INFORMATION ITEMS:

15. DIRECTORS’ REPORTS (AB 1234) PER CA GOVERNMENT CODE SECTION 53232.3 (D)

16. OTHER (NO ENCLOSURE)
In compliance with California law and the Americans with Disabilities Act, if you need disability-related modifications or accommodations, including auxiliary aids or services in order to participate in the meeting, or if you need the agenda provided in an alternative format, please call the District Secretary at (949) 631-1205. Notification 48 hours prior to the meeting will enable Mesa Water District (Mesa Water®) to make reasonable arrangements to accommodate your requests.

Members of the public desiring to make verbal comments using a translator to present their comments into English shall be provided reasonable time accommodations that are consistent with California law.

Agenda materials that are public records, which have been distributed to a majority of the Mesa Water Board of Directors (Board), will be available for public inspection at the District Boardroom, 1965 Placentia Avenue, Costa Mesa, CA and on Mesa Water’s website at www.MesaWater.org. If materials are distributed to the Board less than 72 hours prior or during the meeting, the materials will be available at the time of the meeting.

   President DePasquale adjourned the meeting at 5:32 p.m. to an Adjourned Regular Board Meeting
   scheduled for Thursday, August 26, 2021 at 3:30 p.m.

   Approved:

   ____________________________________________
   Marice H. DePasquale, President

   ____________________________________________
   Denise Garcia, District Secretary

   Recording Secretary: Sharon D. Brimer
TO: Board of Directors
FROM: Paul E. Shoenberger, P.E., General Manager
DATE: September 8, 2021
SUBJECT: Attendance at Conferences, Seminars, Meetings, and Events

RECOMMENDATION

In accordance with Ordinance No. 31, adopted April 27, 2021, authorize attendance at conferences, seminars, meetings, and events.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional and statewide water issues.

PRIOR BOARD ACTION

At its June 10, 2021 meeting, the Board of Directors (Board) approved Fiscal Year 2022 attendance at Conferences, Seminars, Meetings, and Events.

DISCUSSION

During the discussion of this item, if any, the Board may choose to delete any item from the list and/or may choose to add additional conferences, seminars, meetings, or events for approval, subject to available budget or additional appropriation.

FINANCIAL IMPACT

None.

ATTACHMENTS

None.

MEMORANDUM

TO: Board of Directors
FROM: Paul E. Shoenberger, P.E., General Manager
DATE: September 8, 2021
SUBJECT: General Legal Counsel Services

RECOMMENDATION

Approve a five-year contract with Atkinson, Andelson, Loya, Ruud & Romo to provide General Legal Counsel Services, and authorize the General Manager to execute the contract.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #4: Increase public awareness about Mesa Water and about water.
Goal #5: Attract and retain skilled employees.
Goal #6: Provide outstanding customer service.
Goal #7: Actively participate in regional and statewide water issues.

PRIOR BOARD ACTION/DISCUSSION

At its June 8, 2017 meeting, the Board of Directors (Board) adopted Resolution No. 1501 – Establishing a Policy for the Selection Process for the Appointment of General Legal Counsel and Independent Auditor.

At its February 11, 2021 meeting, the Board received information that staff was preparing a Request for Proposals for General Legal Counsel Services.

At its April 27, 2021 Committee meeting, the Board directed staff to move forward with conducting in-person interviews for General Legal Counsel Services.

At its May 25, 2021 Committee meeting, the Board directed staff to schedule interviews with the three highest ranked firms (listed here in alphabetical order): Atkinson, Andelson, Loya, Ruud & Romo; Burke, Williams & Sorensen, LLP; and Rutan & Tucker, LLP.

At its July 6, 2021 meeting, the Board conducted interviews with three firms and retained Atkinson, Andelson, Loya, Ruud & Romo to provide General Legal Counsel Services for a five-year term.

DISCUSSION

Mesa Water District (Mesa Water®) is seeking qualified law firms to serve as contracted General Legal Counsel (Counsel). Counsel’s primary role is to provide expert legal advice to the Board and General Manager. Attendance at a variety of meetings will be required, including Board meetings, workshops, etc., as specified.

Mesa Water sent a Request for Proposal (RFP) to seven firms requesting them to submit
proposals to serve as the District’s Counsel.

The following five firms submitted proposals:
- Atkinson, Andelson, Loya, Ruud & Romo
- Burke, Williams & Sorensen, LLP
- JC Law Firm and Meyers Nave
- Kidman Gagen Law, LLP
- Rutan & Tucker, LLP

The Board agreed upon the process as follows:
- Upon receipt of proposals, staff will review and provide the Board with its rankings;
- The Board will provide direction to staff on which firms will be interviewed; and
- The Board will conduct interviews and make a final selection.

Each of the firms provided a qualified proposal based on the scope of work requirements. Staff ranked, in order, Burke, Williams & Sorensen, LLP; Rutan & Tucker, LLP; Atkinson, Andelson, Loya, Ruud & Romo; JC Law Firm and Meyers Nave; and Kidman Gagen Law, LLP as the highest based on their qualifications and experience. The Board directed staff to schedule interviews with the three highest ranked firms.

Interviews with Burke, Williams & Sorensen; Rutan & Tucker; and Atkinson, Andelson, Loya, Ruud & Romo took place on Tuesday, July 6, 2021 after which the Board reviewed the firm’s individual cost proposals and voted to retain Atkinson, Andelson, Loya, Ruud & Romo as the District’s General Legal Counsel for five years.

The selected law firm will be expected to provide a broad range of general legal services, including but not limited to Brown Act compliance, ethics, environmental law, eminent domain, contract law, public works contracts, bidding and construction law, special district operations, legislative and regulatory advocacy, recycled and desalinated water regulation and permitting, operations and procedure of Local Agency Formation Commission (LAFCO), regulation of groundwater (and associated pumping charges), and general litigation. An operational knowledge of the roles and functions of the Association of California Water Agencies (ACWA), California Department of Water Resources (DWR), State Water Project (SWP), Metropolitan Water District of Southern California (MWD), Municipal Water District of Orange County (MWDOC), Orange County Water District (OCWD), State Water Resources Control Board (SWRCB), Santa Ana Regional Water Quality Control Board (RWQCB) and the SWRCB Drinking Water Division is essential to successfully performing the role of District Counsel.

In addition, the successful firm shall possess sufficient resources to ensure that the demands of the District’s legal needs will be met on a timely basis. This relationship will be on a consulting or contractual basis, as opposed to a staff position.

FINANCIAL IMPACT

In Fiscal Year 2022, $400,000 is budgeted for Legal Services; $36,070 has been spent to date.

MEMORANDUM

TO: Board of Directors
FROM: Paul E. Shoenberger, P.E., General Manager
DATE: September 8, 2021
SUBJECT: 20th Anniversary of September 11, 2001

RECOMMENDATION

STRATEGIC PLAN

Goal #4: Increase public awareness about Mesa Water and about water.

DISCUSSION

On September 11, 2001, the peace and security of our nation was shattered by terrorist attacks that killed many innocent people at the World Trade Center towers in New York City, at the United States Pentagon, and in the fields of Shanksville, Pennsylvania. Although the terrorists’ goal was to strike a powerful blow to the hearts of all Americans and tear at the fabric of our nation, arising from the very ashes of that tragedy came a remarkable spirit of unity, compassion and determination that will never be forgotten. We will never forget those who were lost and injured on that day, and those who rose in service during the rescue and recovery effort and in defense of our nation both here at home and abroad.

In observance of this year’s 20th anniversary of the September 11, 2001 attacks on America, the Mesa Water District (Mesa Water®) Board of Directors (Board) hereby adopts proclamations in tribute to those lost and injured on 9/11, and to the many who gave of themselves in service to their communities and to this country in the aftermath of the attacks.

In addition, the Board wishes to recognize the dedicated service of the local courageous firefighters and emergency response personnel who risk their own lives every day to save the lives and property of our community and nation.

MEMORANDUM

TO: Board of Directors
FROM: Celeste Carrillo, Public Affairs Coordinator
DATE: September 8, 2021
SUBJECT: Wilson Street Pipeline Replacement Project Construction Outreach

RECOMMENDATION

Receive the presentation.

STRATEGIC PLAN

Goal #4: Increase public awareness about Mesa Water and about water.
Goal #6: Provide outstanding customer service.

PRIOR BOARD ACTION

At its May 27, 2020 Committee meeting, the Board of Directors (Board) was provided an information item regarding an update on public affairs activities in relation to upcoming projects, in particular construction project communications.

DISCUSSION

Mesa Water District (Mesa Water®) retained Murakawa Communications, Inc., a strategic and project management consultant, to assist the Public Affairs department with communications and outreach efforts for the Capital Improvement Program Renewal (CIPR) project.

Murakawa Communications brings more than 20 years of experience in strategic communications and project management. The firm specializes in public participation for major public works projects in the architecture, engineering and construction industry, specifically focusing on water, transportation and community planning.

In August 2021, in an effort managed by the Public Affairs department with support from Murakawa Communications, outreach began for the Wilson Street Pipeline Replacement Project. Construction is scheduled for completion in Spring 2022 and consists of replacing the underground steel pipeline on Wilson Street from the Newport Boulevard intersection to the Harbor Boulevard intersection in Costa Mesa.

Outreach has included direct communication with impacted customers along the project alignment including residents, businesses and key stakeholders – including, but not limited to, the Orange County Transportation Authority and City of Costa Mesa. As part of the communication outreach efforts, staff has provided the District’s customers and stakeholders with notices, fact sheets, FAQs, web copy and presentations.

FINANCIAL IMPACT

In Fiscal Year 2022, $590,920 is budgeted for Public Affairs Support Services; $44,125 has been spent to date.

DATE: September 8, 2021
SUBJECT: Mesa Water Notify

RECOMMENDATION

Receive the presentation.

STRATEGIC PLAN

Goal #4: Increase public awareness about Mesa Water and about water.
Goal #6: Provide outstanding customer service.

PRIOR BOARD ACTION/DISCUSSION

None.

BACKGROUND

In 2019, after a competitive search, Mesa Water District (Mesa Water®) retained Sprypoint to provide support and advisory consultant services for Microsoft Great Plains Financial System and Cogsdale Customer Information System (Cogsdale). Sprypoint has provided the District with excellent support service in regards to these two platforms, as well as with Invoice Cloud.

DISCUSSION

SpryPoint assists utility companies and organizations to improve customer service and operations through business automation. In addition, SpryPoint offers a customer relationship management software that integrates directly with Cogsdale. The SpryEngage Customer Experience Platform was developed to help utility companies design and manage a custom engagement strategy and to optimize the customer experience.

The capabilities of the SpryEngage software include:

- Integration with Invoice Cloud;
- Integration with Cogsdale;
- Message customers using text, email, and voice message;
- Relationship management that target messages to Mesa Water engagement program participants;
- Google Maps/GIS for spatial management;
- Define and create Tags for customer segmentation;
- SpryForms to allow customers to sign up for programs and services thereby starting a business process; and
- Reporting/Analytics.

SpryPoint has customized a customer notification system for the District – Mesa Water Notify – to provide timely and effective service notifications and outreach communications to Mesa Water
customers. During a major incident or news event, the system allows alert messages to be sent out by staff via text, email and recorded voice message. Mesa Water customers will be automatically registered in the notification database with the option to opt out.

The new system benefits the District’s customer services and operations efforts by improving business practices and keeping a transparent and open dialogue with customers.

The notification system has been tested and staff has been trained on how to use the system. Outreach about the new user-friendly system will begin in September. A demonstration on how Mesa Water Notify works in real-time will be provided at the September 8, 2021 meeting.

Goal #6: Provide outstanding customer service.

PRIOR BOARD ACTION/DISCUSSION

None.

DISCUSSION

The Association of California Water Agencies and Save Our Water recently conducted a statewide survey on water efficiency/conservation attitudes and behaviors. Two of the key themes that came out of the research were:

1. Highlight specific infrastructure project investments being funded today that will protect the state from future droughts. Residents are willing to make behavioral and physical changes to conserve and be more efficient, but they want more than policy changes. They want to know you are investing in concrete fixes for the future of water.
2. Reinforce the message that actions today will help future generations, our children and grandchildren.

In conjunction with this latest research, and in light of the recent “drought emergency” declared by Governor Gavin Newsom for most of California, staff has prepared updated messaging to address dry conditions and water supply, to be used in communications as needed with Mesa Water District (Mesa Water®) customers, in government relations and advocacy, and for any other business needs. The 2021 messaging will:

• Underscore the forward-thinking and continuous investments in Mesa Water’s and Orange County’s water supplies that ensure reliability for Mesa Water customers;
• Inform customers that 100% of the water we provide comes from local water supplies and that we are not dependent on imported water supplies from the Metropolitan Water District of Southern California, which are vulnerable to drought;
• Highlight that Mesa Water is Orange County’s most-efficient water agency; and
• Educate about the ways Mesa Water customers can use water wisely.
FINANCIAL IMPACT

In Fiscal Year 2022, $590,920 is budgeted for Public Affairs Support Services; $44,125 has been spent to date.

ATTACHMENTS

Attachment A: Draft Messaging for 2021 Dry Conditions & Water Supply
Research / Key Themes & Findings

- ACWA and Save Our Water recently conducted a statewide survey on water efficiency/conservation attitudes and behaviors.

- Two of the key themes that came out of the research were:
  - Highlight specific infrastructure project investments being funded today that will protect the state from future droughts. Residents are willing to make behavioral and physical changes to conserve and be more efficient, but they want more than policy changes. They want to know you are investing in concrete fixes for the future of water. They are saying, “OK, I will do my part, but what are you doing for me?”
  - Reinforce the message that actions today will help future generations, our children and grandchildren.

- Some of the key findings were:
  - 87% are concerned about drought conditions in California and 72% say California’s current drought has had an impact on their water usage.
  - 85% support investing in modernizing and upgrading water infrastructure to ensure local, safe, reliable, high-quality water now and in future years.
  - 54% are willing to make behavior changes to be more water efficient.
  - Only 31% believe their local water agency does manage water resources well.

California Drought Emergency Proclamation & Metropolitan Water District Supply Alert

- Governor Newsom has declared a “drought emergency” for most of California, citing above-average temperatures and dry conditions during wildfire season.

- The Governor’s order did not include mandatory conservation restrictions, but asked Californians to voluntarily conserve by 15%.

- Metropolitan Water District of Southern California recently issued a supply alert calling on residents to voluntarily reduce their water consumption in order to preserve the region’s storage reserves (imported water).

Research-Based Recommendations

- Underscore the forward-thinking and continuous investments in Mesa Water’s and Orange County’s water supplies that ensure reliability for Mesa Water customers – from GWRS to the MWRF – and potential for desal, as well as current well and pipeline projects.

- Inform Mesa Water customers that 100% of the water we provide comes from local water supplies and that we are not dependent on imported water supplies from the Metropolitan Water District of Southern California, which are vulnerable to drought.

- Highlight that Mesa Water is Orange County’s most-efficient water agency.

- Educate about the ways Mesa Water customers can use water wisely and that most customers are using more water outdoors than indoors, so that is where they can use water more efficiently and make an impact.
Key Messages

No Drought Impact on Mesa Water & Orange County
- A drought emergency has not been declared for Orange County, as we have the benefit of regional long-range water resource planning and world-class water technology innovations.

- Mesa Water will stay apprised of water supply conditions and keep customers informed if the situation changes. Furthermore, Mesa Water’s abundant, local, reliable groundwater supplies and the Mesa Water Reliability Facility ensure we have sufficient water supplies for the community.

Investments In Infrastructure Increase Water Supply Reliability
- Mesa Water is investing in its abundant, local, reliable groundwater supplies with the construction of two new wells that will increase our local groundwater production capacity.

- Production from Mesa Water’s unique amber water supply from the Mesa Water Reliability Facility – and adding new wells – will help safeguard our ability to deliver local and reliable water for decades to come.

- It is imperative that Southern California water agencies join together to advocate for increased investment in water supply projects.

Abundant, Local, Reliable Water Supply
- Because of forward-thinking and investments made over the past couple of decades, our local groundwater supplies are recharged through the Groundwater Replenishment System managed by the Orange County Water District, which provides 77% of the water served by Mesa Water. The Mesa Water Reliability Facility provides the rest.

- Our local groundwater supplies are in great condition.

Managing Water Resources Well
- Mesa Water is among Orange County’s most-efficient water agencies.
  - Lowest expenditures per capita of any agency in Orange County.

- Mesa Water receives no tax dollars.

- Mesa Water has no unfunded pension liabilities.

Mesa Water is Committed to Wise Water Use
- We have experienced many periods of dry conditions, which will continue to occur more frequently. While Mesa Water’s customers have voluntarily made wise water use a way of life, which helps us prepare for weather extremes, the Governor has asked all Californians to voluntarily reduce water use by 15% during this dry season.

- During the 2016 statewide drought emergency, thanks to Mesa Water customers’ efficient water use, we exceeded our 20 percent conservation mandate from the State without raising rates and without negative impacts to our financial standing.
MEMORANDUM

TO: Board of Directors
FROM: Andrew D. Wiesner, P.E., Principal Engineer
DATE: September 8, 2021
SUBJECT: Sodium Hypochlorite Supply Outlook

RECOMMENDATION

This item is provided for discussion.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.

PRIOR BOARD ACTION/DISCUSSION

None.

BACKGROUND

Mesa Water District (Mesa Water®) produces local, clean, potable water for its ratepayers using seven groundwater wells permitted by the State Water Resources Control Board. Although water produced by Mesa Water’s local groundwater wells meets all regulatory health-based standards straight from the source, disinfection is a permit requirement and Mesa Water uses 12.5% strength sodium hypochlorite solution to help meet this requirement.

The United States is currently experiencing a shortage of chlorine. A constrained supply chain during 2021 was expected due to a significant increase in swimming pool installations and purchases during the summer of 2020 coupled with a fire that shut down a major chlorine disinfectant factory in Louisiana. The facility primarily produced stable chlorine tablets used in outdoor swimming pools, but the shortage has caused many pool owners to switch to hypochlorite. In addition, an equipment failure at a chlor-alkali plant in West Virginia in June 2021 led Westlake Chemical to declare force majeure on its supply contracts. Additionally, an electrical failure at the company’s hypochlorite facility in Washington in mid-June 2021 has caused further supply disruptions. The electrical failure was corrected within a few days.

In a letter to Chemical Sector Partners dated June 30, 2021, the United States Environmental Protection Agency (EPA) confirmed that some water and wastewater systems, including a few in California, were facing claims of force majeure on their hypochlorite supply contracts from chemical suppliers. The letter requested that chemical suppliers prioritize water and wastewater system customers and communicate any potential supply chain disruptions with them as soon as possible.

DISCUSSION

Mesa Water has not had issues with hypochlorite delivery from its suppliers and it is safe to assume that the events described above did not have an impact on chemical supply to the District. However, these events do illustrate the fragility of the current chlorine market in the United States and the need to be prepared for future disruptions. Mesa Water’s supply of hypochlorite is protected in two ways - proactive contracting by Operations staff and newly available legal tools.
Hypochlorite Supply Contracts
On July 1, 2020, Mesa Water signed a five-year hypochlorite supply contract with Pacific Star Chemical (Pacific Star). Two provisions in the contract provide incentives for prioritizing Mesa Water as a customer. First, there is no provision for termination of the contract by Pacific Star. Force majeure claims result in an extension of time for delivery of chemicals, but not for defaulting on the delivery altogether.

Secondly, there are liquidated damages in the amount of $500 per delivery per day after a delay of three days of any scheduled delivery. Force majeure claims do not relieve Pacific Star from paying liquidated damages in the event they are unable to deliver chemicals to Mesa Water. These two contractual provisions incentivize Pacific Star to prioritize Mesa Water in the event of a hypochlorite supply shortage. Similar contractual protections are written into all of Mesa Water’s chemical supply contracts.

Legal Tools
If Mesa Water foresees a shortage of hypochlorite from Pacific Star and is unable to find alternate suppliers, there are legal avenues available to get assistance with procurement.

The Association of California Water Agencies (ACWA) has advised first contacting local emergency management authorities. Requests can also be elevated to the state level if necessary.

As a public water system, Mesa Water is also able to use the federal Safe Drinking Water Act and the Defense Production Act to make first priority orders with suppliers. The United States EPA offers guidance on how to use these laws, which both begin with an application to the EPA.

FINANCIAL IMPACT

There is no financial impact for the discussion of this matter.

ATTACHMENTS

Attachment A: United States Environmental Protection Agency Letter
Dear Chemical Sector Partners:

Ensuring that drinking water and wastewater services are fully operational is critical to protecting our nation’s public health and environment, as well as maintaining a functioning economy. I would like to request that chemical manufacturers and suppliers prioritize drinking water and wastewater systems as customers of critical water-treatment chemicals, such as gaseous chlorine, sodium hypochlorite and calcium hypochlorite.

This request is a result of concerning challenges that some water systems have recently experienced in procuring gaseous chlorine, sodium hypochlorite and calcium hypochlorite. Several water utilities across multiple states – California, Idaho, Illinois, Indiana, New York, Oregon and Washington – have received *force majeure* notifications, even reducing chlorine allocations in some cases, from suppliers due to supply shortages across the industry. While drinking water and wastewater disinfection accounts for less than 5 percent of all chlorine consumed in the United States, this usage is vital to ensuring the health and well-being of our citizens and businesses.

If drinking water systems cannot obtain a sufficient and reliable supply of gaseous chlorine, sodium hypochlorite and calcium hypochlorite, they will be unable continue to provide safe drinking water to their communities. Similarly, if wastewater systems lack adequate chlorine supplies, they will be unable to disinfect treated wastewater prior to discharge to surface waters, potentially leading to an increase in the concentration of pathogens in the surface water. A loss of drinking water or wastewater services, even for short durations, would have cascading impacts on hospitals, manufacturing, government facilities, private offices and restaurants – essentially all of the critical services necessary to sustain a community.

By prioritizing delivery of chlorine and other critical water treatment chemicals to drinking water and wastewater systems and the retail vendors that sell chlorine to these systems, you can help to ensure the uninterrupted supply of safe drinking water and treatment of wastewater across the nation.

I also request that we maintain open lines of communication between the water and chemical sectors so that we can collectively maintain situational awareness of threats to the water treatment chemical supply chain. This awareness is particularly important as we enter what is forecast to be an active hurricane season with the potential to impact chemical manufacturers in states along the Gulf and Atlantic coasts.
The chemical sector is a key partner in the treatment of water and, therefore, in the protection of public health and the environment. My U.S. Environmental Protection Agency colleagues and I are committed to working with you to support our nation’s public health and economic viability.

Please do not hesitate to contact me, or your staff may contact Jennifer McLain, director of the Office of Ground Water and Drinking Water, at mclain.jennifer@epa.gov or (202) 564-4029.

Sincerely yours,

Michael S. Regan
TO: Board of Directors
FROM: Andrew D. Wiesner, P.E., Principal Engineer
DATE: September 8, 2021
SUBJECT: SCADA Control Room and Wet Lab Upgrade Project Temporary Administration Building Installation

RECOMMENDATION

Amend Leed Electric, Inc.’s on-call contract for an additional $162,661 and a 10% contingency of $16,266 for a total contract amount not to exceed $278,927 for connection of electrical service and SCADA systems to the temporary facility at the Mesa Water Reliability Facility.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #4: Increase public awareness about Mesa Water and about water.

PRIOR BOARD ACTION/DISCUSSION

At its March 12, 2020 meeting, the Board of Directors (Board) approved the Capital Improvement Program Renewal (CIPR) which includes the design and construction of the Supervisory Control and Data Acquisition (SCADA) Control Room and Wet Lab Upgrade Project, Mesa Water Reliability Facility (MWRF) parking improvements, and the development and implementation of the Education Center Program.

At its August 25, 2020 meeting the Board approved the SCADA Control Room and Wet Lab Upgrade Project design concept with changes to the air conditioning and reflective roof, and authorized staff to proceed with design development activities.

BACKGROUND

Construction of the MWRF SCADA Control Room and Wet Lab Upgrade Project is scheduled to begin in November 2021. This project involves partial demolition and renovation of the existing MWRF administration building, including the control room, lab, and SCADA server room. All water supply and treatment functions at the MWRF must remain in operation during construction, necessitating the migration of operations equipment to a temporary facility located on site for the duration of the construction period. The temporary facility will also need to house construction related staff, namely an office for the Construction Manager and conference room for construction meetings.

The most critical task of the temporary facility installation is the physical move of the SCADA server into the temporary facility. This is expected to take eight hours. During this time, the MWRF will be shut down and the clear wells will remain in service, but not be visible in SCADA. It is imperative that the temporary facility is accurately set up and connected to minimize potential challenges in connecting and bringing the SCADA server back online once moved to the temporary facility.
DISCUSSION

Power to the temporary facility will be provided by connecting to an existing on-site power source and installing a transformer and distribution panel near the temporary facility. Additional work includes fiber connection from the plant to the server in the temporary facility, connection of all temporary facility sub-panels, and miscellaneous reconnections in the administration building electrical room. It is critical that these connections be made accurately to minimize delays in bringing the SCADA server online once relocated to the temporary facility.

As the preferred on-call electrical contractor, Leed Electric, Inc. has the requisite experience to perform the aforementioned work, a history of reliable, high-quality work with Mesa Water, and extensive knowledge of the MWRF’s electrical and SCADA systems.

Staff recommends that the Board amend the on-call contract with Leed Electric, Inc. for $162,661 and a 10% contingency of $16,266 for a total contract amount not to exceed $278,927 for connection of electrical service and SCADA systems to the temporary facility at the MWRF.

FINANCIAL IMPACT

In Fiscal Year 2022, $100,000 is budgeted for Leed Electric’s on-call contract; no funds have been spent to date in this fiscal year.

RECOMMENDATION

Discuss and take action as the Board desires.

STRATEGIC PLAN

Goal #1: Provide a safe, abundant, and reliable water supply.
Goal #2: Practice perpetual infrastructure renewal and improvement.
Goal #3: Be financially responsible and transparent.
Goal #6: Provide outstanding customer service.

PRIOR BOARD ACTION/DISCUSSION

At its February 23, 2021 Committee meeting, the Board of Directors (Board) directed staff to form a Captive Insurance Company (Captive) to include hiring consultants and to fund the Captive with an amount of $30MM from reserves and retaining $10MM in working capital.

At its June 22, 2021 Committee meeting, the Board approved contracts with Strategic Risk Solutions, Kirton McConkie Law Firm, and Bickmore Actuarial to continue preparation of forming the Captive Insurance Company.

At its August 24, 2021 Committee meeting, the Board directed staff to agendize, at a future meeting, a recommendation regarding the composition of the Board of Directors for the captive insurance company.

DISCUSSION

The Board directed staff to agendize for discussion an update and status of Captive Insurance at the September 8, 2021 meeting.

FINANCIAL IMPACT
