## Croddy Well Drilling Construction to Start

As part of its Capital Improvement Program, Mesa Water District (Mesa Water®) is constructing a water well and a pipeline in Santa Ana. The well will be built in an industrial/commercial area at 3120 S. Croddy Way.

The second phase of the project will begin in October and involve construction of the well. Work will include well drilling, development and equipping.

After construction of the well is completed, the final phase of work will be on-site pipeline construction and testing. The project is expected to be completed by late fall of 2022.

### Dates of Construction:

October 2020 – Spring 2021  
Monday – Friday  
7:00 a.m. – 5:00 p.m.

### Location

3120 S. Croddy Way  
Santa Ana, CA 92704

### Questions?

Thank you for your patience and understanding during the construction. Should you have any questions or concerns please contact Mesa Water at:

### Project Activity During Construction

- Use of heavy equipment
- Excavation and removal of materials including soil
- Deliveries of equipment and materials
- Periods of 24-hour drilling

### Impacts

- Through-traffic will be maintained at all times
- Driveway access, trash and delivery services will not be affected
- Noise, dust and vibration during drilling activity

### Background

Mesa Water District provides potable water for a population of about 110,000 within an 18-square-mile service area that includes Costa Mesa, portions of Newport Beach and portions of unincorporated Orange County. Mesa Water is constructing two new water wells and 4,500 feet of pipeline that will connect into the District's existing distribution system and allow Mesa Water to increase local water production capacity.
