Energy for What's AheadSM

SCE Follows the CCA Code of Conduct (D.12-12-036)

SCE does not lobby or market against CCA formation, but only provides factual information about SCE's programs & rates

Community Choice Aggregation is a customer choice program that permits cities, counties, and Joint Power Authorities to buy and sell electricity on behalf of the utility customers within their jurisdiction and transmit over SCE's lines.

Energy for What's Ahead™

SCE Business Customer Division (BCD) Perspective

- Account Managers and other SCE staff abide by the CPUC-approved Code of Conduct when discussing or educating customers about CCA activity
- SCE supports customers having options and programs available for managing energy costs and increasing sustainability
- There are ten CCAs currently active within SCE's service territory that serve as examples
- Much of the program offerings and support offered by BCD are unaffected by enrollment in Community Choice Aggregation

SCE's Perspective

SCE SUPPORTS CUSTOMER CHOICE

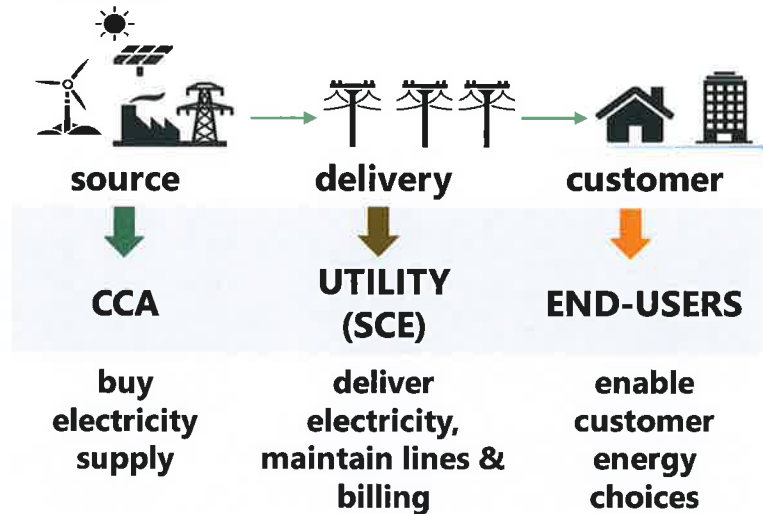

We believe in supporting customer choice as long as:

- 1) **all** customers are treated fairly and customer indifference is maintained, and
- 2) grid reliability and safety are preserved

COMMITMENT TO SERVING OUR CUSTOMERS

SCE is not allowed to profit from the sale of energy; the California Public Utilities Commission regulates SCE's energy procurement activities.

How Community Choice Aggregation Works

CCA generation charges appear as new section on bill:

Your account summary

Previous Balance	\$73.71
Payment Received mm/dd	-\$73.71
Balance forward	\$0.00
Your new charges	\$73.18
Total amount you owe by Mmm dd 'yy	\$73.18
