## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

**Project Title:** Pipeline Testing Program

**File No.:** MC 2141

**Description:** Implement Resolution No. 1525 Replacement of Assets. **Status:** Three (3) miles of AC pipe constructed in 1956 were selected for non-destructive wall thickness measurement in January 2019. The report was received in February 2019. Five (5) AC pipe samples were sent to the testing lab in May 2019, and the wall thickness measurement report was received in June 2019. With more data collected from AC pipe samples, a proposed update of Resolution No. 1442 Replacement of Assets was approved by the Board in October 2019. Staff developed a process for classifying pipeline breaks and provided a class to the Distribution crews in November 2019. Four (4) AC pipe samples collected during valve replacements were sent for EDS testing in January 2020. Lab reports were received in March 2020 and evaluation of the lab results was received in June 2020. MWDOC performed approximately forty (40) miles of leak detection and found one (1) suspected pipeline leak. Staff performed a follow up leak detection and could not replicate the suspected leak. Thirteen (13) AC pipe samples collected by staff during valve replacements and break responses were sent for wall thickness measurement, EDS testing, and remaining useful life estimates. Wall thickness lab reports and useful life estimate report were received in February 2021. MWDOC staff performed thirty (30) miles of leak detection for main lines and service laterals in January 2021. A report of their findings found no mainline leaks. Thirty (30) additional miles of leak detection was received in March 2021. No mainline leaks were reported. Fourteen (14) samples of AC Pipe were collected as part of valve and hydrant replacements and were shipped to the lab for wall thickness measurements in January 2022. The report was received in April 2022 and no pipeline replacements were recommended. Leak detection for ninety (90) miles of main line started in April 2022. The report was received in June 2022. No suspected mainline leaks were reported. AC Pipe and samples collected by the contractor as part of the Wilson Street Pipeline Replacement were shipped to the lab for wall thickness measurements in April 2022. The report was received in July 2022. No pipeline replacements were recommended in the report. Preliminary findings of a relationship between AC pipeline wall hardness and type of break are being evaluated. 16 AC pipe samples were collected during routine valve and hydrant replacements and two samples were collected during a mainline break. The samples were picked up by the lab for AC wall thickness measurements in December 2022. The results were received in February 2023. The Pipeline Integrity Program consultant reviewed the wall thickness results and did not recommend any pipeline replacements. 22 AC pipe samples collected during routine valve and hydrant replacements were sent for wall thickness measurements in April 2023. Wall thickness reports were received in June and July 2023. The Pipeline Integrity Program Consultant reviewed the wall thickness reports and performed remaining useful life analyses. The useful life report was received in July 2023. No near-term pipeline replacements were recommended in the report. The Pipeline Integrity Program Consultant reviewed mainline break data from FY22 and FY23 and recommended condition assessment for pipeline groups with break thresholds that exceed the standards of Resolution No. 1525. These recommendations were presented at the September 27, 2023 Board meeting. Staff is

## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

negotiating a proposal for condition assessment which may be agendized at a future Board meeting. Staff is also planning for 100 miles of leak detection to be performed by MWDOC staff. (4/15/2024)

**Project Title:** Chandler & Croddy Wells and Pipeline Project

**File No.:** M18-113

**Description:** Design, documentation, permitting, and construction of two (2) new wells located on Chandler Avenue and Croddy Way in the City of Santa Ana and the distribution pipeline connecting the wells to Mesa Water's supply system.

**Status:** The Chandler and Croddy Wells and Pipeline Project Team includes Design Engineer TetraTech, Construction Manager Butier Engineering, and Community Outreach Consultant Murakawa & Associates. The project has four (4) phases, with a construction bid package for each phase. The status of each phase is below.

**Phase 1 Demolition:** Demolition of the existing office buildings at the well site properties was awarded to Standard Demolition in July 2020 and was completed in October 2020.

**Phase 2 Well Drilling:** Well Drilling was awarded to Zim Industries dba Bakersfield Well & Pump in August 2020. Permits for well drilling were received from Orange County Heath Care Agency (OCHCA) in October 2020. Mobilization for drilling at the Croddy Well site started in October 2020. Sound walls were constructed at both sites. Croddy Well drilling is complete. Test pumping produced 4,000 gallons per minute. Water quality depth and well blend sample results indicate good water quality. Chandler Well pilot hole was drilled and samples for the aquifer and the groundwater indicate good water quality to 970 feet. The pilot hole reaming and casing installation was completed in May 2021. Test pumping of Chandler Well produced 4,320 gallons per minute. Water quality depth samples and well blend samples indicate good water quality.

**Phase 3 Well Equipping:** A contract award to Gateway Pacific was approved at the February 2021 Board meeting. A project team kickoff meeting was held in March 2021. The team has identified the long lead time items and is in the submittal process for these items. Mobilization occurred in May 2021. Underground work and concrete forming are complete at both sites. This was facilitated by the receipt of the long-awaited SCE permit for the Chandler Well site in March 2022. Well pedestals have been completed and approved by OCHCA. Permits from AQMD for the backup generators and ammonia scrubbers have been issued. Long lead-time items affected by the global supply chain continue to arrive. Most of the instrumentation has been received. Chemical tanks were received and set in the chemical facilities in February 2022. Backup diesel generators were received and set in March 2022. The well pumps passed witness testing in February 2022. The electrical buildings, well buildings, and site perimeter walls at both sites are constructed and equipment is installed. The chemical skids were delivered in July 2022. The Croddy Well Variable Frequency Drive (VFD) was delivered in June 2023 and placed into storage. A Reduced Voltage Solid State (RVSS) motor starter was procured and is installed at the Croddy Well. The well sites have SCE power. The well pump at the Croddy Well was installed in March 2023 and the Chandler Well pump was installed in April 2023. The Chandler Well VFD arrived in April 2023 and was installed. The draft permit amendment from DDW was

## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

received in April 2023. Croddy Well went into operation in May 2023 and is producing 4,000 gallons per minute of high-quality drinking water. Rework of the Chandler Well VFD was completed in September 2023. Replacement of two modules in the Chandler Well control system PLC was completed in September 2023. The Chandler Well monochloramine analyzer failed its system checkout and was replaced by the manufacturer in October 2023. The Chandler Well discharge flow meter had erratic readings and the project team resolved the issue in November 2023. The Chandler Well is producing drinking water; however, the seven-day acceptance test is on hold pending resolution of noise and vibration from the well motor. A vibration test was conducted on December 14, 2023; the vibration was found to be out of specification. A follow-up vibration analysis was conducted on January 9, 2024. The follow up test pointed to the motor as the issue. The motor was taken to a local motor shop in January 2024 for further analysis and repair, and no issues were found. The motor was reinstalled on February 6, 2024. The VFD supplier assessed the VFD as the potential cause of the vibration on February 20, 2024, and recommended enabling the flux vector control on the VFD to allow the VFD to use feedback from the motor to output precise motor speed and torque control. A VFD field technician implemented this recommendation in March 2024, and the vibration improved significantly. The followup vibration test was conducted on April 4, 2024. The Chandler Well remains operational as staff waits for the final vibration test report.

Phase 4 Pipeline: The Board awarded a construction contract with Ferreira Construction at the April 2021 Committee meeting. Notice to Proceed with the potable water transmission pipeline construction was issued in June 2021. A preconstruction meeting was held in June 2021. The team identified the long lead time items and is in the submittal process. Encroachment permits were obtained by the contractor from the City of Santa Ana in August 2021. The contractor potholed the pipeline alignment to confirm the location and depths to buried utilities in the area. A minor realignment of the Chandler Pipeline was designed to avoid an unexpected natural gas pipeline and services. Materials for the Croddy Storm Drain arrived in December 2021, and construction of the Croddy Storm Drain was completed in March 2022. Poor soil conditions were encountered during the Croddy Storm Drain construction, and the project team evaluated alternate shoring and dewatering methods for the Croddy Pipeline. Materials for the 30" and 16" transmission lines arrived in January and February 2022. Construction of the 30" transmission pipeline on MacArthur Boulevard began in March 2022, and is progressing from Croddy Way to the tie into the distribution system at MacArthur and Hyland. Two new valves were installed at MacArthur and Hyland in October 2022 to facilitate the tie in. Construction of the 30" pipeline in Croddy Way began at the Croddy Well No. 14 site in July 2022 and is complete. Construction of the 16" pipeline between the Chandler and Croddy Wells began in September 2022 at the Croddy Well and is proceeding on Chandler Avenue toward Chandler Well. Pressure testing and disinfection of the 30" pipeline was completed in April 2023, and the 30" pipeline from Croddy Well to the distribution system is ready for service. Construction of the 16" pipeline between Chandler and Croddy Wells was completed in May 2023. Pressure testing, disinfection, and bacteriological testing of the 16" pipeline was completed in June 2023. (4/15/2024)

## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

**Project Title:** SCADA Control Room and Wet Labs Upgrade Project

**File No.:** M21-250A1

**Description:** Relocation of the SCADA Control Room and laboratory, including the addition of an education center.

**Status:** In November 2019, the Board directed staff to proceed with Design Concept #2 of the Mesa Water Reliability Facility (MWRF) Education Center. Mesa Water obtained a cost proposal from IBI Group. The Scope of Work also incorporates the design of two MWRF spare parts storage buildings (located at the MWRF) and wells spare parts storage building (located at Well No. 7) as part of the design services. The Board approved this item at the April 2020 Board meeting. The pre-design kick-off meeting was held in April 2020. The conceptual design was reviewed in June 2020 and preliminary cost estimate discussed in July 2020. At the August 2020 Committee meeting, the Mesa Water Education Center building concept was approved by the Board. Additionally, a contract was awarded to Mad Systems for the exhibit design. In September 2020, a final design kick-off meeting was held with the architect and exhibit design teams. In October 2020, the Mesa Water team toured the Albert Robles Center for Water Recycling and Environmental Learning with Mad Systems. In October 2020, the design team held a site visit at the MWRF to discuss landscaping and courtyard concepts. A preliminary landscaping concept was received in November 2020. The 50% design submittal was received in December 2020. The comments on the submittal were discussed during progress meetings in January 2021 and February 2021. 50% Construction Documents were submitted in March 2021. The project team held detailed design meetings regarding storage buildings, the IT Server Room, and transitional plans to keep the MWRF in service during construction. In June 2021, staff reviewed and selected finishes for the Education Center and Administration Building. Transitional plans to keep the MWRF in service were finalized and the delivery and setup of the temporary facilities began in October 2021. Mesa Water received proposals for construction management services for the project in early June 2021. A construction manager was selected in June 2021, and they have begun reviewing construction documents. The draft 100% Construction Documents were submitted in July 2021. Staff reviewed the submittal and provided comments. The revised Construction Documents were submitted in September 2021. The Request for Bid for construction was sent out in September 2021 and bids were received in October 2021. Three (3) bids were received from qualified contractors, and the Board awarded a contract to Hamel Contracting, Inc. at the October 2021 Committee meeting. The kick-off meeting was held in November 2021. The contractor has substantially completed the Administration Building, Education Center Building, Southwest Storage Building, Northwest Storage Building, and Well Parts Storage Building. Currently, staff is working with the City of Costa Mesa on finalizing the permit for installation of parking lights and the Front Entryway. The contractor is working to complete all punch list items for the project.

(4/15/2024)

## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

**Project Title:** 1951 Cohort Pipeline Replacement Project

**File No.:** M21-220A

**Description:** Design, documentation, and permitting for replacement of 3.5 miles of pipeline in Hamilton Street, Pomona Avenue, Wallace Avenue, Anaheim Avenue, and Maple Avenue.

**Status:** Scope of Work and Request for Proposal for providing Construction Management (CM) Services for the Wilson Street and 1951 Cohort Pipeline Replacement Projects sent out to On-Call Consultants in November 2020. Five (5) proposals were received in December 2020. CDM Smith was selected to provide the CM Services. Scope of Work and Request for Proposal for providing design services for the 1951 Cohort Pipeline Replacement Project was sent out to on-call consultants in December 2020. Tetra Tech was selected to prepare the design. The project kick-off meeting was held in February 2021. The Consultant delivered Technical Memorandum No. 1 – Alignment Options and Recommendations and the Preliminary Design Report in July 2021. Mesa Water staff has reviewed Technical Memorandum No. 1 and the Preliminary Design Report. The project's 90% Design Submittal was submitted in August 2023. The construction of the 1951 Cohort Pipeline Replacement Project has been moved to the years following the CIPR Program. (4/15/2024)

**Project Title:** Reservoirs 1 and 2 Pump Station Upgrades Project

**File No.:** M21-210B2

**Description:** The Reservoir Upgrades Project has several components to increase the efficiency and reliability of Reservoirs 1 and 2: Chemical storage and feed systems (sodium hypochlorite and aqueous ammonia) to help reduce nitrification issues in the distribution system; Pump replacement and conversion of drivers from gas engines to electrical motors; Upgrades to reservoir electrical service through SCE; Installation of diesel generator systems to power the reservoirs in the event of an emergency; Miscellaneous system rehabilitation and upgrades including electrical gear replacement, pipeline rehabilitation, pipeline modifications, and instrument replacement based on the results of site visits and related analyses; and Slurry Dewatering Pit upgrades located at the Reservoir 1 site.

**Status:** Following the approval of the recommendations of the Water, Power, and Supply Chain Reliability Assessment, Mesa Water developed a design Scope of Work for the Reservoirs 1 and 2 Upgrades Project. A proposal was solicited from a CIPR on-call design consultant and the project's Preliminary and Final Design was kicked off in May 2021. A site visit for the project was held with the consultant in May 2021. The project team performed a 3-D scan of Reservoirs 1 and 2 in June 2021. The consultant delivered a draft version of Technical Memorandum No.1 – Reservoir 1 Site Master Plan and the draft Permit Plan in July 2021. Following Mesa Water's review of TM1 and the Permit Plan, the consultant began work on the Preliminary Design Report. The Preliminary Design Report was delivered in November 2021 and the Preliminary Design Report Workshop was held in September 2021. In March 2023, the Final Bid documents and cost estimate were received and reviewed by staff. After receiving approval for the project's reduced scope, the project team began modifying the Bid

## MESA WATER AND OTHER AGENCY PROJECTS STATUS REPORT

April 2024

Documents. The revised Bid Documents were received in August 2023. The Request for Bids was released to the prequalified contractors in August 2023. A jobwalk was conducted in August 2023 and attended by five prequalified contractors. The bid opening was held in October 2023. Four bids were received., A recommendation for contract time extension negotiation and award was approved in November 2023. The contract time extension negotiation to accommodate equipment lead times is complete and Notice to Proceed was provided in January 2024. A preconstruction meeting and a site walk with the contractor team were held in February 2024. The contractor has begun submitting shop drawings for the long lead time items. The construction team has been meeting regularly to find ways to reduce the Reservoir 2 down time and potentially compress the schedule. (4/15/2024)

**Project Title:** Excavation Slurry Dewatering Pit Project

**File No.:** M21-250D

**Description:** Design, documentation, and permitting for a dewatering process that will be constructed in Mesa Water's Operations Yard to provide dewatering for the hydrovac excavation slurry.

**Status:** A Scope of Work and Request for Quote for the design, documentation, and permitting for the Excavation Slurry Dewatering Pit Project was prepared and sent to on-call design consultants in October 2020. Following the selection of an on-call design consultant, the kick-off meeting and site visit were held in November 2020. The draft memo was submitted for review in February 2021. Staff have provided direction and the design of the Dewatering Pit is included in the Scope of Work for the Reservoirs 1 and 2 Pump Station Upgrades Project. The Final Technical Memorandum was submitted for review in June 2021. The Dewatering Pit will be constructed as part of the Reservoirs 1 and 2 Pump Station Upgrades Project. (4/14/2024)

**Project Title:** Operational IT Infrastructure Security Project

**File No.:** M21-250F

**Description:** The project will align the Operational IT infrastructure and management model with Mesa Water enterprise IT system standards and CISA recommendations.

**Status:** The project kick-off meeting was held in May 2021. The new servers, UPS, and isolated network have been installed and configured. The project team has procured the required switches and equipment; configured access accounts; and installed software updates. The new SCADA servers at the MWRF were completed in April 2024 and are currently being tested in parallel with the existing SCADA servers. The new SCADA servers located at the Emergency Operations Center are scheduled to be completed in April 2024. Both new SCADA servers will be fully tested in parallel with the existing SCADA servers prior to decommissioning the existing SCADA servers. (4/16/24)

# Water Quality Call Report

## March 2024

**Date:** 3/5/2024  
**Source:** Email  
**Address:** 2160-P College Avenue  
**Description:** Customer inquired about chlorine odor.  
**Outcome:** Staff responded to the customer's email and let them know that the odor is likely from the temporary free chlorine conversion. Staff provided the customer a link to the Frequently Asked Questions (FAQs) document regarding this topic.

**Date:** 3/6/2024  
**Source:** Phone  
**Address:** 1380 Village Way, E104  
**Description:** Customer reported chlorine odor in the water.  
**Outcome:** Staff explained to the customer that the chlorine odor is from the temporary free chlorine conversion and assured them the water meets all drinking water standards.

**Date:** 3/7/2024  
**Source:** Phone  
**Address:** N/A  
**Description:** Customer is interested in a whole house water treatment system to remove hardness and would like suggestions from Mesa Water.  
**Outcome:** Staff explained to the customer that Mesa Water does not make recommendations for home water treatment systems. Staff assured the customer that their water meets all drinking water standards and that the level of water hardness in the water system is not harmful. The customer still expressed a desire to purchase a softener system, so staff provided the link to the state's website on residential treatment systems.

**Date:** 3/7/2024  
**Source:** Phone/Visit  
**Address:** 1687 Gisler Avenue  
**Description:** The customer reported having blue water in the bathtub.  
**Outcome:** Staff took a sample at a nearby sample station as well as the hot and cold tap from the customer's home. Staff did not observe color in any of the water samples collected. The customer noted that she has a sensitivity to changes in light and color.

**Date:** 3/7/2024  
**Source:** Phone/Visit  
**Address:** 2982 Lumiere Drive  
**Description:** Customer reported having a brown growth or ring on the fixtures throughout the home.

**Outcome:** Staff took water samples from a nearby sample station and the customer's home. Both the hot and cold water were sampled, and no discoloration or odor was present. Staff explained to the customer that the brown growth or ring on and around the faucets are mineral deposits naturally present in the water. Staff then assured the customer that their water meets all drinking water standards.

**Date:** 3/11/2024  
**Source:** Phone  
**Address:** West Side of Costa Mesa  
**Description:** Customer reported chlorine odor in the water.

**Outcome:** Staff explained to the customer that the chlorine odor is from the temporary free chlorine conversion and assured them the water meets all drinking water standards. The customer was interested in seeing the FAQs regarding this topic and staff provided a link to the document.

**Date:** 3/11/2024  
**Source:** Phone  
**Address:** 1671 Tustin Avenue  
**Description:** Customer reported chlorine odor in the water and claimed her hair was turning green.

**Outcome:** Staff explained to the customer that the chlorine odor is from the temporary free chlorine conversion and assured her the water meets all drinking water standards. The customer was very understanding and commented how much she liked the water prior to the temporary free chlorine conversion.

**Date:** 3/14/2024  
**Source:** Phone  
**Address:** N/A  
**Description:** Customer inquired about fluoridation and asked how often we take fluoridated water from Metropolitan Water District of Southern California.

**Outcome:** Staff explained to the customer that Mesa Water does not fluoridate the water, but the groundwater has naturally occurring fluoride in it. Staff explained to the customer that Mesa Water is 100% locally sourced from the District's groundwater wells and would only import water from Metropolitan Water District in the event of an emergency.

**Date:** 3/20/2024  
**Source:** Phone  
**Address:** 3106 Mace Avenue  
**Description:** Customer reported chlorine odor in the water starting March 5, 2024.  
**Outcome:** Staff explained to the customer that the chlorine odor is from the temporary free chlorine conversion and assured them the water meets all drinking water standards.

**Date:** 3/31/2024  
**Source:** Phone/Visit  
**Address:** 371 Wake Forest Road  
**Description:** Customer reported having cloudy water following the distribution mainline valve projects a few days earlier.  
**Outcome:** Staff sampled water from a hydrant near the customer's home and confirmed that it was cloudy. Staff then flushed the hydrant to alleviate the entrained air. The customer was assured that the entrained air is not harmful.

## MEMORANDUM

TO: Board of Directors  
FROM: Marwan Khalifa, CPA, MBA, Chief Financial Officer  
DATE: April 24, 2024  
SUBJECT: Monthly Financial Reports

---

### RECOMMENDATION

Receive and file the Monthly Financial Reports.

### STRATEGIC PLAN

Goal #3: Be financially responsible and transparent.

### PRIOR BOARD ACTION/DISCUSSION

None.

### DISCUSSION

The attached Treasurer's status reports reflect the performance of Mesa Water's cash and investment accounts.

### FINANCIAL IMPACT

None.

### ATTACHMENTS

Attachment A: Monthly Treasurer's Status Report on Investments as of 3/31/24  
Attachment B: Monthly Treasurer's Status Report on Investments as of 2/29/24

**Mesa Water District**  
**Quarterly Treasurer's Report on Investments**  
**As of 03/31/2024**

Investments are in compliance with the Investment Policy adopted as Resolution 1575 of the Mesa Water District Board of Directors. The liquidity of investments will meet cash flow needs for the next six months except under unforeseen catastrophic circumstances.

INVESTMENTS	Maturity Date	Days to Maturity	Yield to Maturity @ Cost	Cost Value	% of Portfolio	Policy % Limit	Market Value	Interest Year to Date	Notes

1 Month | 3.06 % 3 Month | 10.68 % 1 YEAR | 32.11 %

**Sources of Market Value Valuation - Account Statements**

LAIF, OCIP & US Bank

**Local Agency Investment Fund (LAIF)**

District LAIF includes the funds designated for advances; construction, customer deposits, working capital cash and monies to pay COP principal/interest payments.

**Weighted Average Return | 1.11 %**

Benchmark: 3 Month Treasury Bill - March | 5.47 %

**Weighted Average Maturity | 1.2 Years**

Days to Maturity | 452

**Notes**

1. The interest or yield shown is for the current month net of fees.
2. The interest rate (Yield to Maturity @Cost) shown is the guaranteed annual interest rate for the term of the investment.
3. The rate shown is the Earnings Credit Rate. These earnings are applied against bank service charges; no actual monies are received.
4. LAIF general ledger carrying value reflects market value (unrealized gains/losses) only at fiscal year end. LAIF only provides the market value participation factor quarterly. The December \*Fair Value Factor is 0.993543131. The yield earned on the Treasurer's Reports does not reflect change in fair market value.
5. US Bank Custody Account general ledger carrying value reflects market value (unrealized gains/losses). The Yield earned does not reflect change in fair market value.
6. Orange County Investment Pool March 2024 | Net Asset Value is 1.00.

\*LAIF 03/31/2024 Fair Value Factor not available at reporting deadline; previous factor reported.

\*OCIP 03/31/2024 Monthly Yield not available at reporting deadline; previous rate reported.

I certify that this report reflects the cash and investments of Mesa Water District and is in conformity with the Government Code requirements and the District Investment Policy/Guidelines in effect at the time of the investment.

*Marwan Khalifa*

**California | Local Government Investment Pools**

**(1) Local Agency Investment Fund | LAIF** includes funds designated for allocation of working capital cash to reserves, working capital cash and advances for construction. LAIF market value on Monthly Treasurer's Status Report on Investments for months between quarters is the dollar amount invested times the fair market value Fair Value factor of prior quarter end. The general ledger LAIF carrying value reflects market value (unrealized gains and losses) only at fiscal year end. LAIF provides the Fair Value factor as of March 31, June 30, September 30 and December 31 each year. LAIF market value on this report is based on the December 2023 Fair Value Factor of 0.993543131.

**(2) Orange County Treasurer's Investment Pool | OCIP** - The 2024 Net Asset Value Factor is estimated at 1.00, and the interest rate is the Monthly Net Yield.

**Weighted Average Return**

Mesa Water® Funds | 1.09 %  
Benchmark: 3 Month Treasury Bill - February 2024 | 5.44 %

**Weighted Average Maturity**

Years | 1.27 Days | 463

\*OCIP Monthly Net Yield not available at reporting deadline; January data is published.

## MEMORANDUM

TO: Board of Directors  
FROM: Kaitlyn Norris, Public Affairs Specialist  
DATE: April 24, 2024  
SUBJECT: Outreach Update

---

### RECOMMENDATION

Receive and file the Outreach Update.

### STRATEGIC PLAN

Goal #4: Increase favorable opinion of Mesa Water.

### PRIOR BOARD ACTION/DISCUSSION

This item is provided monthly at a Mesa Water District (Mesa Water®) Board of Directors meeting.

### DISCUSSION

Mesa Water's outreach program aims to connect the District with its constituents in order to achieve Goal #4 of the Board of Directors' (Board) Strategic Plan. Outreach activities are also designed to achieve the Strategic Plan goals related to customer service and/or regional water issues involvement by educating and informing the District's constituents about Mesa Water, water issues, and water in general. Mesa Water's constituents include external audiences, such as customers, community members, elected officials, industry colleagues, media, water districts and special districts – as well as internal audiences, such as staff, retirees and Board members.

### Upcoming Fiscal Year 2024 Events

1. **Institute for Conservation Research and Education (ICRE) Student Poster Symposium** – Mesa Water District Boardroom – Wednesday, May 29, 2024, 5:30 – 7:30 p.m.

The benefits of Mesa Water's outreach program include:

- Informing constituents about Southern California's perpetual drought, the historical drought facing California, and the importance of developing local and cost-effective sources of safe, reliable water for Mesa Water's service area and the region at large;
- Educating constituents about the importance of water and water stewardship, in order to sustain Southern California's population, quality of life, business, and economy;
- Educating constituents about Mesa Water's stewardship of ratepayer funds and financial responsibility to fund, invest in, and save for the current and future provision of safe and reliable water for the District's service area;
- Informing constituents of the District's infrastructure improvements to ensure water quality and water reliability for its service area;

- Learning from constituents and evolving as a well-informed Board of Directors;
- Promoting water use efficiency to Mesa Water's customers and community members to help them save water, money, and the environment;
- Ensuring, for public health and safety reasons, that Mesa Water customers and community members identify the District as their water provider and as the source of information about water in emergency situations;
- Supporting Mesa Water's service area as an actively involved participant in programs that provide added value and benefits to the community;
- Informing the media of Mesa Water's activities that benefit the District's customers and community;
- Empowering Mesa Water's Board and staff with information that will help them provide the best possible service to the District's customers and community members; and,
- Strengthening Mesa Water's industry relations to provide opportunities for improving the District's business and operations -- including the areas of financial and human resources strength, infrastructure and technological innovation, and setting/supporting policies that have a positive impact on Mesa Water's service area -- so that the District can continue to provide safe, high-quality, reliable, and affordable water to its customers.

#### FINANCIAL IMPACT

In Fiscal Year 2024, \$906,450 is budgeted for Support Services; \$603,585 has been spent to date.

#### ATTACHMENTS

None.

*Dedicated to  
Satisfying our Community's  
Water Needs*

## MEMORANDUM

TO: Board of Directors  
FROM: Hester "Fritz" Petropoulos, Water Use Efficiency and Education Coordinator  
DATE: April 24, 2024  
SUBJECT: One-Year Plan for Mesa Water Education Center

---

### RECOMMENDATION

Receive the presentation.

### STRATEGIC PLAN

Goal #4: Increase favorable opinion of Mesa Water.  
Goal #6: Provide excellent customer service.  
Goal #7: Actively participate in regional and statewide water issues.

### PRIOR BOARD ACTION/DISCUSSION

At its March 12, 2020 meeting, the Board of Directors (Board) approved the Capital Improvement Program Renewal (CIPR) project, which included the design and construction of the Supervisory Control and Data Acquisition (SCADA) Control Room and Wet Lab Upgrade Project, the Mesa Water Reliability Facility parking improvements, and the development of the Mesa Water Education Center (MWEC). Mesa Water®

### BACKGROUND

For over a decade, the Mesa Water District (Mesa Water®) Board has discussed the creation of an education center. The Mesa Water Education Center is in its final stages of construction and is set to open in 2024. Mesa Water collaborated with Mad Systems, a provider of customized interactive experiences, to create interactive exhibits, geared toward fifth grade Next Generation Science Standards (NGSS) and science, technology, engineering and mathematics (STEM) curricula. Mesa Water also retained Brain Builders, a STEM education partner, to create the accompanying curriculum, provide docents, and coordinate field trips for Newport Mesa Unified School District (NMUSD) fifth grade classes. Water Use Efficiency and Education Coordinator Hester "Fritz" Petropoulos will manage the MWEC and oversee field trips, tours and events at the Center, outreach, further curricula development, and maintenance of the exhibits and the water-wise gardens onsite.

### DISCUSSION

In the first year of the MWEC opening, Mesa Water staff have set an objective to host 50 fieldtrips and tours. Those who live, work or attend school in the Mesa Water service area will be the primary target audience. This includes fifth grade students in NMUSD, Costa Mesa private schools, and local homeschool groups. Costa Mesa community, civic and business groups will also receive invitations to tour the MWEC. Additionally, Mesa Water will invite local and regional water industry agencies and leaders, as well as elected officials, to visit the Center.

Fifth graders were selected as the target school audience because California's Next Generation Science Standards require water education as part of the fifth-grade science curriculum. Offering field trips to students who are already learning about water will appeal to teachers to bring their classes to the Center and reinforce the classroom water education through Mesa Water's interactive exhibits.

Because of the large volume of water vocabulary that students will encounter during a visit to the MWEC, participating teachers will be provided with a water BINGO game to play in class to prepare students for their field trip and to generate excitement. By providing this pre-visit activity, students and teachers will be better prepared to understand and remember the content featured in the exhibits.

School tours will accommodate one fifth grade class at a time. The class will receive an overview of what they will see and experience before being divided into small groups to begin exploring the exhibits and filling out their curriculum books. Docents will be on hand to provide explanations for exhibits that may require more detailed information, and act as support and provide additional insight as students have unstructured time to interact with the exhibits and the gardens. Water Use Efficiency and Education Coordinator Hester "Fritz" Petropoulos will act as a floater, providing support and troubleshooting for students, docents and the classroom teacher. Adult chaperones from the visiting class will provide additional supervision.

At the end of the tour, Ms. Petropoulos will lead the group in creating a miniature aquifer model. This hands-on STEM activity engages the senses and allows students to create a tangible demonstration of their learning that can be taken home and shared with household members.

Smaller community groups or small school groups will have a similar tour experience led by Ms. Petropoulos, without the additional docents and with the option of the hands-on aquifer activity.

Because this is a new program, the Water Use Efficiency and Education Coordinator will apply best practices to evaluate the tours' success. The teaching performance assessment design standard of *Plan, Teach, Reflect, Apply* will be used to evaluate tours, in an effort to improve the programs for visitors. During the first year, the tour structure and content will be adjusted as needed to fine-tune the format of the visit and the messaging to the community. Additionally, all visitors will fill out a survey about their experience so that resulting data can be evaluated and improvement strategies can align with feedback from visitors.

### FINANCIAL IMPACT

Funds for operational and staffing costs, giveaway items (color-changing pencils, branded lanyards and water bottles) and curriculum pieces (comic workbooks, vocabulary bingo and miniature aquifer kits) will be included in the Fiscal Year 2025 budget.

### ATTACHMENTS

Attachment A: California Fifth Grade Next Generation Science Standards Relating to Water

## 5.Earth's Systems

### 5.Earth's Systems

Students who demonstrate understanding can:

- 5-ESS2-1. Develop a model using an example to describe ways the geosphere, biosphere, hydrosphere, and/or atmosphere interact.** [Clarification Statement: Examples could include the influence of the ocean on ecosystems, landform shape, and climate; the influence of the atmosphere on landforms and ecosystems through weather and climate; and the influence of mountain ranges on winds and clouds in the atmosphere. The geosphere, hydrosphere, atmosphere, and biosphere are each a system.] [Assessment Boundary: Assessment is limited to the interactions of two systems at a time.]
- 5-ESS2-2. Describe and graph the amounts and percentages of water and fresh water in various reservoirs to provide evidence about the distribution of water on Earth.** [Assessment Boundary: Assessment is limited to oceans, lakes, rivers, glaciers, ground water, and polar ice caps, and does not include the atmosphere.]
- 5-ESS3-1. Obtain and combine information about ways individual communities use science ideas to protect the Earth's resources and environment.**

The performance expectations above were developed using the following elements from the NRC document *A Framework for K-12 Science Education*.

Science and Engineering Practices	Disciplinary Core Ideas	Crosscutting Concepts
<p><b>Developing and Using Models</b> Modeling in 3–5 builds on K–2 experiences and progresses to building and revising simple models and using models to represent events and design solutions.</p> <ul style="list-style-type: none"> <li>Develop a model using an example to describe a scientific principle. (5-ESS2-1)</li> </ul> <p><b>Using Mathematics and Computational Thinking</b> Mathematical and computational thinking in 3–5 builds on K–2 experiences and progresses to extending quantitative measurements to a variety of physical properties and using computation and mathematics to analyze data and compare alternative design solutions.</p> <ul style="list-style-type: none"> <li>Describe and graph quantities such as area and volume to address scientific questions. (5-ESS2-2)</li> </ul> <p><b>Obtaining, Evaluating, and Communicating Information</b> Obtaining, evaluating, and communicating information in 3–5 builds on K–2 experiences and progresses to evaluating the merit and accuracy of ideas and methods.</p> <ul style="list-style-type: none"> <li>Obtain and combine information from books and/or other reliable media to explain phenomena or solutions to a design problem. (5-ESS3-1)</li> </ul>	<p><b>ESS2.A: Earth Materials and Systems</b></p> <ul style="list-style-type: none"> <li>Earth's major systems are the geosphere (solid and molten rock, soil, and sediments), the hydrosphere (water and ice), the atmosphere (air), and the biosphere (living things, including humans). These systems interact in multiple ways to affect Earth's surface materials and processes. The ocean supports a variety of ecosystems and organisms, shapes landforms, and influences climate. Winds and clouds in the atmosphere interact with the landforms to determine patterns of weather. (5-ESS2-1)</li> </ul> <p><b>ESS2.C: The Roles of Water in Earth's Surface Processes</b></p> <ul style="list-style-type: none"> <li>Nearly all of Earth's available water is in the ocean. Most fresh water is in glaciers or underground; only a tiny fraction is in streams, lakes, wetlands, and the atmosphere. (5-ESS2-2)</li> </ul> <p><b>ESS3.C: Human Impacts on Earth Systems</b></p> <ul style="list-style-type: none"> <li>Human activities in agriculture, industry, and everyday life have had major effects on the land, vegetation, streams, ocean, air, and even outer space. But individuals and communities are doing things to help protect Earth's resources and environments. (5-ESS3-1)</li> </ul>	<p><b>Scale, Proportion, and Quantity</b></p> <ul style="list-style-type: none"> <li>Standard units are used to measure and describe physical quantities such as weight, and volume. ## MEMORANDUM

TO: Board of Directors  
FROM: Andrew D. Wiesner, P.E., District Engineer  
DATE: April 24, 2024  
SUBJECT: Reservoirs 1 and 2 Pump Station Upgrades Project Quarterly Update

---

### RECOMMENDATION

Receive the presentation.

### STRATEGIC PLAN

Goal #1: Provide an abundant, local, reliable and safe water supply.  
Goal #2: Perpetually renew and improve our infrastructure.

### PRIOR BOARD ACTION

At its March 23, 2021 Committee meeting, the Board of Directors (Board) approved the proposed recommendations for the Water Supply, Energy, and Supply Chain Reliability Assessment as identified in the Executive Summary and Technical Memorandums 1, 2, and 3, and directed staff to implement them as part of the Capital Improvement Program Renewal (CIPR).

At its October 26, 2021 Committee meeting, the Board received a presentation regarding the Reservoirs 1 and 2 Pump Station Upgrades Project.

At its June 28, 2023 meeting, the Board approved the reduction of scope for the Reservoirs 1 and 2 Pump Station Upgrades Project to remove the Reservoir 2 Pump Station conversion from natural gas engine driven pumps to electrically driven pumps.

At its November 8, 2023 meeting, the Board awarded a contract to Pacific Hydrotech Corporation for \$14,764,900 and a 10% contingency of \$1,476,490 for a total amount not to exceed \$16,241,390 for the construction of the Reservoirs 1 and 2 Pump Station Upgrades Project, directed staff to negotiate a contract end date, and authorized execution of the contract.

### BACKGROUND

Mesa Water District (Mesa Water®) delivers abundant, local, reliable and safe potable water to its ratepayers using nine groundwater wells and two storage reservoirs, each with a pump station. Constant pressure in the distribution system is supplied by the groundwater well pumps, with the reservoirs and associated pump stations serving to balance flow and pressure with demand. The reservoirs also provide a total of 28 million gallons of storage that can be used during peak demands, maintenance events, or firefighting. However, water quality issues have limited the amount of water that can be reliably stored.

The current reservoir pump stations utilize natural gas engines to drive the main pumps and electric motors for the smaller jockey pumps that manage low flow requirements. These gas engines are near the end of their useful life and require replacement. In 2020, a Water Supply, Energy, and Supply Chain Reliability Assessment was completed which recommended replacing the gas engines with electric motors and diesel generator back-up power. The recommendation

was based on the standardization of pump drive and backup technologies with the clear wells.

Additionally, real-time chemical management was recommended at Reservoirs 1 and 2 to increase the usable storage volume. In 2017, Mesa Water executed a project to design new chemical management systems for each reservoir. Construction of these systems has been incorporated into the Reservoirs 1 and 2 Pump Station Upgrades Project.

The purpose of the Reservoirs 1 and 2 Pump Station Upgrades Project is to improve overall system reliability and streamline operations and maintenance. The following components were included in the scope of work for the project:

- Replacement of natural gas engine driven pumps with electric motor driven pumps at Reservoir 1
- Replacement of propane backup systems with standby diesel generators at Reservoir 1
- Demolition of hydro turbines at Reservoir 1
- Comprehensive rehabilitation of pumping systems piping, valves and instrumentation at Reservoir 1
- Replacement of electrical gear to support new electrical systems at Reservoir 1
- Upgrade of Southern California Edison (SCE) services for both reservoir sites
- Upgrade of selected structures and maintenance facilities
- Replacement of existing slurry dewatering pit at Reservoir 1
- Incorporation of new chemical facilities at both reservoirs

## DISCUSSION

In November 2023, the Board awarded a contract to Pacific Hydrotech Corporation (Pacific Hydrotech) for the construction of the Reservoirs 1 and 2 Pump Station Upgrades Project and directed staff to negotiate a contract end date that accounted for the procurement of long lead-time items, such as the diesel engine generators. Staff completed the contract end date negotiations and settled on an overall contract duration of 850 calendar days with an early milestone of 700 calendar days to complete all work at Reservoir 1. The construction contract was fully executed in January 2024. Since execution of the contract, the project team has been reviewing submittals for long lead-time items. Currently, Pacific Hydrotech plans to mobilize to Reservoir 2 in June 2024 and Reservoir 1 in October 2024.

## FINANCIAL IMPACT

The Reservoirs 1 and 2 Pump Station Upgrades Project is scheduled to be constructed from Fiscal Year 2024 to Fiscal Year 2026. A summary of the project's construction phase planned monthly expenditures versus actual monthly expenditures is shown in Figure 1.

**Figure 1. Planned Monthly Expenditures vs. Actual Monthly Expenditures**

\$19,500,000 is budgeted for the Reservoirs 1 and 2 Pump Station Upgrades Project; \$1,816,000 has been spent to date.

	<u>Project Estimate</u> <u>Amounts</u>	<u>Project Cost</u> <u>Amounts</u>
Project Estimate	\$19,500,000	
Original Contracts		\$18,504,000
Change Orders		\$ 0
Requested Funding		\$ 0
Revised Contracts		<u>\$18,504,000</u>
Actual Spent to Date		\$ 1,816,000
Revised Project Estimate	\$19,500,000

**MEMORANDUM**

TO: Board of Directors  
FROM: Andrew D. Wiesner, P.E., District Engineer  
DATE: April 24, 2024  
SUBJECT: Pipeline Integrity Program

**RECOMMENDATION**

Receive the presentation.

**STRATEGIC PLAN**

- Goal #1: Provide an abundant, local, reliable, and safe water supply.
- Goal #2: Perpetually renew and improve our infrastructure.
- Goal #3: Be financially responsible and transparent.

**PRIOR BOARD ACTION/DISCUSSION**

At its October 10, 2019 meeting, the Board of Directors (Board) adopted Resolution No. 1525 Regarding the Replacement of Assets including Pipeline and Well Rehabilitation Superseding Resolution No. 1442.

At its September 28, 2021 Committee meeting, the Board received an update presentation on the Pipeline Integrity Program.

At its September 27, 2023 meeting, the Board received an update presentation on the Pipeline Integrity Program, including a recommendation of non-destructive condition assessment of 2.2 miles of AC distribution pipe with break rates greater than 1.0 breaks per mile per year.

**BACKGROUND**

Resolution No. 1525, adopted in October 2019, uses the break history of the pipe cohort group and pipe condition assessment to drive replacement decisions. Pipe cohorts with a higher break rate (breaks per mile per year) or overall number of breaks in the pipe cohort’s lifetime will trigger a condition assessment using non-destructive testing to indirectly measure the remaining wall thickness and estimate remaining useful life. Pipe cohorts with lower break rates will be allowed to continue operation. Table 1 summarizes the break thresholds and actions required by each pipe cohort group based on the criteria discussed above.

**Table 1. Pipe Break Thresholds for Action**

Type of Pipeline	Condition Assessment		Replacement		
	Number of Breaks	Annual Break Rate	Remaining Useful Life	Number of Breaks	Annual Break Rate
Distribution (14" diameter and smaller)	3	0.2	<10 years	5	1.0
Transmission (16" diameter and greater)	2	0.2	<10 years	3	0.5

Table 2 summarizes annual pipeline performance since 2020. The pipeline system as a whole functions well, with overall break rates significantly lower than the Resolution No. 1525 thresholds for action. Applying Resolution No. 1525 to the pipeline system demonstrates that approximately 97% of the pipeline system should remain in operation with no further action and approximately 3% of the system should receive condition assessment.

**Table 2. Annual Break Rate**

Fiscal Year	Annual Break Rate (Breaks/Year)	Annual Breaks Per Mile of Pipeline (Breaks/Mile/Year)
2020	8	0.025
2021	5	0.016
2022	13	0.044
2023	10	0.032
Historical	13	0.044

**DISCUSSION**

Two AC cohort groups are recommended for condition assessment in Fiscal Year 2024 based on their break rate. Mueller Echologics (Echologics) ePulse testing was performed annually from 2013- 2017 on AC lines and is still the recommended non-destructive testing technology for AC pipelines in Resolution 1525. ePulse uses an acoustic wave administered from the top exterior of the pipeline to estimate the average remaining AC wall thickness over a known pipeline distance, providing actionable information about the pipeline condition with no disruption to customer service and no risk to water quality. The pipeline cohort groups recommended for ePulse condition assessment are summarized in Table 3. A proposal to perform ePulse pipeline condition assessment on these pipeline cohort groups was requested from Echologics. The estimated cost is expected to be between \$70,000 and \$90,000. The proposal includes “Standard ePulse” on pipeline segments within the cohort groups that have no reported breaks. Where documented breaks have occurred, the proposal includes Echologics’ “Hi-Res ePulse” technology, which provides wall thickness measurements at finer intervals and can account for the repair clamps and break segments replaced with PVC.

**Table 3. Condition Assessment Recommendations**

Cohort Group	Location	Length (Miles)	Number of Breaks	Break Rate (Breaks/Mile/Year)
CM-10-D-AC	Westside Neighborhood	2.0	15	0.36
CM-45-D-AC	Bowdoin Place	0.2	4	1.2

**FINANCIAL IMPACT**

In Fiscal Year 2024, \$200,000 is budgeted for the Pipeline Integrity Program; \$32,325 has been spent to date.

**ATTACHMENTS**

None.

## MEMORANDUM

TO: Board of Directors  
FROM: Kaitlyn Norris, Public Affairs Specialist  
DATE: April 24, 2024  
SUBJECT: Orange County Fair Sponsorship

---

### RECOMMENDATION

Discuss and approve updates to the Orange County Fair Sponsorship package.

### STRATEGIC PLAN

Goal #4: Increase favorable opinion of Mesa Water.

### PRIOR BOARD ACTION

At its May 24, 2023 meeting, the Board of Directors (Board) approved the proposed Fiscal Year 2024 Budget, including District Memberships and Sponsorships.

### DISCUSSION

Mesa Water District's (Mesa Water®) outreach program aims to connect Mesa Water with its constituents to achieve Goal #4 of the Board of Directors' (Board) Strategic Plan. Outreach activities include educating and informing the District's constituents about Mesa Water, water issues, and water in general.

As part of Mesa Water's outreach program, the District also sponsors a variety of community organizations and events that reach customers in its service area, including the annual Orange County (OC) Fair. Staff has worked with the OC Fair to identify new sponsorship offerings for this year's fair that will increase opportunities for customers to interact with the Mesa Water brand and enhance awareness about Mesa Water and the high-quality drinking water it provides.

The proposed sponsorship package includes Mesa Water branding of four custom-wrapped water bottle refilling stations located throughout the fairgrounds, co-branded social media posts, inclusion in the OC Fair's press release highlighting Mesa Water and the water bottle refilling stations, and tickets to the annual Business Development Dinner.

Staff will provide a presentation to the Board at its April 24, 2024 meeting.

### FINANCIAL IMPACT

In Fiscal Year 2024, \$906,450 is budgeted for Public Affairs Support Services; \$603,585 has been spent to date.

## MEMORANDUM

TO: Board of Directors  
FROM: Paul E. Shoenberger, P.E., General Manager  
DATE: April 24, 2024  
SUBJECT: Fiscal Year 2025 Strategic Plan

---

### RECOMMENDATION

Approve Mesa Water District's Fiscal Year 2025 Strategic Plan.

### STRATEGIC PLAN

- Goal #1: Provide an abundant, local, reliable and safe water supply.
- Goal #2: Perpetually renew and improve our infrastructure.
- Goal #3: Be financially responsible and transparent.
- Goal #4: Increase favorable opinion of Mesa Water.
- Goal #5: Attract, develop and retain skilled employees.
- Goal #6: Provide excellent customer service.
- Goal #7: Actively participate in regional and statewide water issues.

### PRIOR BOARD ACTION/DISCUSSION

At its April 18, 2023 workshop, the Board of Directors (Board) approved the Fiscal Year (FY) 2024 Strategic Plan.

At its March 19, 2024 workshop, the Board brainstormed annual strategic goals and objectives for the FY 2025 Strategic Plan and directed staff to bring a draft plan to a future meeting.

### BACKGROUND

The FY 2024 Strategic Plan offered a new look and direction from previous plans. Staff removed the routine annual objectives typically listed in the plan in favor of identifying and listing the high-level, impactful objectives that pertain to each of the Board's seven goals. The previously listed routine annual objectives are now captured in the annual Performance Audit and Key Performance Indicators.

In addition, each high-level, impactful objective in the Strategic Plan now includes a completion date for the purpose of measurement and is given a status at fiscal year's end to review at the annual Fall Board Workshop. Outcomes were also removed from the Strategic Plan to place more focus on the completion of the objectives.

### DISCUSSION

Mesa Water District's (Mesa Water®) Vision is *To Be a Top Performing Water Agency*. To achieve this vision, the District must periodically review itself and re-examine its goals. Mesa Water's Board provides staff with direction annually regarding the District's strategic goals, objectives and outcomes for the upcoming fiscal year.

Based on input received from the Board during its brainstorming session at its March 19, 2024 workshop, staff has attached a draft Strategic Plan (Attachment A) of potential goals and objectives for the Board to use in considering future opportunities and potential new initiatives for Mesa Water in FY 2025 and beyond.

The intent of this agenda item is for the Board to review the draft Strategic Plan to ensure the document incorporates the Board's articulated values and planning principles, identified opportunities for change and growth, and outlined key initiatives as set forth at the March 19, 2024 workshop.

The draft FY 2025 Strategic Plan lists a multitude of new objectives for each of the District's seven strategic plan goals; the following list highlights the key additions to the new plan:

- Update the Water System Master Plan including an Asset Management Plan by June 2025
- Complete construction on Reservoir 2's Reservoir Management System by March 2025
- Create and memorialize a capital valve replacement process from valve discovery to updating assets in GIS by February 2025
- Complete the Local groundwater Supply Improvement Project (Local SIP) feasibility study by June 2025
- Implement improved meter reading software and hardware by June 2025
- Select a Program Manager and develop a Request for Proposal for a new Plan Check system by June 2025
- Standardize contracts and create a procurement matrix by November 2024
- Implement an Electronic Content Management System by January 2025
- Implement an updated wellness program by June 2025
- Host 50 field trips and tours at the Mesa Water Education Center by June 2025
- Create Mesa Water-owned rebate programs by June 2025
- Reinstigate home water audits by June 2025
- Implement a new customer information system by June 2025
- Evaluate the metrics and measurement values of the Elite Customer Service Standards by December 2024
- Advocate to support an appropriate water bond on the November 2024 ballot by November 2024
- Influence 2024 legislation regulations for CA water use efficiency to be economically viable, environmentally appropriate, and feasible by October 2024

Staff recommends that the Board approve the FY 2025 Strategic Plan with possible modifications, at its April 24, 2024 meeting.

### FINANCIAL IMPACT

None.

### ATTACHMENTS

Attachment A: Fiscal Year 2025 Strategic Plan, Draft  
Attachment B: Fiscal Year 2024 Strategic Plan, Redline

# STRATEGIC PLAN

Fiscal Year 2025

## Vision

**To Be a Top Performing Water Agency**

## Mission Statement

**Mesa Water District, a local independent special district, manages its finances and water infrastructure, and advocates water policy, while reliably providing an abundance of clean, safe water to benefit the public's quality of life.**

## Core Values

- **Health and Safety of the Public and Our Staff**
- **Excellence**
- **Philosophy of Abundance**
- **Perpetual Agency Philosophy**

## **Strategic Goals**

- 1. Provide an abundant, local, reliable and safe water supply.**
- 2. Perpetually renew and improve our infrastructure.**
- 3. Be financially responsible and transparent.**
- 4. Increase favorable opinion of Mesa Water.**
- 5. Attract, develop and retain skilled employees.**
- 6. Provide excellent customer service.**
- 7. Actively participate in regional and statewide water issues.**

## Strategic Goal #1

---

*Provide an abundant, local, reliable and safe water supply.*

**Objective A: Continue to meet and surpass water quality standards.**

- Update the District's triannual in-home Sampling Plan for compliance under the Lead and Copper Rule Revisions and the Lead and Copper Rule Improvements by December 2024
- Evaluate effectiveness of free chlorine conversion by November 2024

**Objective B: Maintain and protect a high-quality water supply.**

- Submit final findings to DDW for the Lead and Copper Rule Revisions by October 2024

**Objective C: Continue to ensure a reliable and abundant supply of water.**

- Complete the Local groundwater Supply Improvement Project (Local SIP) feasibility study by June 2025

**Objective D: Ensure emergency operations.**

- Construct emergency backup power at the District's Headquarters and Reservoir 1 by March 2026

## Strategic Goal #2

---

*Perpetually renew and improve our infrastructure.*

**Objective A: Manage water infrastructure assets to assure reliability.**

- ◆ Complete construction on Reservoir 2's Reservoir Management System by March 2025
- ◆ Create and memorialize a capital valve replacement process from valve discovery to updating assets in GIS by February 2025

**Objective B: Efficiently manage our water system.**

- ◆ Submit a plan to implement Mesa Water's Mobile Work Order Functionality by June 2025
- ◆ Select a Program Manager and develop a Request for Proposal for a new Plan Check system by June 2025
- ◆ Complete a study to evaluate supplying local groundwater to the City of Huntington Beach by March 2025
- ◆ Implement an updated water supply and demand optimization model by October 2024

**Objective C: Plan future projects based on data-driven and life-cycle cost decisions.**

- ◆ Update the Water System Master Plan including an Asset Management Plan by June 2025

**Objective D: Improve Mesa Water's information technology infrastructure assets to assure reliability and security.**

- ◆ Implement improved meter reading software and hardware by June 2025

## Strategic Goal #3

---

*Be financially responsible and transparent.*

**Objective A: Maintain AAA financial goals and meet the appropriate designated fund level goals.**

- ◆ Create an Investment Policy Statement by September 2024
- ◆ Review of Financial Service Processes and Implementation of Standard Operating Procedures by April 2025

**Objective B: Maintain competitive rates and efficiency in per capita expenditures.**

**Objective C: Fund the Board's and District's priorities.**

- ◆ Define a 10-15 year financial strategic plan by September 2024
- ◆ Prepare a 10-15 year financial strategic plan by June 2025
- ◆ Conduct Federal Earmarks advocacy in 2024 for Mesa Water's priority projects—"Cohort Pipe", "Mainline Valve", and "Cybersecurity by December 2024
- ◆ Implement a robust strategy to aggressively pursue grants and low-interest loan funding for Mesa Water's Capital Improvements and priority projects by June 2025

**Objective D: Encompass financial responsibility and transparency.**

- ◆ Implement an Electronic Content Management System by January 2025
- ◆ Standardize contracts and create a procurement matrix by November 2024
- ◆ Fully complete Resolution No. 1591 by delivering seven audits and one department assessment, and including the results in the review of the General Manager by November 2024
- ◆ Select a professional consultant to conduct a business process assessment of Administrative Services and Human Resources by March 2025
- ◆ Complete a business process assessment of Administrative Services and Human Resources, and deliver the report to the General Manager by June 2026

## Strategic Goal #4

---

### *Increase favorable opinion of Mesa Water.*

#### **Objective A: Enhance Mesa Water’s visibility and positive recognition.**

- ◆ Implement a “Detail the District” plan by June 2025
- ◆ Reach new audiences by hosting Yo Amo Mesa Water and an industry (e.g., building owners, health and medical professionals) briefing/event

#### **Objective B: Increase awareness of Mesa Water and water among key audiences.**

- ◆ Launch a school field trip program and community tours by September 2024
- ◆ Host 50 field trips and tours at the Mesa Water Education Center by June 2025

#### **Objective C: Increase customer knowledge about water-use efficiency and water-wise resources**

- ◆ Create Mesa Water-owned rebate programs by June 2025
- ◆ Reinstitute home water audits by June 2025

## Strategic Goal #5

### *Attract, develop and retain skilled employees.*

#### **Objective A: Attract and retain a qualified, skilled and capable workforce.**

- ◆ Complete a general salary increase survey of our benchmark agencies by June 2025
- ◆ Assess competitiveness of Retiree Health Plan and explore changes by December 2024
- ◆ Explore options for reconciling the disparity in retirement benefits between PEPRA and Classic plans by June 2025

#### **Objective B: Develop employee skills.**

- ◆ Conduct an Elite Onboarding session by June 2025
- ◆ Facilitate performance management training for managers and supervisors by September 2024

#### **Objective C: Enhance employee engagement.**

- ◆ Administer an annual employee engagement pulse survey by January 2025
- ◆ Administer the annual employee survey by June 2025

#### **Objective D: Provide a safe working environment..**

- ◆ Implement an updated wellness program by June 2025

#### **Objective E: Improve operational processes and workflow.**

- ◆ Update recruitment and selection Standard Operating Procedures by September 2024
- ◆ Create an HR Calendar of Events by February 2025
- ◆ Conduct a Request for Proposal for a Human Resource Information System by November 2024

## Strategic Goal #6

---

*Provide excellent customer service.*

**Objective A: Provide outstanding internal and external customer service in a timely, courteous and effective manner.**

**Objective B: Enhance the customer experience.**

- ◆ Competitively select a new customer information system by September 2024
- ◆ Implement a new customer information system by June 2025

**Objective C: Measure success.**

- ◆ Competitively select a consultant to examine the metrics and measurement values of office Customer Service by September 2024
- ◆ Evaluate the metrics and measurement values of the Elite Customer Service Standards by December 2024

**Objective D: Continuous improvement and reinforcement.**

## Strategic Goal #7

### *Actively participate in regional and statewide water issues.*

#### **Objective A: Accomplish the Board's Policy Priorities.**

- ◆ Advocate during the 2024 state legislative session to support an appropriate water bond on the November 2024 ballot by November 2024
- ◆ Support the 2024 ACWA-sponsored state assembly bill (AB 2599) to clean up enacted legislation from 2023 re. water shutoffs due to nonpayment and restitution authority by October 2024
- ◆ Re-engage the Buried Utilities Coalition (BUC) to advocate on priority air quality regulations of high impact to Mesa Water (CARB ACF, SCAQMD PR 1110.4) by December 2024

#### **Objective B: Positively influence water policy and other priority policy issues.**

- ◆ Influence 2024 legislation (SB 1110, SB 1330) regulations for CA water use efficiency to be economically viable, environmentally appropriate, and feasible by October 2024
- ◆ Advocate during the 2024 state legislative session to amend or oppose "Impact Fee" bills with concerning requirements re. connection fees and capacity charges (AB 1820, SB 937, SB 1210) by October 2024

#### **Objective C: Optimize governmental efficiencies affecting Mesa Water.**

- ◆ Apply for award(s) -- as offered (ACWA ACE) -- for Mesa Water's Business Improvement Process efforts by December 2024
- ◆ Explore ways to improve internal efficiencies for FY 2025 Water Policy processes involving all departments at Mesa Water by June 2025

#### **Objective D: Facilitate Mesa Water's impactful participation with water, government, utility and non-governmental organizations.**

- ◆ Support MET Chair Adan Ortega's re-election in 2024 for a second two-year term by December 2024

# WATER SUPPLY AND RELIABILITY

## Strategic Goal #1

*Provide an abundant, local, reliable and safe water supply.*

### Objective A: Continue to meet and surpass water quality standards.

- ~~— Implement a free chlorine conversion pilot by February 2024~~
- ◆ Update the District's triannual in-home Sampling Plan for compliance under the Lead and Copper Rule Revisions and the Lead and Copper Rule Improvements by December 2024
- ◆ Evaluate effectiveness of free chlorine conversion by November 2024

### Objective B: Maintain and protect a high-quality water supply.

- ~~◆ Complete the Lead Service Line Inventory Plan for approval by October 2023~~
- ◆ Submit final findings to DDW for the Lead and Copper Rule Revisions by October 2024
- ~~◆ Initiate construction of the Reservoir Chemical Management Systems by November 2023~~

### Objective C: Continue to ensure a reliable and abundant supply of water.

- ~~◆ Develop a pilot project for replacement of the Mesa Water Reliability Facility (MWRF) secondary system membranes by March 2024~~
- ◆ Complete ~~Initiate~~ the Local groundwater Supply Improvement Project (Local S<sub>LI</sub>P) feasibility study by February–June 2025~~4~~

### Objective D: Ensure emergency operations.

- ~~◆ Initiate construction of emergency backup power at District Headquarters, Reservoir 1 and Kemp Reservoir by November 2023~~
- ◆ Construct ~~Design~~ emergency backup power at the District's Headquarters and Reservoir 1 by March 2026 for the ~~MWRF High-lift Pump House by June 2024~~

## Strategic Goal #2

*Perpetually renew and improve our infrastructure.*

### Objective A: Manage water infrastructure assets to assure reliability.

- ~~◆ Complete electrical upgrades at the Fair/Newport vault by December 2023~~
- ~~◆ Complete improvement replacement of meter vault lids by June 2024~~
- ~~◆ Initiate construction of the Reservoir Rehabilitation Program by November 2023~~
- ~~◆ Replace SCADA radio communication equipment by October 2023~~
- ~~◆ Develop a plan for the State Clean Fleet Mandate and include an EV charging station at the MWRF by January 2024~~
- ~~◆ Design new District facility security hardening by January 2024~~
- ~~◆ Implement MWRF upgrades to improve system operations and useful life by March 2024~~
- ~~◆ Complete construction on Reservoir 2's Reservoir Management System by March 2025~~
- ~~◆ Create and memorialize a capital valve replacement process from valve discovery to updating assets in GIS by February 2025~~

### Objective B: Efficiently manage our water system.

- ~~◆ Submit a plan to implement Mesa Water's Computerized Maintenance Management System (CMMS) mobile functions—Mobile Work Order Functionality by October 2023 June 2025~~
- ~~◆ Select a Program Manager and develop a Request for Proposal for a new Plan Check system by June 2025~~
- ~~◆ Complete a study to evaluate supplying local groundwater to the City of Huntington Beach by March 2025~~
- ~~◆ Implement an updated water supply and demand optimization model by October 2024~~

### Objective C: Plan future projects based on data-driven and life-cycle cost decisions.

- ~~◆ Update to the Water System Master Plan including an Asset Management Plan by June January 20254~~

### Objective D: Improve Mesa Water's information technology infrastructure assets to assure reliability and security.

- ~~◆ Transition the Information Technology Data Center to a cloud-based data center services platform by December 2023~~
- ~~◆ Transition to Microsoft Office 365 by December 2023~~
- ~~◆ Implement enhanced cyber security tools and a monitoring system by June 2024~~
- ~~◆ Replace all workstations by June 2024~~
- ~~◆ Develop an Information Technology Asset Database by June 2024~~
- ~~◆ Conduct an assessment of the current IT 5-Year Master Plan by June 2024~~
- ~~◆ Implement improved meter reading software and hardware by June 2025~~

## Strategic Goal #3

*Be financially responsible and transparent.*

**Objective A: Maintain AAA financial goals and meet the appropriate designated fund level goals.**

- ~~Review possible increased efficiencies and cost savings in the management of Trust Accounts by September 2023~~
- ~~Review possible increased efficiencies and cost savings in the management of the District's Reserve Funds by December 2023~~
- ~~Update the Board's AAA goal and Designated Funds policy by September 2023~~
- Create an Investment Policy Statement by September 2024<sup>43</sup>
- ~~Review of Financial Service Processes and Implementation of Standard Operating Procedures by April 2025~~

**Objective B: Maintain competitive rates and efficiency in per capita expenditures.**

**Objective C: Fund the Board's and District's priorities.**

- Define a 10-15 year financial strategic plan by ~~September 2024~~ November 2023
- Prepare a 10-15 year financial strategic plan by June 2025<sup>4</sup>
- Conduct Federal Earmarks advocacy in 2024<sup>3</sup> for Mesa Water's priority projects—the "Cohort Pipe", "Mainline Valve", and "Cybersecurity by December 2024MWRF Backup Power"
- Implement a robust strategy to aggressively pursue grants and low-interest loan funding for Mesa Water's Capital Improvements and priority projects by June 2025 and lead the RFQ process to retain a Grants Services/Support consultant by August 2023

**Objective D: Encompass financial responsibility and transparency.**

- ~~Conduct a Needs Assessment, including an Action Plan, for the acquisition of an Electronic Records Management Software by October 2023~~ Implement an Electronic Content Management System by January 2025
- Standardize contracts and create a procurement matrix by ~~November~~ May 2024
- ~~Fully complete Resolution No. 1591 by delivering seven audits and one department assessment, and including the results in the review of the General Manager by November 2024~~
- ~~Select a professional consultant to conduct a business process assessment of Administrative Services and Human Resources by March 2025~~
- ~~Complete a business process assessment of Administrative Services and Human Resources, and deliver the report to the General Manager by June 2026~~

## Strategic Goal #4

### *Increase favorable opinion of Mesa Water.*

#### **Objective A: Enhance Mesa Water’s visibility and positive recognition.**

- ◆ ~~Implement a~~ Develop a “Detail the District” ~~list, options and~~ plan by ~~March–June~~ 2025
- ◆ Reach new audiences by hosting Yo Amo Mesa Water and an industry (e.g., building owners, health and medical professionals) briefing/event

#### **Objective B: Increase awareness of Mesa Water and water among key audiences.**

- ◆ Launch ~~Create a comprehensive outreach plan for the Mesa Water Education Center, and launch~~ a school field trip program and community tours by ~~October~~ September 2023
- ◆ Host 50 field trips and tours at the Mesa Water Education Center by June 2025

#### **Objective C: Increase customer knowledge about water-use efficiency and water-wise resources**

- ◆ Create Mesa Water-owned rebate programs by June 2025
- ◆ Reinstitute home water audits by June 2025

#### **~~Objective C: Unify Mesa Water messaging and publications.~~**

- ◆ ~~Prepare content for a bi-monthly constituent communication, and email six issues by June 2024~~

## Strategic Goal #5

*Attract, develop and retain skilled employees.*

### **Objective A: Attract and retain a qualified, skilled and capable workforce.**

- ~~Update the District's Employee Rules and Regulations by July 2023~~
- Complete a general salary increase survey of our benchmark agencies by ~~October 2023~~ June 2025
- ~~Administer the an Annual Employee Engagement pulse Survey by June January 2025<sup>4</sup>~~
- ~~Explore options for a District Longevity Plan by June 2024~~
- ~~Assess competitiveness of Retiree Health Plan and explore changes by December 2024~~
- ~~Explore options for reconciling the disparity in retirement benefits between PEPRA and Classic plans by June 2025~~

### **Objective B: Develop employee skills.**

- ~~Facilitate presentation training for key staff by October 2023~~
- Conduct an two Elite Onboarding sessions by June 2025<sup>4</sup>
- ~~Facilitate performance management training for managers and supervisors by September 2024~~

### **Objective C: Enhance employee relations engagement.**

- ~~Administer an annual employee engagement pulse survey by -January 2025~~
- ~~Conduct HR Roundtables with staff by June 2024~~ Administer the annual employee survey by June 2025

### **Objective D: Provide a safe working environment for staff.**

- ~~Conduct a Request for Proposal for Labor Legal Services by October 2023~~
- ~~Develop options for a District Wellness Plan by June 2024~~
- ~~Implement an updated wellness program by June 2025~~

### **Objective E: Improve operational processes and workflow.**

- ~~Update recruitment and selection Standard Operating Procedures by September 2024~~
- ~~Create an HR Calendar of Events by February 2025~~
- ~~Conduct a Request for Proposal for a Human Resource Information System by November 2024~~

# CUSTOMER SERVICE

## Strategic Goal #6

---

*Provide excellent customer service.*

**Objective A: Provide outstanding internal and external customer service in a timely, courteous and effective manner.**

**Objective B: Enhance the customer experience.**

- ◆ Competitively select a new customer information system by ~~September~~May 2024
- ◆ Implement a new customer information system by ~~March~~June 2025

**Objective C: Measure success.**

- ◆ Competitively select a consultant to examine the metrics and measurement values of ~~office the Elite~~ Customer Service ~~Standards~~ by ~~October 2023~~September~~July~~ 2024
- ◆ Evaluate the metrics and measurement values of the Elite Customer Service Standards by ~~March~~December 2024

**Objective D: Continuous improvement and reinforcement.**

## Strategic Goal #7

### *Actively participate in regional and statewide water issues.*

#### **Objective A: Accomplish the Board's Policy Priorities.**

- ◆ Advocate during the 2024~~3~~ state legislative session to support an appropriate water bond on the November 2024 ballot by November 2024
- ◆ Support the 2024~~3~~ ACWA-sponsored state ~~senate assembly~~ bill (~~SBAB 25993~~) to clean up enacted legislation from 2023 re. water shutoffs due to nonpayment and restitution authority by October 2024 streamline permitting for water infrastructure projects
- ◆ Re-engage the Buried Utilities Coalition (BUC) to advocate on priority air quality regulations of high impact to Mesa Water (CARB ACF, SCAQMD PR 1110.4) by December 2024

#### **Objective B: Positively influence water policy and other priority policy issues.**

- ◆ Influence 2024~~3~~ legislation (SB 1110, SB 1330) rulemaking regulations for CA water use efficiency ~~regulations~~ to be economically viable, environmentally appropriate, and feasible by October 2024
- ◆ Advocate during the 2024~~3~~ state legislative session to amend or oppose "Impact Fee" bills with concerning requirements re. connection fees and capacity charges nonfunctional turf bills (AB 1820572, ASB 937, SB 1210573) by October 2024

#### **Objective C: Optimize governmental efficiencies affecting Mesa Water.**

- ◆ Apply for award(s) -- as offered (ACWA ACE, ~~APWA, ICMA~~) -- for Mesa Water's Business Improvement Process effort efficiency (BiPi) by December 2024~~3~~
- ◆ Explore ways to improve internal efficiencies for FY 2025 Water Policy processes involving all departments at Mesa Water by June 2025

#### **Objective D: Facilitate Mesa Water's impactful participation with water, government, utility and non-governmental organizations.**

- ◆ ~~Support OCWD President Green's election as ACWA President and CGWD President Avila's election as ACWA Vice President in 2023~~
- ◆ Support ~~Vice President DePasquale's MET Chair Adan Ortega's~~ re-election in 2024 for a second two-year term by December 2024 to the ACWA Region 10 Board in ~~2023~~

*Dedicated to  
Satisfying our Community's  
Water Needs*

## MEMORANDUM

TO: Board of Directors  
FROM: Kurt Lind, Business Administrator  
DATE: April 24, 2024  
SUBJECT: Customer Information System Support Services

---

### RECOMMENDATION

Approve a contract with T2 Tech Group for \$42,835 to provide a professional technology team to support the evaluation and implementation of a Customer Information System, and authorize execution of the contract.

### STRATEGIC PLAN

Goal #3: Be financially responsible and transparent.  
Goal #6: Provide excellent customer service.

### PRIOR BOARD ACTION/DISCUSSION

At its April 26, 2023 meeting, the Board of Directors (Board) received an information item on the Customer Information System (CIS).

At its May 24, 2023 meeting, the Board approved a contract with Plante Moran for \$507,400 to competitively evaluate, select and implement a CIS that meets or exceeds Mesa Water District's (Mesa Water®) system specifications and requirements.

### DISCUSSION

The CIS Selection & Implementation project began in June 2023. To date, staff and Plante Moran have accomplished many milestones, including:

1. Formation of the Executive & Selection Committee
2. Develop Project Charter & Project Plan
3. District-wide Project Kickoff
4. Discovery Evaluation & Interviews
5. Current & Future State Business Process Workflows
6. Deliver CIS Process Improvement Report
7. Develop System Requirements & Specifications
8. Develop Request for Proposal (RFP)
9. RFP Release & Pre-proposal Meeting
10. RFP Evaluation Process
11. RFP Requirements & Specifications Analysis

Mesa Water is now in Phase 3 of the project where additional support is needed from T2 Tech Group for the technological evaluation and implementation of a Customer Information System. The following tasks will be provided to Mesa Water:

1. Proposal Analysis – Technical Review
2. Vendor Demonstration Support & Advisory Services
3. Due Diligence Support of Finalist Vendor
4. Statement of Work & Contract Support – Technology Requirements

5. Implementation Support
6. Documentation of IT Operations Process and Architecture
7. Go Live & Post-Implementation Support

The technical support work is planned over various phases of the project. Task 1 would begin in May 2024 and Task 7 is estimated to begin summer of 2025.

Staff recommends that the Board approve a contract with T2 Tech Group for \$42,835 to provide a professional technology team to support the evaluation and implementation of a Customer Information System.

#### FINANCIAL IMPACT

Requested funding of \$20,000 is budgeted in the Fiscal Year 2024 budget for Customer Information System Support Services; \$22,835 will be budgeted in the proposed Fiscal Year 2025 budget.

#### ATTACHMENTS

None.

Satisfying our Community's  
Water Needs*

## MEMORANDUM

TO: Board of Directors  
FROM: Andrew D. Wiesner, P.E., District Engineer  
DATE: April 24, 2024  
SUBJECT: Capital Improvement Program Update

---

### RECOMMENDATION

Award a contract to Carollo Engineers, Inc. for \$954,504 and a contingency of \$95,450 for an amount not to exceed \$1,049,954 for the Capital Improvement Program Update Professional Services.

### STRATEGIC PLAN

Goal #2: Perpetually renew and improve our infrastructure.

### PRIOR BOARD ACTION/DISCUSSION

In the Fiscal Year (FY) 2024 Strategic Plan, the Board of Directors (Board) included Goal #2, Objective C: Plan future projects based on data-driven and life-cycle cost decisions. The FY 2024 Strategic Plan defined the action to achieve Objective C as follows: "Update to the Water System Master Plan including an Asset Management Plan."

### DISCUSSION

As the 2014 Capital Improvement Program nears completion, the Board included a Strategic Plan item to update the 2014 Water System Master Plan and develop an Asset Management Plan to generate the next 10-year Capital Improvement Program (CIP) for future projects based on data driven and life-cycle cost decisions. The key goals for the 2024 CIP Update include the following:

- **Water System Master Plan:**
  - Update potable and recycled water demands
  - Document capacity of water supplies
  - Compare supply and demand, and make recommendations to close any supply gaps
  - Update the hydraulic model and recalibrate with Well Nos. 12 and 14
  - Assess technology advancements that will influence how water districts function in the next 10 years
  - Assess current and upcoming regulations
- **Asset Management Plan:**
  - Define an "asset", and the requirements for asset management software
  - Evaluate asset management software
  - Develop a roadmap for Asset Management Program Implementation
- **Asset Condition Assessment:**
  - Plan and execute site by site condition assessment of all water production and storage assets, transmission system assets, and property assets
  - Rate asset condition and estimate remaining useful life
  - Document asset condition in asset management plan-ready format
  - Define projects to replace to refurbish assets that will reach the end of useful life in the next 10 years

- **Capital Improvement Program:**

- Develop a prioritized 10-year CIP based on the findings of each task

A scope of work to achieve the goals of the CIP Update was developed and reviewed by five consulting firms with deep experience in water system master planning and asset management. Their input was used to finalize the scope of work, and a Request for Proposal (RFP) for Professional Services was issued through Planet Bids. Four proposals were received and were reviewed by a selection committee comprised of District staff from Engineering, Operations, and the Office of the General Manager, plus an outside representative with strong experience in Asset Management. The selection committee selected three top-rated proposers to interview. After the interviews, the selection committee made final rankings and then opened the sealed cost envelopes. The ranking and costs are shown in Table 1.

**Table 1. Proposer Evaluation Summary**

Proposer	Rank	Cost
Carollo Engineers	1	\$954,504
Black & Veatch	2	\$992,699
Hazen & Sawyer	3	\$996,987

Carollo Engineers' (Carollo) proposal was the highest ranked by all selection committee members, and Carollo remained the top choice of the majority of the selection team members after the interviews. Carollo's cost proposal was the lowest cost of all proposals received. Staff recommends that the Board award a contract to Carollo for \$954,504 and a contingency of \$95,450 for an amount not to exceed \$1,049,954 for the Capital Improvement Program (CIP) Update Professional Services.

**FINANCIAL IMPACT**

In FY 2024, \$552,225 is budgeted for the Water System Master Plan; the remainder of the requested funding will be added to the proposed FY 2025 Budget.

15. DIRECTORS' REPORTS AND COMMENTS

*Dedicated to  
Satisfying our Community's  
Water Needs*

## MEMORANDUM

TO: Board of Directors  
FROM: Stacy Taylor, Water Policy Manager  
DATE: April 24, 2024  
SUBJECT: Federal Advocacy Update

---

### RECOMMENDATION

Receive and file the Federal Advocacy Update.

### STRATEGIC PLAN

Goal #7: Actively participate in regional and statewide water issues.

### PRIOR BOARD ACTION/DISCUSSION

This item is provided monthly at a Mesa Water District (Mesa Water®) Board of Directors meeting.

### DISCUSSION

Attached are the Federal Advocacy Report and the list of Federal legislation that Mesa Water is tracking.

### FINANCIAL IMPACT

In Fiscal Year 2024, \$475,000 is budgeted for Water Policy Support Services \$349,215 has been spent to date.

### ATTACHMENTS

Attachment A: Federal Advocacy Report  
Attachment B: Federal Legislation Tracker

To: Mesa Water District  
From: Van Scoyoc Associates (VSA); Geoff Bowman, Pete Evich, Ashley Strobel, Jessica Flewallen  
Date: April 15, 2024  
Subject: April 2024 Report

---

### **Congressional Update**

On March 23<sup>rd</sup>, President Biden signed the final six Fiscal Year 2024 Appropriations bills into law. The package provides funding for the Defense, Financial Services, Homeland Security, Labor-HHS, Legislative Branch, and State and Foreign Ops appropriations bills. Earlier in March, Congress enacted 6 of the FY2024 bills, including the Interior-EPA, Energy & Water, Transportation-HUD, Commerce-Justice-Science, Agriculture-FDA, and Military-Construction bills. Both Chambers are now beginning work on the FY25 appropriations bills. In mid-March, Representative Mike Gallagher (R-WI) announced his plans to resign from Congress at the end of April. This will leave the U.S. House of Representatives with 217 Republican seats and 213 Democratic seats, reducing the Republican majority to a margin of just one vote. Democrats are expected to fill a safe seat in a special election in May, and Republicans to fill two seats in the coming months. Additionally, On March 22<sup>nd</sup>, House Appropriations Committee Chair Kay Granger (R-TX) [announced](#) she would be stepping down from the position. Granger, retiring at the end of this session of Congress, stated she will finish out the term and plans to serve as “chair emeritus.” On April 9<sup>th</sup>, the House Steering Committee voted to elect Representative Tom Cole (R-OK) as the new Chair, and on April 10<sup>th</sup>, the Republican Conference formalized the change on the House Floor. Cole has his work cut out for him in negotiating the FY2025 appropriations bills before the September deadline to fund the federal government into the next fiscal year.

### **Special District Grant Accessibility Legislation Introduced**

At the beginning of March, Representatives Pat Fallon (R-TX) and Brittany Petterson (D-CO) introduced the “Special District Grant Accessibility Act” ([H.R.7525](#)), which would define “special district” in federal law. The bill would require special districts to be recognized as local units of government and therefore eligible for federal funding. The bill favorably passed the House Oversight and Accountability Committee and now heads to the House Floor for a vote, although the timing of the vote is uncertain. Mesa Water is supportive of the legislation and sent a letter of support to its House delegation. VSA will keep Mesa Water updated on any further developments on the legislation.

### **EPA Issues Final Drinking Water Rule**

On April 10<sup>th</sup>, the U.S. Environmental Protection Agency (EPA) released the final National Primary Drinking Water Regulation (NPDWR) for six Per- and Polyfluorinated Substances (PFAS) chemicals. The rule sets enforceable Maximum Contaminant Levels (MCLs) of 4 parts per trillion (ppt) for perfluorooctanoic acid (PFOA) and perfluorooctane sulfonic acid (PFOS) in drinking water. The rule also sets MCLs of 10 ppt for three additional PFAS chemicals in drinking water, including perfluorononanoic acid (PFNA), perfluorohexane sulfonate (PFHxS), and “GenX” chemicals. The EPA is now estimating it could cost between \$772 million and \$1.2 billion for utilities to comply with the rule.

The new requirements for public water systems under the NPDWR include three years to complete initial monitoring followed by ongoing compliance monitoring and publications of recorded PFAS levels beginning in 2027; five years to implement solutions that reduce PFAS if levels exceed the MCLs; and beginning in five years must alert the public if MCLs are still exceeded.

Legal experts are warning this rule could start a trend of manufacturers, business groups, and water systems filing court challenges to block the rule. They will likely argue the rules were created without considering the cost of compliance and without adequate supporting evidence, violates requirements under the Safe Drinking Water Act. VSA will keep Mesa Water apprised as new information becomes available. Additionally, VSA will share the final rule when it is published in the Federal Register.

- See EPA’s press release [here](#) and the pre-publication version of the rule in the Federal Register [here](#).

### **Water Groups Call on Congress to Stop Earmarking under the SRFs**

State agencies and water associations are urging Members of Congress to “save” funding that is being used for Community Project Funding requests under the Clean Water and Drinking Water State Revolving Funds for the traditional State Revolving Loan Fund (SRF) process for water infrastructure projects. The groups highlight that in recent years, Members of Congress have used funding from the Clean Water and Drinking Water SRFs to pay for projects they have earmarked in their districts. Members of Congress have pointed out the SRFs have gotten funding boosts through the Bipartisan Infrastructure Law. A new group, “Save the SRFs,” argues that funding from the Bipartisan Infrastructure Law for the SRFs has largely offset the cost of the earmarked projects. The Environmental Council of States (ECOS) has stated that earmarked projects can be more difficult for EPA and state agencies to implement and permit. While Members have argued that earmarking projects can give funding to communities that may not make it through the SRF application process.

### **PFAS CERCLA Hearing**

On March 20<sup>th</sup>, the Senate Environment and Public Works Committee held a [hearing](#) entitled “Examining PFAS as a Hazardous Substances.” During the hearing, Senators and witnesses

discussed EPA's proposed rule to designate PFAS chemicals as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). They discussed how EPA's rule would affect utilities and considered the solutions offered in witness testimony. Senator Alex Padilla (D-CA) noted the PFAS CERCLA designations were a priority topic in a discussion he had with representatives of the Association of Metropolitan Water Agencies during the morning of the hearing. A topic that Senator Padilla raised, along with other Senators on the panel, centered around how EPA's ability to use enforcement discretion to limit water utilities' liability may also apply to potential legal suits from third parties. Witness Scott Faber, who testified on behalf of the Environmental Working Group, emphasized that EPA's intention is to issue a clear enforcement discretion policy along with the final CERCLA rule stating the Agency does not plan to focus the responsibility for PFAS contamination on public water providers. Witnesses Robert Fox, testifying on behalf of the National Waste and Recycling Association & Solid Waste Association, and Michael Witt, testifying on behalf of both the Passaic Valley Sewerage Commission and the Water Coalition Against PFAS, countered that EPA's claim that it plans to exercise enforcement discretion will not provide a liability shield from third parties who would still be able to sue those entities – such as water and wastewater agencies - which had no role or responsibility for PFAS contamination. VSA will continue to keep Mesa Water apprised of further developments on this issue.

#### **Biden Administration to Discuss Cybersecurity Threats with Water Sector**

On March 18<sup>th</sup>, EPA Administrator Michael Regan and White House National Security Advisor Jake Sullivan sent a [letter](#) inviting U.S. Governors and their respective States' environment, health, and homeland security secretaries to a virtual meeting on Thursday March 21<sup>st</sup>, to discuss efforts to implement cybersecurity practices in the water sector. The letter highlights recent attacks and threats on the nation's water systems and emphasizes the need for the federal government and states to partner to promote the best cybersecurity practices in the water sector. Last year, EPA introduced a cybersecurity mandate for water utilities but withdrew the measure after water utility trade associations and Attorneys' Generals in Republican states pushed back on the measure.

## **SUPPORT**

### **Low-Income Household Assistance Water Program (LIHWAP) Establishment Act ([S.3830](#)) Sen. Alex Padilla (D-CA)**

**Status:** Senate - 02/28/2024 Read twice and referred to the Committee on Health, Education, Labor, and Pensions.

**Summary:** The bill would direct the Secretary of the Department of Health and Human Services (HHS) and Administrator of the Environmental Protection Agency (EPA) to make permanent the Low-Income Household Assistance Water Program (LIHWAP). The bill would allow HHS to award grants to eligible entities to provide funds to public water systems to assist low-income households in paying for drinking water or wastewater services.

### **Water Efficiency, Conservation, and Sustainability Act of 2023 ([S.2654/H.R.5016](#)) Sen. Alex Padilla/ Rep. Mike Levin (D-CA)**

**Status:** Senate – 07/27/2023 Read twice and referred to the Committee on Environment and Public Works. House – 07/28/2023 Referred to the House Energy and Commerce Subcommittee on Environment, Manufacturing, and Critical Minerals. Mesa Water wrote a letter of support for Rep. Levin’s House version of the bill.

**Summary:** This bill would create programs at the EPA for states, municipalities, and utilities for water improvement program, a water loss control program, and a program to adopt and implement water-efficient plumbing codes.

### **Support to Rehydrate the Environment, Agriculture, and Municipalities Act (STREAM) Act ([S.2162](#)) Late Sen. Dianne Feinstein (D-CA)**

**Status:** 07/19/2023 – Considered in Committee on Energy and Natural Resources Subcommittee on Water and Power hearing. Mesa Water wrote a support letter for the STREAM Act.

**Summary:** This bill would expedite non-federal storage projects with less than \$250 million in federal funding, water recycling, and desalination projects by allowing the Department of the Interior to approve the projects. This provision is needed following the Water Infrastructure Improvements for the Nation Act’s expiration in December 2021. Absent this provision, Congress must individually authorize all water recycling, desalination, and storage projects, with the exception of projects that receive construction funding under the bipartisan infrastructure legislation.

### **Reclamation Climate Change and Water Program Reauthorization Act of 2023 ([H.R.3027](#)) Rep. Katie Porter (D-CA)**

**Status:** 06/14/2023 – Considered in a Subcommittee hearing held by House Natural Resources Subcommittee on Water, Wildlife and Fisheries.

**Summary:** The bill would reauthorize the Bureau of Reclamation’s Climate Change and Water Program which will expire at the end of 2023.

### **Desalination Research Advancement Act ([H.R.7612](#)) Rep. Mike Levin (D-CA)**

**Status:** 05/12/2022 – Subcommittee Hearings Held. Rep. Levin’s office has communicated to VSA they will soon reintroduce the bill.

**Summary:** This bill would reauthorize the Bureau of Reclamation’s Desalination and Water Purification Research (DWPR) Program, which funds projects to improve water supply development from seawater, brackish groundwater, and wastewater.

**Special District Grant Accessibility Act ([H.R.7525](#)) Rep. Pat Fallon (R-TX)**

**Status:** 03/07/2024 – Ordered to be Reported in the Nature of a Substitute (Amended) by the Yeas and Nays: 38 – 2.

**Summary:** The bill would require special districts to be recognized as local government and be eligible for federal funding.

**WATCH**

**The Health Drinking Water Affordability Act (Healthy H2O Act) ([H.R.1721/S.806](#)) Rep. Chellie Pingree (D-ME)/Sen. Tammy Baldwin (D-WI)**

**Status:** Senate – 03/15/2023 Read twice and referred to the Committee on Agriculture, Nutrition, and Forestry. House – 04/25/2023 Referred to the Subcommittee on Commodity Markets, Digital Assets, and Rural Development.

**Summary:** The bill would provide grants through the U.S. Department of Agriculture for water quality testing and to purchase and install point-of-entry water filtration systems to remove contaminants from drinking water.

**Clean Water Act of 2023 ([H.R.5983](#)) Rep. Rick Larsen (D-OR)**

**Status:** 10/27/2023 – Referred to the Subcommittee on Water Resources and Environment.

**Summary:** This bill would clarify “protected water resources” under the Clean Water Act and would reinstate protections on 50% of wetlands and 70% of rivers that lost protection under the *Sackett v. EPA Hearing*.

**PFAS Accountability Act of 2024 ([H.R. 7194/S.3725](#)) Rep. Madeleine Dean (D-PA)/Sen. Kirsten Gillibrand (D-NY)**

**Status:** House - 02/02/2024 Referred to the Subcommittee on Environment, Manufacturing, and Critical Materials.

Senate - 02/01/2024 Read twice and referred to the Committee on Environment and Public Works.

**Summary:** This bill establishes requirements and incentives to limit the use of perfluoroalkyl and polyfluoroalkyl substances, commonly referred to as PFAS, and remediate PFAS in the environment. The bill directs the EPA to designate the PFAS perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) as a hazardous substance under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, thereby requiring remediation of releases of those PFAS into the environment.

**Water Affordability, Transparency, Equity, and Reliability Act of 2023 (WATER) Act Rep. Bonnie Watson Coleman (D-NJ) ([H.R.1729](#))**

**Status:** 04/25/2023 – Referred to the Subcommittee on Commodity Markets, Digital Assets, and Rural Development.

**Summary:** The legislation would assist communities in securing access to clean and reliable drinking water. The bill also contains provisions to combat PFAS and provide grants for low-income communities struggling with unaffordable water bills.

**Water Access Act ([H.R.5793](#)) Rep. Debbie Dingell (D-MI)**

**Status:** 09/28/2023 – Referred to the House Committee on Appropriations.

**Summary:** This bill would appropriate \$500 million to LIHWAP under sec. 2912 of the American Rescue Plan Act of 2021, for fiscal year 2024.

**Canal Conveyance Capacity Restoration Act ([S.2161/H.R.2419](#)) Late Sen. Dianne Feinstein (D-CA)/Rep. Jim Costa (D-CA)**

**Status:** Senate – 07/19/2023 Considered in Energy and Natural Resources Committee Water and Power Subcommittee hearing. House – 05/08/2023 Referred to the Subcommittee on Water, Wildlife, and Fisheries.

**Summary:** This bill would authorize a one-third federal cost share for restoring canal capacity. Additionally, the bill would authorize over \$833 million for restoration efforts at the Friant-Kern Canal, Delta Mendota Canal, California Aqueduct, and San Joaquin River.

**Preserving Choice in Vehicle Purchase Act ([H.R.1435](#)) Rep. John Joyce (R-PA)**

**Status:** 09/18/2023 – Received in the Senate and Read twice and referred to the Committee on Environment and Public Works.

**Summary:** This bill would block the U.S. Environmental Agency from giving California a waiver to “limit the sale or use of new motor vehicles with internal combustion engines.” It would do so by modifying the waiver process under the Clean Air Act related to state emission control standards for new motor vehicles.

**Flood Prevention and Snowpack Management Act ([H.R.4247](#)) Rep. Josh Harder (D-CA)**

**Status:** 06/22/2023 – Referred to the Subcommittee on Water Resources and Environment

**Summary:** This legislation would create a task force to monitor California snowpack and flood mitigation. The task force would be established by the Secretary of the Army, acting through the Chief of Engineers, and led by representatives in Congress and Federal agencies.

**Water Systems PFAS Liability Protection Act ([S.1430](#)) Sen. Cynthia Lummis (R-WY)**

**Status:** 05/03/2023 – Read twice and referred to the Committee on Environment and Public Works.

**Summary:** To exempt water systems from liability costs that would stem from EPA’s proposed rule to designate PFOA and PFOS as hazardous substances under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).

**Working to Advance Tangible and Effective Reforms (WATER) for California Act ([H.R.215](#)) Rep. David Valadao (R-CA)**

**Status:** 04/28/2023 – Ordered to be Reported (Amended) by the Yeas and Nays: 22 - 17.

Included in the House Appropriations Energy and Water Subcommittee appropriations bill.

**Summary:** This bill would require the Central Valley Project and State Water Project promote more water deliveries to farmers under a 2019 Trump-era biological opinion. This legislation would also reauthorize the surface water storage project program and operations of the Central Valley and State Water Projects created in the WIIN Act.

**Water Supply Permitting Coordination Act ([H.R.186](#)) Rep. Tom McClintock (R-CA)**

**Status:** 02/21/2023 – Referred to the Subcommittee on Water, Wildlife, and Fisheries. Included in House Energy & Water Appropriations bill.

**Summary:** This legislation would establish a framework for federal agencies that hold permitting authority to coordinate reservoir construction work and make public the construction schedules, data, and technical materials to prevent delays and create more water supply.

**Water System Threat Preparedness and Resilience Act of 2023 ([H.R.1367/S.660](#)) Rep. Janice Schakowsky (D-IL)/Sen. Edward Markey (D-MA)**

**Status:** Senate – 03/06/2023 – Read twice and referred to the Committee on Environment and Public Works. House – 03/10/2023 Referred to the Subcommittee on Environment, Manufacturing, and Critical Materials.

**Summary:** The legislation would provide funding for water utilities to join the Water Information Sharing and Analysis Center (WaterISAC) to gain access to critical information and practices to protect and mitigate cyber threats.

**Restoring WIFIA Eligibility Act ([H.R.2671](#)) Rep. Jim Costa (D-CA)**

**Status:** 04/19/2023 – Referred to the Subcommittee on Water Resources and Environment.

**Summary:** This bill would amend the Water Infrastructure Finance and Innovation Act of 2014 (WIFIA) to clarify that federally-owned infrastructure projects managed by non-federal entities are eligible for WIFIA funding.

**Protect Our Water Rights Act ([H.R.289](#)) Rep. Doug LaMalfa (R-CA)**

**Status:** 02/21/2023 – Referred to the Subcommittee on Water, Wildlife, and Fisheries.

**Summary:** To mandate contract water deliveries of the Central Valley Project and Klamath River Basin Reclamation Project by the Bureau of Reclamation in normal precipitation years and guarantee additional water in dry years.

**Water Quality and Environmental Innovation Act ([H.R.873](#)) Rep. Byron Donalds (R-FL)**

**Status:** 02/17/2023 – Referred to the Subcommittee on Environment, Manufacturing, and Critical Materials.

**Summary:** To authorize the Administrator of the Environmental Protection Agency to award grants and contracts for projects that use emerging technologies to address threats to water quality.

**California Water Infrastructure Act ([H.R. 1181](#)) Rep. John Garamendi (D-CA)**

**Status:** 02/27/2023 – Referred to the Subcommittee on Water Resources and Environment.

**Summary:** This bill would assist in expediting U.S. Bureau of Reclamation water projects by accepting alternative environmental reviews conducted under state laws, such as the California Environmental Quality Act, in place of federal reviews under the National Environmental Policy Act.

**Federally Integrated Species Health (FISH) Act ([H.R.872](#)) Rep. Ken Calvert (R-CA)**

**Status:** 02/21/2023 – Referred to the Subcommittee on Water, Wildlife, and Fisheries.

**Summary:** This legislation would eliminate the National Oceanic and Atmospheric Administration (NOAA) Fisheries' oversight role in regulating salmon and other fish under the Endangered Species Act and designate the Fish and Wildlife Life Service (FWS) as the sole regulatory authority.

**Open Access Evapotranspiration Data Act ([H.R.2429/S.1118](#)) Rep. Susie Lee (D-NV)/Sen. Catherine Cortez Masto (D-NV)**

**Status:** Senate - 04/09/2024 Placed on Senate Legislative Calendar under General Orders. Calendar No. 355

House – 05/08/2023 Referred to the Subcommittee on Water, Wildlife, and Fisheries.

**Summary:** This bill would create a program within the Department of the Interior to share public data on estimates of evapotranspiration from satellites and weather stations with water managers

**To amend the Federal Water Pollution Control Act with respect to permitting terms. ([H.R.1181](#)) Rep. John Garamendi (D-CA)**

**Status:** 2/27/2023 – Referred to Subcommittee on Water Resources and Environment

**Summary:** This bill would extend National Pollution Discharge Elimination System permits from 5 years to 10 years.

**Stop the Delta Tunnel Act ([H.R.924](#)) Rep. Josh Harder (D-CA)**

**Status:** 02/10/2023 – Referred to the Subcommittee on Water Resources and Environment.

**Summary:** This bill would prohibit the Army Corps of Engineers from issuing a federal permit necessary for the State of California to build the Delta Conveyance Project, commonly known as the Delta Tunnel.

**([H.J.Res.27/S.J.Res.7](#)) Rep. Sam Graves (R-MO)/Sen. Shelly Moore Capito (R-WV)**

**Status:** House - 04/18/2023 – The Chair directed the Clerk to notify the Senate of the action of the House.

Senate - 02/13/2023 Star Print ordered on the joint resolution.

**Summary:** A joint resolution providing for congressional disapproval under chapter 8 of title 5, United States Code, of the rule submitted by the Department of the Army, Corps of Engineers, Department of Defense, and the Environmental Protection Agency relating to "Revised Definition of 'Waters of the United States'"

**Clean Water Allotment Modernization Act of 2023 ([S.115/H.R.3167](#)) Sen. Marco Rubio (R-FL)**

**Status:** Senate – 01/26/2023 Read twice and referred to the Committee on Environment and Public Works.

House - 05/10/2023 Referred to the Subcommittee on Water Resources and Environment.

**Summary:** A bill to revamp the 36-year-old formula used by the federal government to allocate the clean water state revolving fund allocation among states. It would require the Environmental Protection Agency to regularly update how funding allocations are based.

**Veterans Exposed to Toxic PFAS Act ([H.R.4249/S.2294](#)) Rep. Dan Kildee (D-MI)/Sen. Debbie Stabenow (D-MI)**

**Status:** Senate – 07/13/2023 Read twice and referred to the Committee on Veterans' Affairs.

House – 08/08/2023 Referred to the Subcommittee on Health.

**Summary:** This bill provides eligibility for Department of Veterans Affairs hospital care and medical services to veterans and their family members (including those in utero) who have specified conditions and resided at a military installation where individuals were exposed to perfluoroalkyl and polyfluoroalkyl substances, commonly known as PFAS. PFAS are man-made and may have adverse human health effects.

**Wildfire Response and Drought Resiliency Act ([H.R. 5118](#)) Rep. Joe Neguse (D-CO)**

**Status:** Passed house (218-199) 07/29/2022. Received in the Senate 08/02/2022.

**Summary:** A legislative package that includes over 40 bills that would authorize billions of dollars in federal funding for the Departments of Interior and Agriculture for implementation of forest management, water, and climate programs. It would also expand federal disaster relief assistance and research efforts on effects of wildfire on public health, and programs to improve water efficiency and conservation in tribal and low-income communities.

**Controlling America's Perilous Spending (CAPS) Act ([H.R. 9032](#)) Rep. Jodey Arrington (R-TX)**

**Status:** 09/29/2022 – Referred to the Budget and Rules Committees.

**Summary:** This bill would amend the Balanced Budget and Emergency Deficit Control Act of 1985 to extend the discretionary spending limits through fiscal year 2032.

**To include water supply and water conservation as a primary mission of the Corps of Engineers**

**([H.R. 7065](#)) Rep. Grace Napolitano (D-CA)**

**Status:** 01/22/2024 Referred to the House Committee on Transportation and Infrastructure.

**Summary:** This bill would include water supply and water conservation as a primary mission of the Corps of Engineers in planning, designing, constructing, modifying, operating, and maintaining water resources development projects.

**Clean Water SRF Parity Act ([H.R.250](#)) Rep. John Garamendi (D-CA)**

**Status:** 02/01/2023 – Referred to the Subcommittee on Water Resources and Environment.

**Summary:** A bill to expand the state revolving fund established under the Clean Water Act, including by allowing low-interest loans to be given to privately owned treatment works to address wastewater. Currently, loans are given to wastewater systems that are publicly owned.

**PFAS Action Act of 2023 ([H.R.6805](#)) Rep. Debbie Dingell (D-MI)**

**Status:** House - 01/02/2024 Referred to the Subcommittee on Water Resources and Environment

**Summary:** To require the Administrator of the Environmental Protection Agency to designate per- and polyfluoroalkyl substances as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980.

**Water Affordability, Transparency, Equity, and Reliability Act of 2023 ([S.938](#)) Sen. Bernard Sanders (I-VT)**

**Status:** Senate - 03/22/2023 Read twice and referred to the Committee on Finance.

**Summary:** This bill increases funding for water infrastructure to control water pollution or protected drinking water. In addition, the bill revises requirements concerning the clean water state revolving fund (SRF) and the drinking water SRF. It also creates or reauthorizes several grant programs related to water infrastructure, such as grants for removing lead from drinking water.

**Water Conservation Rebate Parity Act (HR \_\_\_\_\_) Representative Jared Huffman (D-CA)(tent.)**

**Status:** not yet introduced

**Summary:** This proposed legislation would provide tax incentives and rebates for water efficiency activities.

*Dedicated to  
Satisfying our Community's  
Water Needs*

## MEMORANDUM

TO: Board of Directors  
FROM: Stacy Taylor, Water Policy Manager  
DATE: April 24, 2024  
SUBJECT: State Advocacy Update

---

### RECOMMENDATION

Receive and file the State Advocacy Update.

### STRATEGIC PLAN

Goal #7: Actively participate in regional and statewide water issues.

### PRIOR BOARD ACTION/DISCUSSION

This item is provided monthly at a Mesa Water District (Mesa Water®) Board of Directors meeting.

### DISCUSSION

Attached are the State Advocacy Report and the list of State legislation that Mesa Water is tracking.

### FINANCIAL IMPACT

In Fiscal Year 2024, \$475,000 is budgeted for Water Policy Support Services; \$349,215 has been spent to date.

### ATTACHMENTS

Attachment A: State Advocacy Report  
Attachment B: State Legislative Status Report

April 16, 2024

To: Stacy Taylor, Mesa Water District

From: Dennis Albiani, Annalee Augustine, California Advocates

Subject: April 2024 Report

---

April is one of the busiest months in the State Capitol, as members present and vote on hundreds of new bills in the first round of policy committee hearings. This year there has also been significant action on the budget in April, as the Governor, Senate Pro Tem, and Assembly Speaker all agreed to early budget action to implement many of the Governor's suggested balancing actions to offset the looming deficit. Specifically related to water and natural resources, this plan reduces forecast-informed reservoir operations funding by \$6.8 million, reduces watershed climate resilience funding by \$206.5 million of \$494.5 million total, and loans \$200.6 million from the Underground Storage Tank Cleanup fund to the General Fund. A summary by the Assembly Budget Committee can be found [HERE](#) and the Senate Budget Committee [HERE](#).

The Secretary of State certified election results on April 12. To note for Mesa Water District's service area, incumbent Assemblywoman Cottie Petrie-Norris (AD 73) lead her election with 56% of the vote and will be on the November ballot. Senator Min, currently representing SD 37, received the 25.9% of the votes for the state's 47<sup>th</sup> congressional district and will be heading to the November ballot for that seat, which also encompassed Mesa Water District's service area and is currently represented by Representative Katie Porter. Due to redistricting of the state Senate seats, Senator Josh Newman of Fullerton, the current Senator for SD 29 is now one of the candidates and received the highest amount of votes for SD 37. Former Assemblymember Steve Choi, of Irvine, received 21.7% of the votes which is the second highest, so he will also be on the November ballot. Proposition 1, the Mental Health Bond, also passed by a thin margin of 50.2% to 49.8%. These results have influenced discussions about a climate change and water infrastructure bond, which we continue to prioritize for Mesa Water District.

California Advocates has continued to meet with Mesa Water District staff and clarify 2024 priorities. We look forward to continuing to work together, and please do not hesitate to reach out at any time if there are any questions.

## Key Bills

As this report is submitted there are 68 bills CalAd is tracking with either a position or on Mesa Water District's "Key Watch" list which we are monitoring closely and over 200 bills we are tracking for Mesa Water District. Below is a list of key bills with positions taken by Mesa Water District.

### Misc.

**SB 366 (Caballero) The California Water Plan: long-term supply targets** would establish long-term water supply targets for the State to achieve, require a financing plan, and would update the requirement that state agencies develop a plan to achieve those targets, in consultation with local water agencies, wastewater service providers and other stakeholders.

**Status: Two-year bill.**

**Position: Support**

**AB 2257 (Wilson) Local government: property-related water and sewer fees and assessments: remedies** would prohibit an entity from bringing a judicial challenge to Proposition 218 unless that entity has timely submitted to the local agency a written objection to that fee or assessment that specifies the grounds for challenging before the agency takes action. The bill further determines that local agency responses to the timely submitted written objections shall go to the weight of the evidence supporting the agency's compliance on fees and rates imposed the agency. The bill also prohibits an independent cause of action as to the adequacy of the local agency's responses.

**Status: Passed Assembly Judiciary Committee on March 19. Opposition testimony was led by Howard Jarvis Taxpayers Association, and Assemblywoman Reyes was the only member to ask questions and raise concerns.**

*This bill is sponsored by ACWA.*

**AB 2626 (Dixon) Advanced Clean Fleets regulations: local governments** would extend the compliance dates for local government set forth in the Advanced Clean Fleets Regulation by 10 years.

**Status: Referred to the Committees on Transportation and Natural Resources.**

**Position: Support**

### Water and Climate Infrastructure Bonds

There are four bond measures to add funding for water and climate change related infrastructure ranging from \$4.5 billion to \$16 billion with varied amounts for groundwater, regional watershed resilience, water conservation, and more. It is expected that one of these measures will be on the ballot for California voters in November 2024.

**AB 305 (Villapudua D) California Flood Protection Bond Act of 2024** would authorize the issuance of bonds in the amount of \$4,500,000,000 pursuant to the State General Obligation Bond Law for flood protection projects, as specified.

**Status: Two-year bill.**

**AB 1567 (Garcia) Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2023** would authorize the issuance of bonds in the amount of \$15,995,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, wildfire prevention, drought preparation, flood protection, extreme heat mitigation, clean energy, and workforce development programs.

**Status: Two-year bill.**

**SB 638 (Eggman) Climate Resiliency and Flood Protection Bond Act of 2024** would authorize the issuance of bonds in the amount of \$6,000,000,000 pursuant to the State General Obligation Bond Law, for flood protection and climate resiliency projects.

**Status: Two-year bill.**

**SB 867 (Allen) Drought and Water Resilience, Wildfire and Forest Resilience, Coastal Resilience, Extreme Heat Mitigation, Biodiversity and Nature-Based Climate Solutions, Climate Smart Agriculture, and Park Creation and Outdoor Access Bond Act of 2023** would authorize the issuance of bonds in the amount of \$15,500,000,000 pursuant to the State General Obligation Bond Law to finance projects for drought, flood, and water resilience, wildfire and forest resilience, coastal resilience, extreme heat mitigation, biodiversity and nature-based climate solutions, climate smart agriculture, park creation and outdoor access, and clean energy programs.

**Status: Two-year bill.**

## **Regulatory**

### **Advanced Clean Fleets – AB 1594 Implementation**

March 25, CARB held the first workshop to address amendments to the Advanced Clean Fleets regulation (ACF) as required by [AB 1594 \(Garcia\) Medium- and heavy-duty zero-emission vehicles: public agency utilities](#). These amendments would more fully consider public agency utility fleet needs. CARB proposes to affirm which “traditional utility-specialized vehicles” are eligible for consideration under AB 1594, re-evaluate the 13-year minimum useful life threshold used to determine exemption eligibility under ACF, and expand the existing daily use exemption to allow for more comprehensive usage data plans. More information can be found [HERE](#).

### **Rulemaking to Make Conservation a California Way of Life**

March 12, the State Water Board released a [Notice of Public Availability of Changes to the Proposed Regulation regarding Making Conservation a California Way of Life](#). Written comments on the updated proposed text were due March 27. On March 20, the State Water Board held a Board Workshop to receive oral comments and on March 25, the Board held a staff workshop and question and answer session. Please find the [revised draft and more information from the SWRCB HERE](#).

### **Hexavalent Chromium Maximum Contaminant Level**

April 17, the State Water Board will consider adopting a Maximum Contaminant Level for Hexavalent Chromium and certifying final Environmental Impact Report during its regular Board Meeting. The proposed Cr(VI) MCL is 0.010 milligrams per liter (mg/L) (or 10 parts per billion). Please find additional information including the [proposed regulatory text](#) from the SWRCB [HERE](#).

### **Regulation Rulemaking on the Model Water Efficient Landscape Ordinance (MWELO)**

March 18, DWR announced [proposed amendments](#) to the Model Water Efficient Landscape Ordinance (MWELO), which provides a standard for the design, installation, management, and maintenance of landscapes to use water efficiently without water waste. The intent of the proposed amendments is to simplify and clarify requirements. More information can be found [HERE](#).

## **California Advocates, Inc. Activity Report**

- Reviewed Mesa Water’s 2024 final Policy Platforms and Policy Positions.
- Obtained letters of support from Assemblywoman Petrie-Norris and Senator Min for Federal Appropriations funding for the “Cohort Pipeline,” Mainline Valve,” and “Cybersecurity” projects.
- Communicated with State Water Resources Control Board staff to schedule meetings regarding Water Use Efficiency Regulations.
- Attended ACWA SLC meetings.
- Participated in SB 366 (Caballero) support coalition meeting to discuss next steps and scheduling meetings with members to advocate in support.
- Followed up with stakeholders and legislative staff regarding legislation, budget, and regulatory inquiries.
- Reviewed all bills, identified priorities, and in process of reviewing bills with staff.
- Monitored Senate and Assembly budget subcommittee hearings with the Department of Water Resources and the State Water Board where they address aspects of the state budget relevant for Mesa Water.

## **Important Dates and Deadlines for 2024**

### **April**

April 26 Last day for policy committees to hear and report fiscal bills to fiscal committees introduced in their house.

### **May**

May 3 Last day for policy committees to hear and report non-fiscal bills introduced in their house to the floor.

May 10 Last day for policy committees to meet prior to May 28

May 14 Governor Newsom’s deadline to present a revised budget, based on updated revenue estimates.

May 17 Last day for fiscal committees to meet prior to May 28  
May 24 Last day for each house to pass bills introduced in that house.

**June**

June 15 Legislative Budget Bill must be passed by midnight.  
June 27 Last day for a legislative measure to qualify for the November 5 General Election ballot.

## Mesa Water District - Active Legislative Status Report as of 4/16/2024

### Support

**[AB 788](#)** (**[Petrie-Norris D](#)**) **Fire prevention: grant programs: reporting.** (Amended: 7/13/2023 [html](#) [pdf](#))  
**Status:** 9/1/2023-Failed Deadline pursuant to Rule 61(a)(11). (Last location was APPR. SUSPENSE FILE on 8/14/2023)(May be acted upon Jan 2024)  
**Location:** 9/1/2023-S. 2 YEAR  
**Summary:** Existing law requires the Wildfire and Forest Resilience Task Force to develop a comprehensive implementation strategy to track and ensure the achievement of the goals and key actions identified in the state's "Wildfire and Forest Resilience Action Plan" issued by the task force in January 2021. Existing law requires the task force to submit, as part of the implementation strategy, a report to the appropriate policy and budget committees of the Legislature on progress made in achieving the goals and key actions identified in the state's action plan, on state expenditures made to implement these key actions, and on additional resources and policy changes needed to achieve these goals and key actions, as provided. This bill would require the task force, on or before July 1, 2024, and annually thereafter, to compile and post on its internet website specified information relating to specified state and federal grant programs relating to fire prevention, as provided.  
**Position**  
Support

**[AB 2626](#)** (**[Dixon R](#)**) **Advanced Clean Fleets regulations: local governments.** (Introduced: 2/14/2024 [html](#) [pdf](#))  
**Status:** 3/4/2024-Referred to Coms. on TRANS. and NAT. RES.  
**Location:** 3/4/2024-A. TRANS.  
**Summary:** Existing law requires the State Air Resources Board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution that the state board has found necessary, cost effective, and technologically feasible. The California Global Warming Solutions Act of 2006 establishes the state board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases and requires the state board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions from those sources. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-emission vehicles. The Advanced Clean Fleets Regulation authorizes entities subject to the regulation to apply for exemptions from its requirements under certain circumstances. This bill would extend the compliance dates for local government set forth in the Advanced Clean Fleets Regulation by 10 years. The bill would prohibit the state board from taking enforcement action against a local government for violating the Advanced Clean Fleets Regulation if the alleged violation occurs before January 1, 2025. This bill contains other existing laws.

**[SB 366](#) (Caballero D) The California Water Plan: long-term supply targets.** (Amended: 4/8/2024 [html](#) [pdf](#))

**Status:** 4/8/2024-From committee with author's amendments. Read second time and amended. Re-referred to Com. on W., P., & W.

**Location:** 6/8/2023-A. W.,P. & W.

**Summary:** Existing law requires the Department of Water Resources to update every 5 years the plan for the orderly and coordinated control, protection, conservation, development, and use of the water resources of the state, which is known as "The California Water Plan." Existing law requires the department to include a discussion of various strategies in the plan update, including, but not limited to, strategies relating to the development of new water storage facilities, water conservation, water recycling, desalination, conjunctive use, water transfers, and alternative pricing policies that may be pursued in order to meet the future needs of the state. Existing law requires the department to establish an advisory committee to assist the department in updating the plan. This bill would revise and recast certain provisions regarding The California Water Plan to, among other things, require the department to instead establish a stakeholder advisory committee and to expand the membership of the committee to include tribes, labor, and environmental justice interests. The bill would require the department to coordinate with the California Water Commission, the State Water Resources Control Board, other state and federal agencies as appropriate, and the stakeholder advisory committee to develop a comprehensive plan for addressing the state's water needs and meeting specified long-term water supply targets established by the bill for purposes of The California Water Plan. The bill would require the plan to provide recommendations and strategies to ensure enough water supply for all designated beneficial uses. The bill would require the plan to include specified components, including a discussion of various strategies that may be pursued in order to meet the water supply targets, a discussion of agricultural water needs, and an analysis of the costs and benefits of achieving the water supply targets. The bill would require the department to submit to the Legislature an annual report between updates to the plan that includes progress made toward meeting the water supply targets once established, as specified. The bill would also require the department to conduct public workshops to give interested parties an opportunity to comment on the plan and to post the preliminary draft of the plan on the department's internet website.

**[AB 1567](#) (Garcia D) Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, Clean Energy, and Workforce Development Bond Act of 2024.**

(Amended: 5/26/2023 [html](#) [pdf](#))

**Status:** 6/14/2023-Referred to Coms. on N.R. & W. and GOV. & F.

**Location:** 6/14/2023-S. N.R. & W.

**Summary:** The California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access For All Act of 2018, approved by the voters as Proposition 68 at the June 5, 2018, statewide primary election, authorizes the issuance of bonds in the amount of \$4,100,000,000 pursuant to the State General Obligation Bond Law to finance a drought, water, parks, climate, coastal protection, and outdoor access for all program. Article XVI of the California Constitution requires measures authorizing general obligation bonds to specify the single object or work to be funded by the bonds and further requires a bond act to be approved by a 2/3 vote of each house of the Legislature and a majority of the voters. This bill would enact the Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, Clean Energy, and Workforce Development Bond Act of 2024, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$15,995,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, wildfire prevention, drought preparation, flood protection, extreme heat mitigation, clean energy, and workforce development programs. This bill contains other related provisions.

**Status:** 7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 6/7/2023)(May be acted upon Jan 2024)

**Location:** 7/14/2023-S. 2 YEAR

**Summary:** Existing law authorizes the State Water Resources Control Board to investigate all streams, stream systems, lakes, or other bodies of water, take testimony relating to the rights to water or the use of water, and ascertain whether water filed upon or attempted to be appropriated is appropriated under the laws of the state. Existing law requires the board to take appropriate actions to prevent waste or the unreasonable use of water. This bill would authorize the board, in conducting specified investigations or proceedings to inspect the property or facilities of a person or entity, as specified. The bill would authorize the board, if consent is denied for an inspection, to obtain an inspection warrant, as specified, or in the event of an emergency affecting public health and safety, to conduct an inspection without consent or a warrant. Because the willful refusal of an inspection lawfully authorized by an inspection warrant is a misdemeanor, this bill would impose a state-mandated local program by expanding the application of a crime. This bill contains other related provisions and other existing laws.

**Location:** 9/1/2023-S. 2 YEAR

**Summary:** Existing law, the Urban Water Management Planning Act, requires every public and private urban water supplier that directly or indirectly provides water for municipal purposes to prepare and adopt an urban water management plan. Existing law requires an urban water management plan to quantify past, current, and projected water use, identifying the uses among water use sectors, including, among others, commercial, agricultural, and industrial. Existing law requires every urban water supplier to prepare and adopt a water shortage contingency plan as part of its urban water management plan. Existing law requires the water shortage contingency plan to include the procedures used in conducting an annual water supply and demand assessment, including the key data inputs and assessment methodology used to evaluate the urban water supplier's water supply reliability for the current year and one dry year. Existing law requires the key data inputs and assessment methodology to include specified information, including, among other things, a description and quantification of each source of water supply. This bill would require a water shortage contingency plan to include, if, based on a description and quantification of each source of water supply, a single reservoir constitutes at least 50% of the total water supply, an identification of the dam and description of existing reservoir management operations, as specified, and if the reservoir is owned and operated by the urban water supplier, a description of operational practices and approaches, as specified. This bill contains other related provisions and other existing laws.

**(Pacheco D) Open meetings: teleconferencing: subsidiary body.** (Amended: 1/17/2024 [html](#) [pdf](#))

**Status:** 1/25/2024-Read third time. Passed. Ordered to the Senate. (Ayes 54. Noes 8.) In Senate. Read first time. To Com. on RLS. for assignment.

**Location:** 1/25/2024-S. RLS.

**Summary:** Existing law, the Ralph M. Brown Act, requires, with specified exceptions, each legislative body of a local agency to provide notice of the time and place for its regular meetings and an agenda containing a brief general description of each item of business to be transacted. The act also requires that all meetings of a legislative body be open and public, and that all persons be permitted to attend unless a closed session is authorized. The act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Existing law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. Existing law authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency (emergency provisions) and, until January 1, 2026, in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met (nonemergency provisions). Existing law imposes different requirements for notice, agenda, and public participation, as prescribed, when a legislative body is using alternate teleconferencing provisions. The nonemergency provisions impose restrictions

on remote participation by a member of the legislative body and require the legislative body to specific means by which the public may remotely hear and visually observe the meeting. This bill, until January 1, 2026, would authorize a subsidiary body, as defined, to use similar alternative teleconferencing provisions and would impose requirements for notice, agenda, and public participation, as prescribed. In order to use teleconferencing pursuant to this act, the bill would require the legislative body that established the subsidiary body by charter, ordinance, resolution, or other formal action to make specified findings by majority vote, before the subsidiary body uses teleconferencing for the first time and every 12 months thereafter. This bill contains other related provisions and other existing laws.

**Location:** 1/29/2024-S. RLS.

**Summary:** The Porter-Cologne Water Quality Control Act (act) designates the State Water Resources Control Board and the California regional water quality control boards as the principal state agencies with authority over matters relating to water quality. The act requires the state board and the regional boards to, among other things, coordinate their respective activities to achieve a unified and effective water quality control program in the state. Under existing law, the state board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal National Pollutant Discharge Elimination System (NPDES) permit program established by the federal Clean Water Act and the act. This bill would require the regional water board, defined to mean the regional water board with geographic boundaries for the San Francisco Bay region, to, by July 1, 2025, initiate modifications to its waste discharge requirements, as specified. The bill would require these modifications to be completed within 6 months of initiation. Before finalizing the modifications, the bill would require the regional water board to make specified findings, including, among other things, that concerns regarding the potential impacts of the draft NPDES permit requirements on the development of housing on infill sites have been adequately addressed. The bill would make these provisions inoperative on July 1, 2028, and would repeal them on January 1, 2029. This bill contains other related provisions.

**[AB 1573](#) (Friedman D) Water conservation: landscape design: model ordinance. (Amended: 9/1/2023 [html](#) [pdf](#))**

**Status:** 9/14/2023-Failed Deadline pursuant to Rule 61(a)(14). (Last location was INACTIVE FILE on 9/7/2023)(May be acted upon Jan 2024)

**Location:** 9/14/2023-S. 2 YEAR

**Summary:** The Water Conservation in Landscaping Act provides for a Model Water Efficient Landscape Ordinance that is adopted and updated at least every 3 years by the Department of Water Resources, unless the department makes a specified finding. Existing law requires a local agency to adopt the model ordinance or to adopt a water efficient landscape ordinance that is at least as effective in conserving water as the updated model ordinance, except as specified. Existing law specifies the provisions of the updated model ordinance, as provided. Existing law includes a related statement of legislative findings and declarations. This bill would require the updated model ordinance to include provisions that require that plants included in a landscape design plan be selected based on their adaptability to climatic, geological, and topographical conditions of the project site, as specified. The bill would also exempt landscaping that is part of a culturally specific project, as defined, ecological restoration projects that do not require a permanent irrigation system, mined-land reclamation projects that do not require a permanent irrigation system, and existing plant collections, as part of botanical gardens and arboretums open to the public, from the model ordinance. The bill would require the updated model ordinance to include provisions that, among other changes, prohibit the use of traditional overhead sprinklers on all new and rehabilitated landscapes and require that new and

rehabilitated landscapes use only water efficient irrigation devices. The bill would also require the model ordinance, at the next update initiated after January 1, 2029, to require that all new or renovated nonresidential areas install in the project footprint not less than 10% California native plants, as provided, and to prohibit the inclusion of nonfunctional turf in nonresidential landscape projects. The bill would make other clarifying changes to the updated model ordinance. The bill would also revise the legislative findings and declarations to state, among other things, that the model ordinance furthers the state's goal to conserve biodiversity and provide for climate resilience consistent with state drought efforts to eliminate the use of irrigation of nonfunctional turf. This bill contains other related provisions and other existing laws.

**[AB 1784](#) (Pellerin D) Primary elections: candidate withdrawals.** (Amended: 4/11/2024 [html](#) [pdf](#))

**Status:** 4/15/2024-Re-referred to Com. on APPR.

**Location:** 4/10/2024-A. APPR.

**Summary:** Existing law requires candidates for an office at a primary election to deliver their nomination documents to the county elections official no later than 5 p.m. on the 88th day before the primary election, or in specified cases, no later than 5 p.m. on the 83rd day before the primary election. Existing law prohibits a person who has delivered nomination documents to the county elections official from withdrawing their candidacy. Existing law further prohibits a person from filing nomination documents for a party nomination and an independent nomination for the same office, or for more than one office at the same election. This bill would permit a candidate for an office at a primary election to withdraw their nomination documents for that office during the applicable filing period. The bill would establish requirements for withdrawal, including that the candidate submit a statement under penalty of perjury that they are withdrawing their nomination documents and understand the withdrawal is irrevocable. The bill would permit a candidate who withdraws to file nomination documents for another office at that primary election during the applicable filing period. The bill would clarify that a candidate is prohibited from filing nomination documents for more than one office at the same primary election, except as specified. If an incumbent has delivered but then withdrawn their nomination documents before 5 p.m. on the 88th day before the primary election, the bill would authorize another candidate to deliver their nomination documents no later than 5 p.m. on the 83rd day before the primary election. This bill contains other related provisions and other existing laws.

**Status:** 4/15/2024-Read second time and amended.

**Location:** 4/10/2024-A. L. GOV.

**Summary:** Existing law requires a city or county to deem an applicant for a housing development project to have submitted a preliminary application upon providing specified information about the proposed project to the city or county from which approval for the project is being sought. Existing law requires a housing development project be subject only to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted. This bill would authorize a development proponent that submits a preliminary application for a housing development project to request a preliminary fee and exaction estimate, as defined, and would require the local agency to provide the estimate within 20 business days of the submission of the preliminary application. For development fees imposed by an agency other than a city or county, the bill would require the development proponent to request the fee schedule from the agency that imposes the fee. This bill contains other related provisions and other existing laws.

(Amended: 4/4/2024 [html](#) [pdf](#))

**Status:** 4/8/2024-Re-referred to Com. on L. GOV.

**Location:** 1/29/2024-A. L. GOV.

**Calendar:** 4/24/2024 1:30 p.m. - State Capitol, Room 447 ASSEMBLY LOCAL GOVERNMENT, CARRILLO, JUAN, Chair

**Summary:** The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency, including requiring that the local agency provide public notice and a majority protest procedure in the case of assessments and submit property-related fees and charges for approval by property owners subject to the fee or charge or the electorate residing in the affected area following a public hearing. Existing law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements and, among other things, authorizes an agency providing water, wastewater, sewer, or refuse collection services to adopt a schedule of fees or

charges authorizing automatic adjustments that pass through increases in wholesale charges for water, sewage treatment, or wastewater treatment or adjustments for inflation under certain circumstances. Existing law defines, among other terms, the term "water" for these purposes to mean any system of public improvements intended to provide for the production, storage, supply, treatment, or distribution of water from any source. This bill would provide that the fees or charges for property-related water service imposed or increased, as specified, may include the incrementally higher costs of water service due to specified factors, including the higher water usage demand of parcels. The bill would provide that the incrementally higher costs of water service associated with higher water usage demands, the maximum potential water use, or projected peak water usage may be allocated using any method that reasonably assesses the water service provider's cost of serving those parcels that are increasing potential water usage demand, maximum potential water use, or projected peak water usage. The bill would declare that these provisions are declaratory of existing law. This bill contains other existing laws.

**[AB 1851](#) (Holden D) Drinking water: schoolsites: lead testing pilot program.** (Amended: 4/8/2024 [html](#) [pdf](#))

**Status:** 4/9/2024-Re-referred to Com. on APPR.

**Location:** 4/4/2024-A. APPR.

**Summary:** Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. The act requires the state board to establish a grant program, in consultation with the State Department of Education, to award grants to local educational agencies for the purposes of improving access to, and the quality of, drinking water in public schools serving kindergarten or any of grades 1 to 12, inclusive, and preschools and child daycare facilities located on public school property. This bill would require the Superintendent of Public Instruction, if an appropriation is made for this purpose, to establish a pilot program to test for and remediate lead contamination in drinking water at participating local educational agency facilities with plumbing that was installed before January 1, 2010. The bill would require the Superintendent to select no fewer than 6 and no more than 10 local educational agencies for participation in the pilot program and, if a selected local educational agency consents to participate in the pilot program, the bill would require the Superintendent to provide grants to the participating local educational agencies for testing and remediating drinking water lead levels at eligible facilities. If sampling results show lead levels in excess of 5 parts per billion for any potable water system outlet, the bill would require a participating local educational agency to notify the parents and guardians of pupils who attend the school of the elevated lead levels, as provided, to take immediate steps to shut down all potable water system outlets where excess lead levels may exist, and to ensure that a lead-free source of drinking water is provided for pupils at each potable water system outlet that has been shut down. This bill contains other related provisions.

**[AB 2257](#) (Wilson D) Local government: property-related water and sewer fees and assessments: remedies.** (Amended: 3/20/2024 [html](#) [pdf](#))

**Status:** 3/21/2024-Re-referred to Com. on L. GOV.

**Location:** 3/19/2024-A. L. GOV.

**Summary:** The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency, including notice, hearing, and protest procedures, depending on the character of the assessment, fee, or charge. Existing law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements. This bill would prohibit, if a local agency complies with specified procedures, a person or entity from bringing a judicial action or proceeding alleging noncompliance with the constitutional provisions for any new, increased, or extended fee or assessment, as defined, unless that person or entity has timely submitted to the local agency a written objection to that fee or assessment that specifies the grounds for alleging noncompliance, as specified. This bill would provide that local agency responses to the timely submitted written objections shall go to the weight of the evidence supporting the agency's compliance with the substantive limitations on fees and assessments imposed by the constitutional provisions. The bill would also prohibit an independent cause of action as to the adequacy of the local agency's responses. This bill would, if the local agency complies with the specified procedures, provide that in any judicial action or proceeding to review, invalidate, challenge, set aside, rescind, void, or annul the fee or assessment for failure to comply with the procedural and substantive requirements of specified constitutional provisions, provisions in the fee or assessment setting process, the court's review is limited to a record of proceedings containing specified documents, except as otherwise provided. The bill would provide that this limitation does not preclude any civil action related to a local agency's failure to implement a fee or assessment in compliance with the manner adopted by the local agency. The bill would make related findings and declarations.

**[AB 2302](#) (Addis D) Open meetings: local agencies: teleconferences.** (Introduced: 2/12/2024 [html](#) [pdf](#))  
**Status:** 4/15/2024-Read second time. Ordered to third reading.  
**Location:** 4/15/2024-A. THIRD READING  
**Calendar:** 4/18/2024 #32 ASSEMBLY THIRD READING FILE - ASSEMBLY BILLS  
**Summary:** Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body, as defined, of a local agency be open and public and that all persons be permitted to attend and participate. The act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Existing law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined. Existing law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in specified circumstances if, during the teleconference meeting, at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the boundaries of the territory over which the local agency exercises jurisdiction, and the legislative body complies with prescribed requirements. Existing law imposes prescribed restrictions on remote participation by a member under these alternative teleconferencing provisions, including establishing limits on the number of meetings a member may participate in solely by teleconference from a remote location, prohibiting such participation for a period of more than 3 consecutive months or 20% of the regular meetings for the local agency within a calendar year, or more than 2 meetings if the legislative body regularly meets fewer than 10 times per calendar year. This bill would revise those limits, instead prohibiting such participation for more than a specified number of meetings per year, based on how frequently the legislative body regularly meets. The bill, for the purpose of counting meetings attended by teleconference, would define a "meeting" as any number of meetings of the legislative body of a local agency that begin on the same calendar day. This bill contains other related provisions and other existing laws.

**[AB 2451](#) (Cervantes D) Public works: prevailing wages.** (Amended: 3/11/2024 [html](#) [pdf](#))  
**Status:** 3/12/2024-Re-referred to Com. on L. & E.  
**Location:** 3/11/2024-A. L. & E.  
**Summary:** Existing law requires, except for public works projects of \$1,000 or less, that workers employed on public works be paid not less than the general prevailing rate of per diem wages for work of a similar character in the locality that the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed, as prescribed. Existing law requires the Director of Industrial Relations to determine the applicable wage rates established by collective bargaining agreements and the rates that may have been predetermined for federal public works, within the locality and in the nearest labor market area. This bill would require the director to use the higher rate when rates arise from collective bargaining agreements that have overlapping crafts or classifications.

**[AB 2489](#) (Ward D) Local agencies: contracts for special services and temporary help.**

(Amended: 3/21/2024 [html](#) [pdf](#))

**Status:** 4/1/2024-Re-referred to Com. on P.E. & R.

**Location:** 3/21/2024-A. P.E. & R.

**Calendar:** 4/17/2024 9 a.m. - State Capitol, Room 444 ASSEMBLY PUBLIC EMPLOYMENT AND RETIREMENT SPECIAL ORDER OF BUSINESS, MCKINNOR, TINA, Chair

**Summary:** Existing law relating to the government of counties authorizes a county board of supervisors to contract for certain types of special services on behalf of the county, any county officer or department, or any district or court in the county. Existing law requires those special services contracts to be with persons who are specially trained, experienced, expert, and competent to perform those services. This bill would require the board or a representative, at least 10 months before beginning a procurement process to contract with persons for special services that are currently, or were in the previous 10 years, performed by employees of the county represented by an employee organization, to notify, in writing, the exclusive employee representative of the workforce affected by the contract of its determination to begin that process. The bill would require persons with whom the board of supervisors enter into a contract for special services to perform functions that are currently, or were in the previous 10 years, performed by employees of the county, any county officer or department, or any district or court in the county represented by an employee organization to use employees who meet or exceed the minimum qualifications and standards required of bargaining unit civil service employees who perform or performed the same job functions, as specified. The bill would also require those persons to provide information to the county sufficient to show that their employees meet the minimum qualifications and standards. The bill would specify that these provisions do not apply to contracts between governmental entities.

**[AB 2533](#) (Carrillo, Juan D) Accessory dwelling units: junior accessory dwelling units: unpermitted developments.**

(Amended: 3/21/2024 [html](#) [pdf](#))

**Status:** 4/15/2024-Assembly Rule 56 suspended. (Pending re-refer to Com. on H. & C.D.)

**Location:** 4/15/2024-A. H. & C.D.

**Calendar:**

4/17/2024 1:30 p.m. - State Capitol, Room 126 ASSEMBLY LOCAL GOVERNMENT, CARRILLO, JUAN, Chair

4/24/2024 9 a.m. - State Capitol, Room 437 ASSEMBLY HOUSING AND COMMUNITY DEVELOPMENT, WARD, CHRISTOPHER, Chair

**Summary:** Existing law, the Planning and Zoning Law, authorizes a local agency, by ordinance or ministerial approval, to provide for the creation of accessory dwelling units in areas zoned for residential use, as specified. Existing law prohibits a local agency from denying a permit for an unpermitted accessory dwelling unit that was constructed before January 1, 2018, because the accessory dwelling unit is in violation of building standards or state or local standards applicable to accessory dwelling units, unless the local agency makes a finding that correcting the violation is necessary to protect the health and safety of the public or the occupants of the structure. Existing law makes those provisions inapplicable to a substandard building, as specified. This bill would instead prohibit a local agency from denying a permit for an unpermitted accessory dwelling unit or junior accessory dwelling unit that was constructed before January 1, 2020, for those violations, unless the local agency makes a finding that correcting the violation is necessary to comply with conditions that would otherwise deem a building substandard. The bill would require a local agency to inform the public about the provisions prohibiting denial of a permit for an unpermitted accessory dwelling unit or junior accessory dwelling unit. The bill would require this information to include a checklist of the conditions that deem a building substandard and to inform homeowners that, before submitting a permit application, the homeowner may obtain a confidential third-party code inspection from a licensed contractor. The bill would prohibit a local agency from requiring a homeowner to pay impact fees or connection or capacity charges to obtain a permit if they provide evidence that they meet specified criteria for low- or moderate-income households. By imposing additional duties on local agencies, the bill would impose a state-mandated local program. The bill would authorize an inspector from a local agency, upon receiving an application for a permit for a previously unpermitted accessory dwelling unit or junior accessory dwelling unit constructed before January 1, 2020, to inspect the unit for compliance with health and safety standards and provide recommendations to comply with health and safety standards. The bill would prohibit the local agency from penalizing an applicant for having the unpermitted accessory dwelling unit and would require the local agency to approve necessary permits to correct noncompliance with health and safety standards.

**Location:** 3/21/2024-A. P.E. & R.

**Calendar:** 4/17/2024 9 a.m. - State Capitol, Room 444 ASSEMBLY PUBLIC EMPLOYMENT AND RETIREMENT SPECIAL ORDER OF BUSINESS, MCKINNOR, TINA, Chair

**Summary:** Existing law relating to the government of counties authorizes a county board of supervisors to contract for certain types of special services on behalf of the county, any county officer or department, or any district or court in the county. Existing law requires those special services contracts to be with persons who are specially trained, experienced, expert, and competent to perform those services. This bill would require each contract for special services to include specific performance standards and requirements. The bill would require the board or a representative, at least 10 months before beginning a procurement process to contract with persons for special services that are currently, or were in the prior 10 years, performed by employees of the county represented by an employee organization, to notify, in writing, the exclusive employee representative of the workforce affected by the contract of its determination to begin that process. The bill would require each person who enters into such a contract with the board of supervisors to submit quarterly performance reports, as prescribed, every 90 days, to the board of supervisors and the exclusive representative of the employee organization. The bill would require the board or its representative to monitor quarterly performance reports to evaluate the quality of services and withhold payments to the contractor under prescribed circumstances, which circumstances the bill would deem to be a breach of contract. The bill would require contract terms exceeding 2 years to undergo a performance audit, as prescribed, by an independent auditor approved by the board to determine whether the performance standards are being met. This bill contains other related provisions and other existing laws.

**Calendar:** 4/16/2024 9:30 a.m. - State Capitol, Room 127 ASSEMBLY JOBS, ECONOMIC DEVELOPMENT, AND THE ECONOMY CONSENT CALENDAR, VILLAPUDUA, CARLOS, Chair

**Summary:** Existing law creates the Governor's Office of Business and Economic Development (GO-Biz) and requires GO-Biz to serve the Governor as the lead entity for economic strategy and the marketing of California on issues relating to business development, private sector investment, and economic growth. Existing law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations through the issuance of a building permit or similar nondiscretionary permit and requires the review of an application to install an electric vehicle charging station to be limited to the building official's review of whether it meets all health and safety requirements of local, state, and federal law. Existing law requires an electric vehicle charging station to comply with, among other things, all applicable rules of the Public Utilities Commission regarding safety and reliability, as specified. This bill would require GO-Biz to create and maintain a publicly accessible internet website that contains a landing page with functionality to collect information and report delays and denials in the permitting of electric vehicle service equipment, as specified. The bill would require GO-Biz to establish a working group to evaluate the data it receives from the internet website and direct the working group to determine recommended solutions to address permitting delays. The bill would require, on or before January 1, 2026, GO-Biz to submit to the Legislature and publish on its internet website a comprehensive report regarding the challenges identified throughout the data collection process, as specified. The bill would also require GO-Biz to establish a permit streamlining specialist to assist authorities having jurisdiction with permit delays and denials related to these provisions.

**Calendar:** 4/17/2024 9 a.m. - State Capitol, Room 444 ASSEMBLY PUBLIC EMPLOYMENT AND RETIREMENT SPECIAL ORDER OF BUSINESS, MCKINNOR, TINA, Chair

**Summary:** Existing law, the Meyers-Milias-Brown Act (act), authorizes local public employees, as defined, to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on matters of labor relations. The act prohibits a public agency from, among other things, imposing or threatening to impose reprisals on employees, discriminating or threatening to discriminate against employees, or otherwise interfering with specified employee rights guaranteed by the act. This bill would require each public agency with bargaining unit vacancy rates exceeding 10% for more than 90 days within the past 180 days to meet and confer with a representative of the recognized employee organization to produce, publish, and implement a plan consisting of specified components to fill all vacant positions within the subsequent 180 days. The bill would require the public agency to present this plan during a public hearing to the governing

legislative body and to publish the plan on its internet website for public review for at least one year. By imposing new duties on local public agencies, the bill would impose a state-mandated local program. The bill would also include findings that changes proposed by this bill address a matter of statewide concern.

**[AB 2592](#) (Grayson D) Local planning: housing elements: water and sewer services.** (Amended: 3/19/2024 [html](#) [pdf](#).)

**Status:** 3/20/2024-Re-referred to Com. on H. & C.D.

**Location:** 3/18/2024-A. H. & C.D.

**Summary:** The Planning and Zoning Law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. Existing law requires a housing element to include an assessment of housing needs and an inventory of resources and constraints relevant to meeting those needs. That law also requires that the housing element adopted by the legislative body of the city, county, or city and county and any amendments made to that element be delivered to all public agencies or private entities that provide water or sewer services, as described, within the territory of the legislative body. Existing law requires each public agency or private entity providing water or sewer services to grant a priority for the provision of these services to proposed developments that include housing units affordable to lower income households. Existing law also requires a public agency or private entity providing water or sewer services to adopt written policies and procedures not later than July 1, 2006, and at least once every 5 years thereafter, with specific objective standards for provision of services, as described. This bill would instead require each public agency or private entity providing water or sewer services to grant a priority for the provision of these services to proposed housing developments, which the bill would define for these purposes to include both housing developments that include units sold or rented to lower income households, as provided in existing law as described above, and housing developments constructed pursuant to specified laws providing for ministerial approval of certain housing developments or subdivision maps. The bill would also update the compliance date to adopt written policies and procedures to July 1, 2025, and continue to require the adoption of those written policies and procedures at least once every 5 years thereafter.

**Location:** 4/10/2024-A. CONSENT CALENDAR

**Calendar:** 4/18/2024 #68 ASSEMBLY CONSENT CALENDAR 2ND DAY-ASSEMBLY BILLS

**Summary:** Existing law requires the State Department of Public Health to establish, maintain, and amend as necessary minimum standards for the sanitation of public beaches, as provided. Existing law requires the health officer, as defined, having jurisdiction over an area in which a public beach is created to do certain things, including, in the event of a known untreated sewage release, immediately test the waters adjacent to the public beach and, in the event an untreated sewage release that is known to have reached recreational waters adjacent to a public beach, immediately close those waters until it has been determined by the local health officer that the waters are in compliance with the standards. This bill would authorize the health officer to meet the requirements described above by using test results from other parties that have conducted microbiological contamination testing of the waters under the health officer's jurisdiction, as provided. This bill contains other existing laws.

**Status:** 4/10/2024-In committee: Set, first hearing. Referred to suspense file.

**Location:** 4/10/2024-A. APPR. SUSPENSE FILE

**Summary:** Existing law requires all local agency officials to receive training in ethics, at specified intervals, if the local agency provides certain monetary payments to a member of a legislative body, as provided. Existing law requires all local agency officials who are members of specified public bodies to receive the above-described training, whether or not the member receives any type of compensation, salary, or stipend or reimbursement for actual and necessary expenses incurred in the performance of official duties. Existing law requires an entity that develops curricula to satisfy the above-described requirements to consult with the Fair Political Practices Commission and the Attorney General regarding the sufficiency and accuracy of the proposed course content. Existing law prohibits the Fair Political Practices Commission and the Attorney General, as specified, from precluding an entity from also including local ethics policies in the curricula. This bill would, contingent upon an appropriation for these purposes, require the Fair Political Practices Commission, in consultation with the Attorney General, to create, maintain, and make available to local agency officials an ethics training course, as specified.

4/22/2024 Upon adjournment of Session - State Capitol, Room 447 ASSEMBLY NATURAL RESOURCES, BRYAN, ISAAC, Chair

**Summary:** Existing law vests the Public Utilities Commission (PUC) with regulatory authority over public utilities. Existing law requires the PUC to adopt a process for each load-serving entity, as defined, to file an integrated resource plan and a schedule for periodic updates to the plan to ensure that it meets, among other things, the state's targets for reducing emissions of greenhouse gases and the requirement to procure at least 60% of its electricity from eligible renewable energy resources by December 31, 2030. Under existing law, after the load-serving entities have updated the integrated resource plans pursuant to the schedule adopted by the PUC, the PUC adopted an aggregated resource portfolio known as the preferred system plan. Existing law establishes an Independent System Operator (ISO) as a nonprofit public benefit corporation, and requires the ISO to ensure the efficient use and reliable operation of the electrical transmission grid consistent with the achievement of planning and operating reserve criteria, as specified. Existing law requires the PUC, in consultation with the State Energy Resources Conservation and Development Commission, to provide, not later than March 31, 2024, transmission-focused guidance to the ISO about resource portfolios of expected future renewable energy resources and zero-carbon resources. Existing law requires the guidance to include the allocation of those resources by region based on technical feasibility and commercial interest in each region. This bill would require the PUC to evaluate the potential for 10,000 to 30,000 megawatts of solar electrical generation located in the Central Valley beyond the amount of solar electrical generation described in the most recently adopted preferred system plan as of January 1, 2025. If the PUC determines that solar electrical generation to be cost effective, the bill would require the PUC to provide, no later than the March 31 immediately following that determination, transmission-focused guidance to the ISO that includes the solar electrical generation in the resource portfolios of expected future renewable energy resources and zero-carbon resources.

**Summary:** Existing law, the Joint Exercise of Powers Act, authorizes 2 or more public agencies, if authorized by their governing bodies, by agreement to jointly exercise any power common to the contracting parties. Existing law authorizes a mutual water company, as defined, to enter into a joint powers agreement with a public agency for these purposes. Existing law authorizes 2 or more local public entities, or a mutual water company and a public agency, to provide insurance, as specified, by a

joint powers agreement. Existing law authorizes local public entities or a mutual water company and a public agency to enter into a joint powers agreement for the purposes of risk-pooling, as specified. This bill would authorize a water corporation, as defined, to enter into a joint powers agreement with a public agency for the purpose of jointly exercising any power common to the contracting parties. The bill would also authorize a water corporation and one or more public agencies to provide insurance, as specified, by a joint powers agreement. The bill would also authorize a water corporation and one or more public agencies to enter into a joint powers agreement for the purposes of risk-pooling, as specified.

**Summary:** Existing law, including statutory provisions and orders of the Industrial Welfare Commission, as enforced by the Division of Labor Standards Enforcement, regulates the wages, hours, and working conditions of employees. Existing law makes it a crime for an employer to require or cause any employee to work for longer hours than those fixed or under conditions of labor prohibited by an order of the commission or to violate or refuse or neglect to comply with specified statutes on wages, hours, and working conditions or any order or ruling of the commission. This bill would require a public or private employer to establish a workplace policy that provides employees the right to disconnect from communications from the employer during nonworking hours, except as specified. The bill would define the "right to disconnect" to mean that, except for an emergency or for scheduling, as defined, an employee has the right to ignore communications from the employer during nonworking hours. The bill would require nonworking hours to be established by written agreement between an employer and employee. The bill would authorize an employee to file a complaint of a pattern of violation of the bill's provisions with the Labor Commissioner, punishable by a specified civil penalty.

**Calendar:** 4/17/2024 9 a.m. - State Capitol, Room 127 ASSEMBLY HOUSING AND COMMUNITY DEVELOPMENT, WARD, CHRISTOPHER, Chair

**Summary:** Existing law, the California Building Standards Law, establishes the California Building Standards Commission within the Department of General Services and sets forth its powers and duties, including approval and adoption of building standards and codification of those standards into the California Building Standards Code. Existing law requires the commission to publish, or cause to be published, editions of the California Building Standards Code in its entirety once every 3 years. Existing law establishes the Building Standards Administration Special Revolving Fund, and makes the moneys in the fund available, upon appropriation, to state entities to carry out various related provisions, as specified. Existing law requires the Department of Housing and Community Development to propose the adoption, amendment, or repeal of building standards to the California Building Standards Commission, and the department to adopt, amend, and repeal other rules and regulations for the protection of the public health, safety, and general welfare of the occupant and the public governing the erection, construction, enlargement, conversion, alteration, repair, moving, removal, demolition, occupancy, use, height, court, area, sanitation, ventilation, and maintenance of all hotels, motels, lodging houses, apartment houses, and dwellings, and buildings and structures accessory thereto, as specified. Existing law authorizes those standards to include voluntary best practice and mandatory requirements related to environmentally preferable water using devices and measures. Existing law requires the department and the commission to research, develop, and propose building standards to reduce potable water use in new residential and nonresidential buildings, including consideration of requiring installation of water reuse systems and consideration of requiring preplumbing of buildings to allow future use of recycled water, onsite treated graywater, or other alternative water sources. This bill would enact the California Multiunit Residential Structure and Mixed-Use Residential and Commercial Structure Water Conservation Act. The bill would state findings and declarations of the Legislature relating to wasted water due to plumbing leaks. The bill would require the commission to research, develop, and propose building standards, including voluntary standards of the California Green Building Standards Code, to reduce water waste in existing and new multiunit residential structures and mixed-use residential and commercial structures, including requiring installation of point-of-use systems, as defined. This bill contains other existing laws.

**Summary:** Existing law establishes the Department of Water Resources within the Natural Resources Agency and prescribes the powers and responsibilities of the department. The Water Conservation in Landscaping Act provides for a model water efficient landscape ordinance that is adopted and updated at least every 3 years by the department, unless the department makes a specified finding. This bill would prohibit the department, when it allocates funding for turf replacement programs, from excluding urban water suppliers' turfgrass conversion rebate programs if the rebate program requires the recipient of a rebate to achieve a net water savings and to use the most efficient turfgrass irrigation equipment, as provided. The bill would require an urban water supplier that offers a turfgrass conversion rebate program using funds awarded by the department after January 1, 2025, to report annually to the department on the number of turfgrass conversions that are funded through the program and the estimated water savings from the program until the funds are exhausted.

**Summary:** Existing law, the Permit Streamlining Act, which is part of the Planning and Zoning Law, requires each public agency to provide a development project applicant with a list that specifies the information that will be required from any applicant for a development project. The act requires a city, county, or special district that has an internet website to make available on its internet website certain information, as applicable, including its current schedule of fees and exactions. This bill would require a city or county that has an internet website to make a fee estimate tool that the public can use to calculate an estimate of fees and exactions, as specified, for a proposed housing development project available on its internet website. The bill authorizes the city or county to choose the format of the fee estimate tool. The bill would require a city or county with a population of greater than 500,000 to meet these requirements on or before July 1, 2031. The bill would require a city or county with a population of 500,000 or less to meet these requirements on or before July 1, 2032. By requiring a city or county to include a fee estimate tool on its internet website, the bill would impose a state-mandated local program.

**Status:** 3/11/2024-Referred to Com. on W., P., & W.

**Location:** 3/11/2024-A. W.,P. & W.

**Calendar:** 4/23/2024 9 a.m. - State Capitol, Room 444 ASSEMBLY WATER, PARKS AND WILDLIFE, PAPAN, DIANE, Chair

**Summary:** Existing law authorizes the State Water Resources Control Board, on and after January 1, 2025, to issue a written notice to an urban retail water supplier that does not meet its urban water use objective. Existing law authorizes the board, on and after January 1, 2026, to issue a conservation order to an urban retail water supplier that does not meet its urban water use objective. This bill would instead provide that the date the board is authorized to issue a written notice to January 1, 2026 and a conservation order to January 1, 2027.

**[AB 3219](#) (Sanchez R) Advanced Clean Fleets Regulation: local governments.** (Amended: 3/11/2024 [html](#)

[pdf](#).)

**Status:** 3/12/2024-Re-referred to Com. on TRANS.

**Location:** 3/11/2024-A. TRANS.

**Summary:** Existing law requires the State Air Resources Board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution that the state board has found necessary, cost effective, and technologically feasible. The California Global Warming Solutions Act of 2006 establishes the state board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases and requires the state board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions from those sources. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-emission vehicles. The Advanced Clean Fleets Regulation authorizes entities subject to the regulation to apply for exemptions from its requirements under certain circumstances. This bill would provide that the requirements of the Advanced Clean Fleets Regulation do not apply to the purchase by a local government of vehicles with a gross vehicle weight rating greater than 8,500 pounds if the price of the zero-emission version of a vehicle is more than an unspecified percentage of the price of a comparable internal combustion engine version of that vehicle. This bill contains other existing laws.

**Summary:** The California Constitution declares that the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, and that the right to the use of water does not extend to the waste or unreasonable use, method of use, or method of diversion of water. This measure would require the Treasurer to annually transfer an amount equal to 1.5% of all state revenues from the General Fund to the California Water Resiliency Trust Fund, which the measure would create. The measure would continuously appropriate moneys in the fund to the California Water Commission for its actual costs of implementing these provisions and for specified water infrastructure projects. The measure would require the California State Auditor to annually conduct a programmatic review and an audit of expenditures from the California Water Resiliency Trust Fund and to report those findings, as specified. The measure would authorize a project funded pursuant to these provisions to elect to be subject to a streamlined review pursuant to the California Environmental Quality Act, as specified. The measure would provide that its provisions are severable and would require the Attorney General to defend against any action challenging the validity of the measure, except as provided.

(Last location was APPR. SUSPENSE FILE on 8/23/2023)(May be acted upon Jan 2024)**Location:** 9/1/2023-A. 2 YEAR

**Summary:** Existing law requires the Department of Water Resources to gather and correlate information and data pertinent to an annual forecast of seasonal water crop. Existing law also requires the department to update every 5 years the plan for the orderly and coordinated control, protection, conservation, development, and use of the water resources of the state, which is known as "The California Water Plan." This bill would require the department, on or before December 31, 2025, to establish a formal process for annually evaluating and improving the accuracy of its water supply forecasts, adopt a new water supply forecasting model that better addresses the effects of climate change, and implement a formal policy and procedures for documenting its operational plans for the state's water supply and its rationale for its operating procedures. The bill would require the department, by December 1, 2024, to prepare, and submit to the Legislature, a report on its progress toward meeting these requirements. This bill contains other related provisions.

**[SB 265](#)****(Hurtado D) Cybersecurity preparedness: critical infrastructure sectors.** (Amended: 6/19/2023[html](#) [pdf](#))**Status:** 9/1/2023-Failed Deadline pursuant to Rule 61(a)(11). (Last location was APPR. on 7/10/2023) (May be acted upon Jan 2024)**Location:** 9/1/2023-A. 2 YEAR

**Summary:** Existing law, the California Emergency Services Act, among other things, creates the Office of Emergency Services (Cal OES), which is responsible for the state's emergency and disaster response services, as specified. Existing law requires Cal OES to establish the California Cybersecurity Integration Center (Cal-CSIC) with the primary mission of reducing the likelihood and severity of cyber incidents that could damage California's economy, its critical infrastructure, or public and private sector computer networks in the state. Existing law requires Cal OES to direct Cal-CSIC to prepare, and Cal OES to submit to the Legislature on or before January 1, 2024, a strategic, multiyear outreach plan to assist the food and agriculture sector and wastewater sector in their efforts to improve cybersecurity and an evaluation of options for providing grants or alternative forms of funding to, and potential voluntary actions that do not require funding and that assist, those sectors in their efforts to improve security preparedness. This bill would require Cal OES to direct Cal-CSIC to prepare, and Cal OES to submit to the Legislature on or before January 1, 2025, a strategic, multiyear outreach plan to assist

critical infrastructure sectors, as defined, in their efforts to improve cybersecurity and an evaluation of options for providing grants or alternative forms of funding to, and potential voluntary actions that do not require funding and that assist, that sector in their efforts to improve cybersecurity preparedness. The bill would make related findings and declarations.

**Location:** 9/14/2023-A. 2 YEAR

**Summary:** The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires specified public agencies, including air pollution control districts and air quality management districts, to perform, at the time of adoption of a rule or regulation requiring the installation of pollution control equipment or a performance standard or treatment requirement, an environmental analysis of the reasonably foreseeable methods of compliance. This bill would also require those specified public agencies, at the time of adoption of a rule or regulation requiring the reduction in emissions of greenhouse gases, criteria air pollutants, or toxic air contaminants, to perform an environmental analysis of the reasonably foreseeable methods of compliance. By imposing additional requirements on air districts, this bill would impose a state-mandated local program.

**Status:** 7/6/2023-July 11 hearing postponed by committee.

**Location:** 6/15/2023-A. W.,P. & W.

**Summary:** The California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access For All Act of 2018, approved by the voters as Proposition 68 at the June 5, 2018, statewide primary direct election, authorizes the issuance of bonds in the amount of \$4,000,000,000 pursuant to the State General Obligation Bond Law to finance a drought, water, parks, climate, coastal protection, and outdoor access for all program. Article XVI of the California Constitution requires measures authorizing general obligation bonds to specify the single object or work to be funded by the bonds and further requires a bond act to be approved by a 2/3 vote of each house of the Legislature and a majority of the voters. This bill would enact the Climate Resiliency and Flood Protection Bond Act of 2024 which, if approved by the voters, would authorize the issuance of bonds in the amount of \$6,000,000,000 pursuant to the State General Obligation Bond Law, for flood protection and climate resiliency projects. This bill contains other related provisions.

**[SB 903](#) ([Skinner D](#)) **Environmental health: product safety: perfluoroalkyl and polyfluoroalkyl substances.** (Amended: 4/11/2024 [html](#) [pdf](#))**

**Status:** 4/15/2024-Withdrawn from committee. Re-referred to Com. on APPR.

**Location:** 4/15/2024-S. APPR.

**Summary:** Existing law, commencing January 1, 2025, prohibits the manufacture, distribution, sale, or offering for sale in the state of any new, not previously used, textile articles that contain regulated perfluoroalkyl and polyfluoroalkyl substances (PFAS). Existing law, commencing January 1, 2025, prohibits the manufacture, sale, delivery, holding, or offering for sale in commerce of any cosmetic product that contains intentionally added PFAS. This bill would, beginning January 1, 2032, prohibit a person from distributing, selling, or offering for sale a product that contains intentionally added PFAS, as defined, unless the Department of Toxic Substances Control has made a determination that the use of PFAS in the product is a currently unavoidable use, the prohibition is preempted by federal law, or the product is previously used. The bill would specify the criteria and procedures for determining whether the use of PFAS in a product is a currently unavoidable use, for renewing that determination, and for revoking that determination. The bill would require the department to maintain on its internet website a list of each determination of currently unavoidable use, when each determination expires, and the products and uses that are exempt from the prohibition. The bill would impose an administrative penalty for a violation of the prohibition, as specified. The bill would establish the PFAS Penalty Account and require all administrative penalties received to be deposited into that account

and, upon appropriation by the Legislature, to be used for the administration and enforcement of these provisions, as specified. This bill contains other related provisions and other existing laws.

**Location:** 4/3/2024-S. HOUSING

**Calendar:** 4/16/2024 1:30 p.m. - 1021 O Street, Room 1200 SENATE HOUSING, SKINNER, NANCY, Chair

**Summary:** The Planning and Zoning Law requires each county and each city to adopt a comprehensive, long-term general plan for its physical development, and the development of specified land outside its boundaries, that includes, among other mandatory elements, a housing element. Existing law, the Permit Streamlining Act, among other things, requires a public agency that is the lead agency for a development project to approve or disapprove that project within specified time periods. Existing law extended by 18 months the period for the expiration, effectuation, or utilization of a housing entitlement, as defined, that was issued before, and was in effect on, March 4, 2020, and that would expire before December 31, 2021, except as specified. Existing law provides that if the state or a local agency extended the otherwise applicable time for the expiration, effectuation, or utilization of a housing entitlement for not less than 18 months, as specified, that housing entitlement would not be extended an additional 18 months pursuant to these provisions. This bill would extend by 24 months the period for the expiration, effectuation, or utilization of a housing entitlement, entitlement for a priority residential development project, as those terms are defined, that was issued before January 1, 2024, and that will expire before December 31, 2025, except as specified. The bill would toll this 24-month extension during any time that the housing entitlement is the subject of a legal challenge. By adding to the duties of local officials with respect to housing entitlements, this bill would impose a state-mandated local program. The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities. This bill contains other related provisions and other existing laws.

**Status:** 4/15/2024-April 15 hearing: Placed on APPR suspense file.

**Location:** 4/15/2024-S. APPR. SUSPENSE FILE

**Summary:** Existing law establishes the Office of Planning and Research in the Governor's office for the purpose of serving the Governor and the Governor's cabinet as staff for long-range planning and research and constituting the comprehensive state planning agency. Existing law authorizes a local agency to finance infrastructure projects through various means, including by establishing an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance that provide significant benefits to the district or the surrounding community. This bill would require the office, upon appropriation by the Legislature, to establish the Infrastructure Gap-Fund Program to provide grants to local agencies to develop and construct infrastructure projects, as defined. The bill would authorize the office to provide funding for up to 20% of a project's total cost, subject to specified requirements, including, among other things, that the office is prohibited from awarding a grant to a local agency unless the local agency provides funding that has been raised through local taxes for at least 10% of the infrastructure project's total cost. The bill would require the office to develop guidelines to implement the program that establish the criteria by which grant applications will be evaluated and funded. The bill would make these provisions operative January 1, 2027.

**Location:** 2/14/2024-S. E. & C.A.

**Summary:** Existing law requires the Legislative Analyst to prepare a fiscal analysis of each statewide measure for the ballot pamphlet, and requires the title and summary of a measure that appears on the ballot to contain a summary of the Legislative Analyst's estimate of the net state and local government fiscal impact. Existing law prescribes the form and content of the ballot label for candidates and measures on the ballot, and requires the ballot label for statewide measures to include a condensed version of the title and summary, including the fiscal impact summary. Existing law requires local governments, when submitting a measure for voter approval for the issuance of bonds that will be secured by an ad valorem tax, to provide voters a statement that includes estimates of the total debt

service and tax rates required to fund the bonds, as specified. This bill would require, for state bond measures and for local measures to approve the issuance of bonds that will be secured by an ad valorem tax, the ballot label to include a summary of the measure's fiscal impact in a specified form. Because this bill would impose new requirements on local elections officials, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**[SB 1065](#) (Padilla D) Primary drinking water standards: hexavalent chromium: compliance plan.**

(Amended: 4/8/2024 [html](#) [pdf](#))

**Status:** 4/8/2024-From committee with author's amendments. Read second time and amended. Re-referred to Com. on E.Q.

**Location:** 4/3/2024-S. E.Q.

**Calendar:** 4/24/2024 9 a.m. - State Capitol, Room 113 SENATE ENVIRONMENTAL QUALITY, ALLEN, BENJAMIN, Chair

**Summary:** The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various duties and responsibilities for the regulation and control of drinking water in the State of California. The act requires the state board to adopt primary drinking water standards for contaminants in drinking water based upon specified criteria, and requires a primary drinking water standard to be established for hexavalent chromium. Existing law authorizes the state board to grant a variance from primary drinking water standards to a public water system. Existing law makes certain violations of the act a crime. The bill would authorize, until January 1, 2029, the state board to grant an extension of up to 3 years beyond any other compliance period established by the state board for a public water system to achieve compliance with the primary drinking water standard for hexavalent chromium, as prescribed. The bill would require a public water system to comply with all requirements that the state board has established for a public water system during the compliance period, including public notice. The bill would prohibit a public water system from being deemed in violation of the primary drinking water standard for hexavalent chromium while implementing a compliance plan that has been approved by the state board if an extension is provided. This bill contains other related provisions and other existing laws.

**Status:** 2/21/2024-Referred to Com. on L. GOV.

**Location:** 2/21/2024-S. L. GOV.

**Summary:** The California Constitution sets forth various requirements for the imposition of local taxes. The California Constitution excludes from classification as a tax assessments and property-related fees imposed in accordance with provisions of the California Constitution that establish requirements for those assessments and property-related fees. Under these requirements, an assessment is prohibited from being imposed on any parcel if it exceeds the reasonable cost of the proportional special benefit conferred on that parcel, and a fee or charge imposed on any parcel or person as an incident of property ownership is prohibited from exceeding the proportional cost of the service attributable to the parcel. Existing law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local compliance with the requirements of the California Constitution for assessments and property-related fees. This bill would require, if a property-related fee or charge creates revenues in excess of the local government's reasonable cost of providing the specific benefit or specific government service, that the excess revenues be used only to reduce the subsequently adopted and following property-related fee or charge. The bill would declare that this provision is declaratory of existing law. This bill contains other existing laws.

**Calendar:** 4/22/2024 10 a.m. - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, CABALLERO, ANNA, Chair

**Summary:** The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. This bill would exclude from classification as "newly constructed" and "new construction" the construction of an accessory dwelling unit, as defined, if construction on the unit is completed on or after January 1, 2025, and before January 1, 2030, until one of specified events occurs. The bill would require the property owner to, among other things, notify the assessor that the property owner intends to claim the exclusion for an accessory dwelling unit and submit an affidavit stating that the owner shall make a good faith effort to ensure the unit will be used as residential housing for the duration the owner receives the exclusion. The bill would require the State Board of Equalization to prescribe the manner and form for claiming the exclusion. Because this bill would require an affidavit by a property owner and a higher level of service from county assessors, it would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**Location:** 4/3/2024-S. E.Q.

**Calendar:** 4/24/2024 9 a.m. - State Capitol, Room 113 SENATE ENVIRONMENTAL QUALITY, ALLEN, BENJAMIN, Chair

**Summary:** Under existing law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal national pollutant discharge elimination system permit program established by the federal Clean Water Act and the Porter-Cologne Water Quality Control Act. This bill would require the board to, on or before August 1, 2025, establish regulations governing annual reporting by compliance entities, as defined, regarding water discharges, as provided. The bill would require compliance entities to submit a report to the board by June 1, 2026, and annually thereafter on water discharges and their locations, as provided. The bill would require the board to quantify the cost of mitigating contamination, if any, caused by those reported water discharges and would require the board to notify the compliance entities of the cost of mitigating their contamination. The bill would authorize the compliance entity to elect to mitigate the contamination caused by the entity's reported water discharges, or to have the board impose a surcharge for the cost of mitigating the compliance entity's contamination. The bill would create the California Water Quality and Public Health Impact Fund for receipt of revenue from the surcharge. The bill would require the moneys in the fund to be used exclusively to mitigate the impacts of the contamination on waters of the state caused by the reported water discharges. The bill would authorize the board to charge compliance entities a reasonable fee necessary to cover the board's reasonable costs of administering and implementing these provisions and to impose noncompliance penalties, not to exceed \$1,000,000.

**[SB 1185](#) (Niello R) Water conservation: water use objectives.** (Amended: 3/18/2024 [html](#) [pdf](#).)

**Status:** 4/4/2024-Set for hearing April 23.

**Location:** 4/3/2024-S. N.R. & W.

**Calendar:** 4/23/2024 9 a.m. - 1021 O Street, Room 2100 SENATE NATURAL RESOURCES AND WATER, MIN, DAVE, Chair

**Summary:** Existing law requires all water suppliers to increase the efficient use of water. Existing law establishes various water use objectives and restrictions, including urban water use objectives. Existing law requires the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water, including standards for, among other things, a volume for water loss, and requires the board, when adopting the standards, to consider policies relating to urban water use objectives and proposed efficiency standards' effects on local wastewater management, developed and natural parklands, and urban tree health. This bill would delete the requirement that the board adopt standards, for purposes of urban water use objectives,

for water loss and would instead require the board to consider the policies relating to urban water use objectives and proposed efficiency standards' effects on water loss. The bill would also set forth standards, policies, and procedures relating to water use objectives, generally, including, among other things, a prohibition against any water use objective established by the board that causes a reduction of more than 20% when compared to a water supplier's actual water use in 2023 or that exceeds a water use standard recommended by the department. The bill would also authorize any amount of water to be used for a variance from a water use objective and would prohibit any required minimum amount of water for a variance. The bill would impose additional duties on the board, including requiring the board to develop a self-certification process for water suppliers for purposes of validating the amount of water in a variance, as provided.

**[SB 1188](#)** (**[Laird D](#)**) **Drinking water: technical, managerial, and financial standards.** (Amended: 3/18/2024 [html](#) [pdf](#))

**Status:** 4/5/2024-Set for hearing April 17.

**Location:** 4/3/2024-S. E.Q.

**Calendar:** 4/17/2024 9 a.m. - 1021 O Street, Room 1200 SENATE ENVIRONMENTAL QUALITY, ALLEN, BENJAMIN, Chair

**Summary:** Existing law, the California Safe Drinking Water Act, imposes on the State Water Resources Control Board various responsibilities and duties relating to providing a dependable, safe supply of drinking water. Existing law requires the state board to directly enforce the provisions of the act for all public water systems, except as specified. The act prohibits a person from operating a public water system unless the person first submits an application to the state board and receives a permit to operate the system, as specified. Existing law authorizes the state board to impose permit conditions, requirements for system improvements, technical, financial, or managerial requirements, and time schedules as it deems necessary to ensure a reliable and adequate supply of water at all times that is pure, wholesome, potable, and does not endanger the health of consumers. Existing law makes it a crime to knowingly make any false statement or representation in any application, record, report, or other document submitted, maintained, or used for purposes of compliance with the act. This bill would require the state board to develop and adopt minimum standards related to the technical, managerial, and financial capacity of public water systems with fewer than 10,000 service connections. The bill would require public water systems with fewer than 10,000 service connections to have the capacity to demonstrate compliance with those standards, as provided. This bill would prohibit the state board and the Department of Water Resources from granting or loaning state funding to a public water system that fails to comply with the bill unless the state board or department makes a finding regarding at least one of 3 specified conditions. The bill would authorize the state board to require a public water system subject to the minimum standards to show proof that it has the technical, managerial, and financial capacity to comply with the standards, including, but not limited to, annual reporting of information necessary and appropriate to monitor a public water system's current capacity status. Because knowingly making a false statement or representation in that report would be a crime under the California Safe Drinking Water Act, the bill would impose a state-mandated local program by expanding the scope of a crime.

**Calendar:** 4/17/2024 9 a.m. - 1021 O Street, Room 2200 SENATE LOCAL GOVERNMENT, DURAZO, MARIA ELENA, Chair

**Summary:** Existing law vests the Public Utilities Commission with regulatory authority over public utilities, including electrical corporations, gas corporations, sewer system corporations, and water corporations, while local publicly owned utilities, including municipal utility districts, public utility districts, and irrigation districts, are under the direction of their governing boards. This bill would, for new housing construction, require the above-described utilities to publicly post on their internet websites (1) the amount of any charge issued for a service connection, capacity, or other point of connection charge by the housing unit's address, and (2) the schedule of fees for a service connection, capacity, or other point of connection charge, as specified. The bill would, for new housing construction, require each utility to ensure that its internet website allows an applicant for a service connection to, among other things, receive a reasonable estimate regarding when the utility will complete the applicant's service connection. To the extent that this bill imposes new requirements on certain local agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**[SB 1218](#) (Newman D) Water: emergency water supplies.** (Introduced: 2/15/2024 [html](#) [pdf](#))**Status:** 4/2/2024-Set for hearing April 23.**Location:** 2/29/2024-S. N.R. & W.**Calendar:** 4/23/2024 9 a.m. - 1021 O Street, Room 2100 SENATE NATURAL RESOURCES AND WATER, MIN, DAVE, Chair**Summary:** Existing law, the Urban Water Management Planning Act, requires every public and private urban water supplier that directly or indirectly provides water for municipal purposes to prepare and adopt an urban water management plan. The act requires an urban water management plan to include a water shortage contingency plan, as provided. This bill would declare that it is the established policy of the state to encourage and incentivize, but not mandate, the development of emergency water supplies, and to support their use during times of water shortage.**Position**Watch-Key

**[SB 1255](#) (Durazo D) Public water systems: needs analysis.** (Amended: 4/1/2024 [html](#) [pdf](#))**Status:** 4/3/2024-Set for hearing April 17.**Location:** 2/29/2024-S. E.Q.**Calendar:** 4/17/2024 9 a.m. - 1021 O Street, Room 1200 SENATE ENVIRONMENTAL QUALITY, ALLEN, BENJAMIN, Chair**Summary:** The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties relating to the regulation of drinking water to protect public health. Existing law establishes the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Existing law requires the state board to annually adopt a fund expenditure plan, as provided, and requires expenditures from the fund to be consistent with the fund expenditure plan. Existing law requires the state board to base the fund expenditure plan on data and analysis drawn from a specified drinking water needs assessment. This bill would require the state board to update a needs analysis of the state's public water systems to include an assessment, as specified, of the funds necessary to provide a 20% discount for low-income households served by community water systems with fewer than 3,000 service connections and for community water systems with fewer than 3,000 service connections to meet a specified affordability threshold on or before July 1, 2026, and on or before July 1 of every 3 years thereafter.**Position**Watch-Key

**[SB 1330](#) (Archuleta D) Urban retail water supplier: water use.** (Amended: 3/19/2024 [html](#) [pdf](#))**Status:** 4/2/2024-Set for hearing April 23.**Location:** 2/29/2024-S. N.R. & W.**Calendar:** 4/23/2024 9 a.m. - 1021 O Street, Room 2100 SENATE NATURAL RESOURCES AND WATER, MIN, DAVE, Chair**Summary:** Existing law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, to conduct necessary studies and investigations, and recommend for adoption by the board appropriate variances for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. Existing law requires the department, in recommending variances, to also recommend a threshold of significance for each recommended variance. Existing law requires an urban retail water supplier to request and receive approval by the board for inclusion of a variance in calculating their water use objective. Existing law requires the board to post specified information on its internet website relating to variances, including a list of all urban retail water suppliers with approved variances. This bill would require the board to adopt variances recommended by the department for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. The bill would provide that variances adopted by the board shall not be subject to a threshold of significance. The bill would require an urban retail water supplier to self-certify the amount of water included in its urban water use objective that is attributable to a variance. The bill would require the board to randomly audit a select number of variances each year to ensure the self-certifications are based on variances adopted by the board. The bill would delete the provision relating to posting specified information about variances on the board's internet website and the provision requiring an urban retail water supplier to request and receive approval by the board for inclusion of a variance in calculating their water use objective. This bill contains other related provisions and other existing laws.**Position**Watch-Key

**[SB 1373](#) (Cortese D) Water data dashboard.** (Amended: 4/11/2024 [html](#) [pdf](#))

**Status:** 4/11/2024-From committee with author's amendments. Read second time and amended. Re-referred to Com. on N.R. & W.

**Location:** 4/3/2024-S. N.R. & W.

**Calendar:** 4/23/2024 9 a.m. - 1021 O Street, Room 2100 SENATE NATURAL RESOURCES AND WATER, MIN, DAVE, Chair

**Summary:** Existing law imposes on the Department of Water Resources various duties with respect to water in the state. Existing law, the Open and Transparent Water Data Act, requires the department, in consultation with the California Water Quality Monitoring Council, the State Water Resources Control Board, and the Department of Fish and Wildlife, to create, operate, and maintain a statewide integrated water data platform that, among other things, integrates existing water and ecological data information from multiple databases and provides data on completed water transfers and exchanges. This bill would require the department, while seeking input from the California Water Data Consortium, as defined, to create a water data dashboard that is accessible through its internet website, as specified. The bill would include related findings and declarations.

**[SB 1387](#) (Newman D) California Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project: vehicle eligibility.** (Amended: 3/18/2024 [html](#) [pdf](#))

**Status:** 4/5/2024-Set for hearing April 17.

**Location:** 4/3/2024-S. E.Q.

**Calendar:**

4/17/2024 9 a.m. - 1021 O Street, Room 1200 SENATE ENVIRONMENTAL QUALITY, ALLEN, BENJAMIN, Chair

4/23/2024 1:30 p.m. - 1021 O Street, Room 1200 SENATE TRANSPORTATION, CORTESE, DAVE, Chair

**Summary:** Existing law establishes the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. The state board, in this capacity, administers the California Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project under which the agency issues a limited number of vouchers to incentivize the purchase and use of zero-emission commercial vehicles. This bill would require the state board to authorize a voucher issued under the program to be used for the acquisition of any zero-emission vehicle that meets specified requirements, including that the vehicle has a gross vehicle weight rating that exceeds 8,500 pounds and the vehicle is purchased for fleet operations by a public or private fleet or for personal and commercial use by an individual. If the voucher is provided to an individual to acquire a vehicle for personal and commercial use, the bill would require that individual to attest under penalty of perjury that the vehicle will be substantially used in furtherance of a valid commercial or business purpose. The bill would authorize the state board to adopt regulations to implement these requirements. This bill contains other existing laws.

**[SB 1393](#) (Niello R) Advanced Clean Fleets Regulation Appeals Advisory Committee.**

(Introduced: 2/16/2024 [html](#) [pdf](#))

**Status:** 4/3/2024-April 3 set for first hearing. Failed passage in committee. (Ayes 3. Noes 1.) Reconsideration granted.

**Location:** 2/29/2024-S. E.Q.

**Summary:** Existing law requires the State Air Resources Board to adopt and implement motor vehicle emission standards, in-use performance standards, and motor vehicle fuel specifications for the control of air contaminants and sources of air pollution that the state board has found necessary, cost effective, and technologically feasible. The California Global Warming Solutions Act of 2006 establishes the state board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases and requires the state board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions from those sources. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-emission vehicles. The Advanced Clean Fleets Regulation authorizes entities subject to the regulation to apply for exemptions from its requirements under certain circumstances. This bill would require the state board to establish the Advanced Clean Fleets Regulation Appeals Advisory Committee by an unspecified date for purposes of reviewing appeals of denied requests for exemptions from the requirements of the Advanced Clean Fleets Regulation. The bill would require the committee to include representatives of specified state agencies, other state and local government representatives, and representatives of private fleet owners, the electric vehicle manufacturing industry, and electrical corporations, as provided. The bill would require the committee to meet monthly and would require recordings of its meetings to be made publicly available on the state board's internet website. The bill would require the committee to consider, and make a recommendation on, an appeal of an exemption request denial no later than 60 days after the appeal is made. The bill would require specified information relating to the committee's consideration of an appeal to be made publicly

available on the state board's internet website. The bill would require the state board to consider a recommendation of the committee at a public meeting no later than 60 days after the recommendation is made. This bill contains other existing laws.

**[SB 1402](#) (Min D) 30x30 goal: state agencies: adoption, revision, or establishment of plans, policies, and regulations.** (Amended: 4/10/2024 [html](#) [pdf](#))

**Status:** 4/12/2024-Set for hearing April 23.

**Location:** 4/9/2024-S. N.R. & W.

**Calendar:** 4/23/2024 9 a.m. - 1021 O Street, Room 2100 SENATE NATURAL RESOURCES AND WATER, MIN, DAVE, Chair

**Summary:** By Executive Order No. N-82-20, Governor Gavin Newsom directed the Natural Resources Agency to combat the biodiversity and climate crises by, among other things, establishing the California Biodiversity Collaborative and conserving at least 30% of the state's lands and coastal waters by 2030. Existing law requires the Secretary of the Natural Resources Agency to prepare and submit, on or before March 31, 2024, and annually thereafter, a report to the Legislature on the progress made in the prior calendar year toward achieving the goal to conserve 30% of California's lands and coastal waters by 2030. Existing law provides that it is the goal of the state to conserve at least 30% of California's lands and coastal waters by 2030, known as the 30x30 goal. This bill would require all state agencies, departments, boards, offices, commissions, and conservancies to consider the 30x30 goal when adopting, revising, or establishing plans, policies, and regulations that directly affect land use, management of natural resources, water use and quality, or biodiversity conservation.

## MEMORANDUM

TO: Board of Directors  
FROM: Stacy Taylor, Water Policy Manager  
DATE: April 24, 2024  
SUBJECT: Orange County Update

---

### RECOMMENDATION

Receive and file the Orange County Update.

### STRATEGIC PLAN

Goal #7: Actively participate in regional and statewide water issues.

### PRIOR BOARD ACTION/DISCUSSION

This item is provided monthly at a Mesa Water District (Mesa Water®) Board of Directors meeting.

### DISCUSSION

Mesa Water's governmental relations program includes monitoring local and regional political issues and policy-setting authorities (i.e., County of Orange, Orange County Local Agency Formation Commission, etc.). Attached is the monthly Orange County report.

### FINANCIAL IMPACT

In Fiscal Year 2024, \$475,000 is budgeted for Water Policy Support Services; \$349,215 has been spent to date.

### ATTACHMENTS

Attachment A: The County of Orange Report

## **LAFCO Division on Display**

There appears to be a philosophical divide among LAFCO members and it was on full display at the April meeting. Some members, particularly Commissioners Bucknum and McGregor, seem in favor of both a more activist LAFCO and a willingness to follow staff recommendations. A majority, comprised of Commissioners Wagner, Davert, Fisler and Whitaker exhibit a desire to keep LAFCO as a “kinder, gentler organization”. As Commissioner Fisler likes to say as he visits Special Districts “I want a LAFCO that is a facilitator, not an initiator”.

Against this backdrop, consultant Brian Kelly made a second presentation regarding a proposed handbook for Commissioners. Commissioners had several months to mull over the first presentation. Of note, no other LAFCO in the state utilizes a similar handbook. The handbook had several sections that troubled most Commissioners. One section listed as one of its goals that LAFCO needed to become a progressive agency. Another section limited Commissioners comments before other agencies and groups.

After the presentation, Commissioner Davert suggested the Commission would need more time to tweak the language before passage. Commissioner Bucknum and McGregor expressed general support for the handbook. The consultant made the point that public access to the handbook would aid constituents in understanding LAFCO’s function. Commissioner Davert responded that LAFCO has greatly improved its website and communications and that largely suffices.

At this point, Commissioner Fisler offered a motion to table the item, but that was thwarted by a substitute motion by Bucknum and McGregor to just delay the item. After much debate and discussion, this eventually passed with a 90 day delay, awaiting changes by commission members. Expect a much shorter and less controversial final product.

## **County Board Holds Two Meetings**

The Board of Supervisors held meetings on March 26 and April 9, 2024. Neither meeting dealt with issues of interest. The March 26 meeting however included a vote on certifying the primary election results.

## **California's Future is in Their Hands**

The Public Policy Institute of California [PPIC] recently released a study analyzing the opinions of younger Californians (age 18-34) on a variety of issues and preferences. This was not a recent poll, but instead an analysis of their responses to polls going back years.

Here are some of the key findings:

- Young Californians, defined here as 18–34, are much more likely than older Californians to be people of color. This difference holds overall and within each political party.
- Young Californians are more liberal than older Californians across a range of policy topics, especially on questions of race relations and immigration. The greater racial and ethnic diversity of young Californians does not fully explain these differences.
- Young Californians are more likely to register as Democratic—or lean Democratic when registered as independents—and self-identify as liberal. While young Republicans and Democrats hold very different opinions, they are still closer on the issues and on opinions of elected officials than are older Republicans and Democrats.
- In the rest of the country, age differences in political views are very similar to the ones in California; if anything, they are larger outside the state.
- There is little evidence that Californians of the same generation have become more conservative as they age.

Much of this can be explained by differing demographics -

### **The Demographic Generation Gap**

Younger people in California have a different demographic profile than older people (Figure 1). They are less likely to be white (28% vs. 46%), much less likely to own a home (24% vs. 59%), and much more likely to have an annual income under \$60,000.<sup>2</sup>

## As PPIC points out

There are important differences between younger and older Californians in broader political predispositions and views of the parties and candidates. Younger Californians are more likely to identify as Democrats (58% vs. 52%; Figure 6)—either because they are registered as Democrats or because they are registered as No Party Preference but lean toward the Democratic party—and younger Californians are more likely to call themselves liberal (42% vs. 30%; Figure 7).

Figure 6

### Age gaps around party and ideology can be significant

SOURCE: PPIC Statewide Survey 2016-2023.

Conversely, younger Californians are less likely to identify as Republicans (22% vs. 31%) or to call themselves conservative (23% vs. 35%). They are about as likely as older Californians to trust the federal government and to be satisfied with the candidates they are offered, though they are marginally more likely to dislike both parties.

### Age gaps around vote choice are larger than feelings about candidates and parties

SOURCE: PPIC Statewide Survey 2016-2023.

Consistent with the less-polarized policy views of younger Californians, the partisan gap in presidential and gubernatorial approval has been smaller among younger than older Californians (Figure 8). Young Republicans have been the main source of this difference. Young Republicans were 17pp more approving than older Republicans of Obama and 15pp less approving of Trump and have been 8pp more approving of Biden so far.

## Presidential Race Update

The most recent polling has shown a slight improvement for President Biden. Betting sites now list Biden as a narrow victor. Polling indicates that many voters view this as a “lesser of two evils election”. Donald Trump’s current criminal trial coupled with the state of Arizona’s abortion controversy, seemed to have given some wind to President Biden’s sails.

Battlegrounds	Trump	Biden	Spread
Wisconsin	47.8	<u>47.2</u>	Trump +0.6
Arizona	49.0	44.5	Trump +4.5
Georgia	49.4	45.6	Trump +3.8
Michigan	48.0	45.2	Trump +2.8
Pennsylvania	46.2	46.3	Biden +0.1
North Carolina	48.4	44.4	Trump +4.0
Nevada	47.5	44.3	Trump +3.2

At least for now our reservoirs are full and our snowpack above normal, guaranteeing sufficient water supply through 2025. The Colorado River basin had a near normal snowpack as well. Lake Powell is 38 feet higher than one year ago, but still only 31.5% full pool.
