     Marwan Khalifa, CPA, MBA, Chief Financial Officer
DATE:     February 14, 2019
SUBJECT:  Fiscal Year 2018 Audit Results and Comprehensive Annual Financial Report

RECOMMENDATION

Approve Mesa Water District’s audited financial statements for the fiscal year ended June 30, 2018 and direct staff to finalize the 2018 Comprehensive Annual Financial Report.

The Finance Committee reviewed this item at its January 17, 2019 meeting and recommends Board approval.

STRATEGIC PLAN

Goal #3: Be financially responsible and transparent.

PRIOR BOARD ACTION/DISCUSSION

At its December 20, 2018 meeting, the Finance Committee received the draft Comprehensive Annual Financial Report. Representatives from White Nelson Diehl Evans LLP (WNDE) presented the results of the audit and a summary of the financial results for the fiscal year ended June 30, 2018.

DISCUSSION

The Fiscal Year (FY) 2018 audit for Mesa Water District (Mesa Water®) has been completed. The Comprehensive Annual Financial Report (CAFR) was prepared in accordance with guidelines established by the Governmental Accounting Standards Board (GASB). WNDE conducted an independent audit of Mesa Water’s financial records in accordance with generally accepted auditing standards and has expressed an unmodified opinion on the District’s financial statements for the fiscal year ended June 30, 2018.

FY 2018 financial results (as of June 30, 2018) are summarized below
- Mesa Water has met or exceeded its Fiscal Year Target goals for Days Cash Ratio and Cash on Hand:
  - Days Cash Ratio was 482 days (Target 408 Days)
  - Cash on Hand was $34.6 million (Target $29.5M)

Statement of Net Position (Balance Sheet)

Highlights include:
- Current assets, including cash, investments and receivables, decreased $8.9 million, primarily due to the funding of the Pension Stabilization Trust account.
- Non-current assets increased $12.2 million, primarily due to continued construction on capital assets.
- Current liabilities decreased $.7 million, primarily due to a decrease in customer advances and deposits.
• Non-current liabilities decreased by $1 million, primarily due to the issuance of the 2017 Certificates of Participation (COPs) and paying off of the 2010 COPs.

Statement of Revenues, Expenses and Changes in Net Position (Income Statement)

For the fiscal year ending June 30, 2018, the Change in Net Position was an increase (income) of $7.2 million.

Highlights include:
• Operating revenues increased from $31.1 million to $35.7 million, due to the increase in water consumption sales of $4.6 million.
• Operating expenses increased by $2.7 million, due to an increased replenishment assessment, and transmission and distribution costs totaling $1.1 million.
• Capital contributions decreased $1.1 million, as a result of reduced new development in the City of Costa Mesa.

FINANCIAL IMPACT

In Fiscal Year 2019, $32,000 is budgeted for Auditing Services; $22,000 has been spent to date.

TO: Board of Directors
FROM: Paul E. Shoenberger, P.E., General Manager
DATE: February 14, 2019
SUBJECT: Public Hearing: Directors Compensation and Expense Reimbursement

RECOMMENDATION

a. Conduct public hearing;
b. Review and discuss Ordinance No. 29; and
c. Adopt Ordinance No. 29 – Directors Compensation and Expense Reimbursement.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water® and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional water issues.

PRIOR BOARD ACTION/DISCUSSION

At its April 13, 2017 meeting, the Board of Directors (Board) adopted Ordinance No. 28 – Directors Compensation and Expense Reimbursement superseding Ordinance No. 25 – increasing the Directors compensation to $264 per meeting effective July 1, 2017 and adopting all proposed changes. Prior to this increase, the Directors compensation was $240 per meeting which was approved by the Board on April 9, 2015 and effective July 1, 2015.

At its March 26, 2018 workshop, the Board deferred action on increasing Directors Compensation.

At its January 10, 2019 meeting, the Board directed staff to schedule a public hearing for the February 14, 2019 Board meeting to address Directors Compensation and Expense Reimbursement.

BACKGROUND

At the October 31, 2008 Board workshop, the Board directed staff to prepare an ordinance increasing Directors’ fees concurrent with the District’s budget cycle, thus changing from a calendar year to a fiscal year. At this time, the Water Code allows an increase of up to $27.

In addition, a public hearing must be held prior to the Board taking action to increase Directors compensation. Prior to the date of the public hearing, Mesa Water is required to place an advertisement once a week for two weeks, each published with at least five days intervening between publication dates, in a local newspaper announcing the public hearing. If the Board approves the ordinance, a minimum of sixty days must elapse prior to the increase becoming effective.
DISCUSSION

The current Directors compensation amount of $264 per meeting was approved April 13, 2017 and effective July 1, 2017. The Board reviews the topic of Directors compensation annually.

Staff placed legal advertisements announcing the public hearing in the Daily Pilot on Thursday, January 31, 2019 and Thursday, February 7, 2019. The same notice was posted on the District’s website and kiosk; and at the City of Costa Mesa City Hall and Adams Street Post Office.

LEGAL REVIEW

Mesa Water’s Legal Counsel has reviewed the draft ordinance and the following is a brief summary of the recommended changes:

- **Page 1:** Added the 3rd paragraph to read “Whereas, notice of the consideration of this Ordinance has been provided consistent with the applicable requirements of California law; and”.
- **Section 1: Board of Directors Meetings; Days of Service:** Changed the compensation paid to members of the Board of Directors from $264.00 to $291.00 per day of service.
- **Section 2 (e): Meetings/Activities that Constitute Days of Service for the Purpose of Section 1:** Removed last sentence of paragraph “shall be considered a day of service for purposes of this Ordinance” as it was similar to the title of Section 2.
- Minor changes were made to the Ordinance for consistency.

FINANCIAL IMPACT

In Fiscal Year 2019, $1,000 is budgeted for Regulatory Compliance/Permits; $200 has been spent to date.

Should the Board approve an increase, the following will be budgeted in Fiscal Year 2020: Directors compensation increase and the mandatory payroll related Social Security (FICA), Medicare, and Workers’ Compensation costs.
